Dried Beef, sliced wafer thin, Hickory Smoked and with a choice flavor that you will remember.

Vienna Sausage—just right for Red Hots, or to serve cold. We suggest you try them served like this: Cut rye bread in thin slices, spread with creamed butter and remove crusts. Cut a Libby's Vienna Sausage in half, lengthwise, and lay on the bread. Place on the top of the sausage a few thin slices of Libby's Midget Pickles. Cover with the other slice of bread and press lightly together. Arrange on plate and serve garnished with a few parsley sprays.

### The Source of Uric Acid

Eating too much is a common habit that does a lot of harm. Meat, especially, forms uric acid and the constant filtering of acid-laden blood weakens the kidneys. Uric acid causes rheumatic and nervous trouble, weakens the eyes, forms gravel and leads to dropsy and Bright's disease. Kidney weakness gives early warnings, however, such as backache and urinary disorders, and can be stopped by prompt treatment.

Use Doan's Kidney Pills, the best recommended and most widely used kidney remedy.

When I read about Doan's Kidney Pills, I decided to try them and get some. Since I used them, the pain and swelling has gone and my kidneys haven't bothered me."

## WILSON AT HEAD OF GREAT ARMADA

### Will Lead Greatest Fleet Through Canal.

#### ORIGINAL PLANS CHANGED

Navies Of Nine Nations Have Already Announced They Will Send Ships To Panama For the Opening Ceremonies.

Washington, D. C.—President Wilson next March will lead personally the great international fleet of war ships from Hampton Roads to Colon, to participate in the formal opening of the Panama Canal, by passing through on the bridge of the world-famous old battleship Oregon as leader of the long line of fighting craft of all nations, and then, after proceeding northward, enter the Golden Gate at the head of this armada and attend the Panama-Pacific Exposition at San Francisco.

This announcement was made by Secretary Daniels, who has been working a long time to bring about the notable program. Originally the President was to go from Washington to Hampton Roads to greet the commanders of the international fleet as they arrived and to participate in the ceremonies attendant upon the departure of the vessels on their long cruise around the North American continent. Afterward he was to make the trip by rail to San Francisco to visit the exposition at some convenient later date.

#### Had Promised Goethals.

The President, however, has determined now to do full honor to the expedition by making his advent upon the scene at the head of an armada the like of which the world has never seen. Also he will redeem his long-standing promise to Col. George W. Goethals by not only visiting but formally opening the Panama Canal. He will make his passage through on the Oregon with Rear-Admiral Charles E. Clark (retired), who captained the ironclad in her famous Spanish War cruise around Cape Horn. Also on the Oregon will be most of the members of the Cabinet.

The President, according to the present program, many details of which remain to be worked out, will leave Washington for Hampton Roads accompanied by his official family on the yacht Mayflower on March 5, 1915. The international fleet will have been gathered in the roads since January 1, but the President feels obliged to defer his own departure until the date mentioned because of his desire to remain in Washington until the session of Congress closes.

So far nine maritime countries have signified their intention to take part in the naval parade through the canal, and it is certain there will be other participants announced before the end of this year. The countries that already have accepted are Argentina, Cuba, France, Germany, Great Britain, Italy, Japan, Portugal and Russia.

The entire Atlantic fleet of the American Navy will form the nucleus around which the international naval forces will gather. The officers and men of the fleet will be the nation's guests and will make excursions from Hampton Roads to the capital and to nearby Eastern cities while arrangements are being made for the long cruise from Chesapeake Bay to the Golden Gate.

After the ceremonies at Hampton Roads the President will take up his quarters on the super-dreadnought New York. Then the start will be made for Colon, with the New York leading. The ships will form a column many miles in length, for it is estimated that there will be nearly 100 ships in the procession.

Arriving at Colon within a week there will be a delay of a day or two while arrangements are being made to pass the vessels through the canal. This will be done with all ceremony, the line being headed by the ancient steam launch Louise, the gift of the American Government to the Government of France. The Oregon is to follow with the Presidential party.

The fleet should be transferred from the Atlantic to the Pacific in the course of about four days.

When the ships have made the passage and have anchored in Panama Bay fresh supplies of coal, oil and provisions will be taken aboard and the procession will start for the North. It is probable a brief stay will be made at San Diego, Cal., to do honor to the Panama-California Exposition in progress at that place in connection with the canal celebration.

If all goes well the first vessels of the international fleet should pass through the Golden Gate by April 15, 1915.

### SUFFRAGE ACT UPHELD.

Illinois—Supreme Court Calls Women's Act Legal.

Springfield, Ill.—The Illinois Supreme Court declared the Illinois Woman's Suffrage act constitutional. The point also was raised that the suffrage act in reality amended the general election laws, although no reference was made in its title to its amendatory effect, as is demanded by law.

#### Shift Your Gears!

If I were going to attempt a sermon (and who does not feel himself capable of at least a couple?) my first text should be upon the theme: Shift-Gears. I should begin with a pertinent illustration. It would be the picture of a motor-car and a long hill. You size up the hill from the bottom and attempt it on the high gear. The grade proves to be steeper than at first thought. The engines begin to pound. But you have vowed to make the top on the high gear. By simply shifting over, with whatever reluctance, all would be well. Instead, you let the engine fret and throb, perhaps stall itself or wreck something, for your pride's sake. This the picture. Then the Moral Application (which every one has seen coming all along). "Now, good friends, isn't this just what we are trying to do? Are we not playing the foolish chauffeur, and wearing out our engines needlessly, when we attempt to take all life's roads upon the high speeds? Shift your gears before it is too late!"—E. P. Frost, in the Atlantic.

#### Paradoxical Precaution.

"There is one queer thing about a coal trust."

"What is that?"

"When it limits production, it never has coal to burn."

#### Clean Rocks for Royal Fleet.

The Emperor William is to be present at military maneuvers in the Vosges, not far from the Drais-Epis, and the soldiers of Colmar Garrison have been employed in scrubbing the rocks around the spot where his majesty is to stand, glass in hand, to watch the maneuvers, says the Paris Matin.

The rocks, after being well scrubbed, are to be washed with black soap and a plentiful supply of water, after which they will be artificially adorned with

#### Some Bootless Remarks.

The whole-souled fellow is not half so likely to go on his uppers as the half-souled ones. The former is usually better heeled and doesn't peg out and leave a fellow in the lurch when he finds it necessary to revamp his fortunes after business affairs have run counter to his desires.

## BAD TETTER ON HANDS

R. F. D. No. 1, Critz, Va.—I had tetter on my hands so badly that I could hardly do anything. It would begin to come in clear white blisters, then they would burst and peel off all over and crack and bleed. My hands were so sore and itched so badly I could not rest day or night. I could not put them in water nor do my regular work.

"I tried medicine and several different kinds of cream on them but they got worse instead of better. Nothing did me any good until I tried Cuticura Soap and Ointment. And now my hands are perfectly well and all right." (Signed) Miss Ellen Tudor, Nov. 13, 1912.

#### Business Is on Its Way Out Again.

Speaking of the business outlook the Manufacturers' Record says that a group of New York men had gathered in a rather mournful spirit, and as they discussed the business outlook, which seemed to them to grow darker and darker, one wit in the party, turning to a staid, much-peturbed financier, said:

"Mr. Blank, can you tell me how far a dog can run into the woods?"

"Mr. Blank, somewhat irritated at a time of serious discussion, rather tartly replied that "the supposed dog could run into the woods just as far as he wanted to."

"No," said the questioner, "when he has run half-way into the woods he is then running out of the woods."

#### The Middle Course.

Senator Root at a reception was discussing the Mexican situation. "Steer a middle course," he said to an extremist. "These extreme ideas are always wrong."

"Thus at tea, one young girl asked another:

"And where are you going this summer, dear?"

"From the way mother talks," was the reply, "you'd think we were going to Newport. From the way father talks you'd think we were going to starve. But I suppose we'll steer a middle course, as usual, and put in a fortnight at a \$12 Atlantic City boarding house."

#### Practically So.

Eddie, what's the matter? Fall?"

"No. I tried to hang some pictures and stood some dictionaries on a table and they slipped from under me."

"Words fell off you, I suppose?"

Judge.

#### EYE STRAIN

Relieved by Quitting Coffee.

Many cases of defective vision are caused by the habitual use of coffee. It is said that in Arabia, where coffee is used in large quantities, many lose their eyesight at about fifty. Tea contains the same drug, caffeine, as coffee.

A N. J. woman writes to the post concerning eye trouble and coffee. She says:

"My son was for years troubled with his eyes. He tried several kinds of glasses without relief. The ophthalmist said there was a defect in his eyes which was hard to reach.

"He used to drink coffee, as you all did, and finally quit it and began to use Postum. That was three years ago and he has had no trouble with his eyes since."

"I was always fond of tea and coffee and finally became so nervous I could hardly sit still long enough to eat a meal. My heart was in such a condition I thought I might die at any time."

"Medicine did not give me relief and I was almost desperate. It was about this time we decided to quit coffee and use Postum, and have used it ever since. I am in perfect health. No trouble now with my heart and never felt better in my life."

"Postum has been a great blessing to us all, particularly to my son and myself."

Name given by Postum Co., Easton, Creek, Mich. Read "The Road to Wellville," in pkgs.

Postum now comes in two forms: Regular Postum—must be boiled. 15c and 25c packages. Instant Postum—Is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with cream and sugar, makes a delicious beverage. Instantly. 30c and 50c tins.

The cost per cup of both kinds is about the same.

"There's a Reason" for Postum.—sold by Grocers.
