world, even so have I also sent them into the world, even so have I also sent them into the world.... Then said Jesus to them again, Peace be unto you: as my Father hath sent me, even so send I you." John 17:15; 20:21.

> The failure of the church in these days is

sometimes attributed to the wide prevalence of materialism, formalism, commercialism and departure from the truth, but may it not be in the members of the church not properly recognizing their mission.

rectly presented in the text? The two small words "as" and "so" as found in the text, are very significant. 'As my Father hath sent me, even so send I you." It is not for us to examine into the counsels of eternity. but we know there was a purpose in the sending of Jesus Christ to this earth on the part of the father, and a

willingness to perform that mission by the Son, who said: "I am come to do thy will, O God." There are three phases of the mission of Jesus Christ that may help the Christian to understand what his mission is.

1. Jesus was sent to exemplify a perfectly holy life. We may indeed say that God wanted to show the world that there could be a perfect life in one wearing the human body. Jesus asked in his great intercessory prayer that his disciples might be sanctified through the truth, that is, made holy. While we cannot get along without the atonement of Jesus Christ by death, we cannot get on without this holy life. Jesus challenged his enemies to charge him with any sin, and their testimony is on record, that they could find no fault with him. The

the best testimonies to the genuineness of his mission. The mission of his disciples is likewise to exemplify holiness. It must not be negative only, the avoiding of evil, but it must be positive, and will come out in making the Word of God the guide of life, in prayer, in meditation and in a correct outward deportment according to God's law.

moral glory of Jesus Christ is one of

2. The mission of Jesus Christ was also that of saving. It is true that we may think of Christ as saving us making a substitutionary sacrifice, but

LESSON FOR JULY 26 THE POUNDS AND THE TALENTS.

LESSON TEXT-Luke 19:11-27, cf. Matt. 25 14-39. GOLDEN TEXT-"Well done, good and faithful servant; thou hast been faithful over a few things, I will set thee over many things; enter into the joy of thy lord." Matt. 25:21 R. V.

We are told plainly why Jesus spoke the first parable (v. 11). We must be-

ware of confusing these two parables though they are one in their essential teachings. The parable of the pounds was ut-

tered before the triumphal entry of Jesus into Jerusalem while that of the talents was spoken subsequently. This association does not mean identity for each has a separate lesson Both have to do with an absent lord whose return was imminent. The Jews looked for a temporal visible which is very di-Kingdom and many were associating the earthly life of our Lord with that expected manifestation. Hence this

parable as recorded by Luke. Issue Is Fidelity.

I. "Occupy Till I Come," vv. 11-14. Both of these parables have to do with the return of an absent lord who will then establish his kingdom. In view of this return and consummation, his servants are to give their undivided attention to their immediate responsibilities. They are to trade, to do business with that that has been in-

trusted to them They are to actively discharge their duty. Ere the visible kingdom is established, Jesus told these Jews, there must be a period of preparation. Jesus, himself, is the "nobleman" whose ascension into heaven where he is to receive a kingdom fulfils the "departure into a far country." He will return to set up that kingdom, Acts 1:9-11, with "all authority," Matt. 28:18 R. V., Eph. 1. 18-23; I Pet. 3:22. He may return at any time. In neither parable is there a full description of the kingdom as ft is to be established, for both have to do with the servants. The issue is that of fidelity in each case.

The "citizens" (v. 14) include his proper subjects the Jews, John 1:11; Acts 4:27-28, and in this connection we recall their cry, "Away with him, crucify," Luke 23:8; John 19:15. These "citizens," also include all of his professed followers but not necessarily regenerated men. Matt. 7:22-33. The king gives to each servant (v. 13) a pound (about \$18.00). His deposit is equal in each case. In the parable of pital, Vienna, is a drunkard." the talents there is a difference in the amounts bestowed. This last emphasizes the fact that each is to be held responsible according to the measure of his own personal ability. Putting these two together we see that all the servants of the king are responsible for the one pound which is a symbol power. At the same time the servant

EFFICIENCY IS WATCHWORD.

Popular sentiment without doubt heartily approves of the order issued by the secretary of the navy prohibiting the use of alcoholic beverages by officers on naval vessels and at shore stations. To quote the Chicago Tribune: "There is only one intelligent opinion as to the orderit is wise." Considered from the standpoint of efficiency alone, the order commends itself as a patriotic and a statesmanlike action. As the Journal of the American Medical Association points out in this connection, officers as well as enlisted men on a modern warship "need not only personal courage, but also absolute steadiness of nerve, clearness of vision and fine muscular co-ordination. All these things modern physiology has shown to be impaired by even small amounts of alcohol,

Surgeon General Braisted has full knowledge of the latest findings of medical science concerning the nature and effect of alcohol, and his recommendation to Secretary Daniels was in line with the demands of the times. "In the next naval war victory will belong to that nation which can show the smallest consumption of alcohol," said Emperor William.

Not only in the navy, but in the army and in all the departments of government with their modern high pressure responsibilities is there increasing urgency for efficiency in officers and in men. Alcohol and government machinery don't go well together.

DRUNKENNESS IN EUROPE.

"No drunkenness in the beer-drinkseven years. ing, light wine-drinking countries of Europe," the anti-temperance people tell us. We refer them to statistics recently given to the public by Dr. Walter Kern of the Institute for Pathological Anatomy in Vienna.

"For two years [at Doctor Kern's re quest] death attests in the General hospital, Vienna, were marked by the attending physicians with the statement as to whether the patient hap pened to be a drunkard or not. Of course, the report which came in as a consequence of this inquiry was far below the reality. Many patients, who were genuine drinkers, would describe themselves as very moderate, and many of the physicians in attendance would not have sufficient interest to

make a thoroughgoing inquiry. Nevertheless the conclusion was serious enough. In all, 4,130 cases were observed. Of the adult males 8.39 per cent were of a certainty drunkards. In other words, every eleventh or twelfth man dying in the General hos-

Sewing Hairs on Scalps is Proving Successful-Fine Gold Wires Are Used.

A method of sewing hairs in the human scalp in cases of partial or total baldness has been successfully used in several instances by Doctor Szekely, at the hospital of Saint Stephane at Budapest, and a report appears in the London Times.

The number of hairs "planted" in the head of a patient has been as many as 50,000. One hundred hairs are drawn through punctures in the scalp to every square centimeter, and as both ends are left free, the number is thus 200, or over one thousand to each square inch. Very fine gold wires are used, one five-hundredth of an inch in diameter, and fine long hairs from a woman's head are attached at the middle to these. The gold loop or knot acts as an "anchor." and after sterilization is introduced into the subcutaneous tissue, where It is slightly twisted, and holds the hair permanently in position. It is stated that 500 hairs can thus be introduced into the scalp within three quarters of an hour.

Doctor Szekely has designed a special instrument for introducing and fixing the gold wires. The latter are so light and so fine that the total amount of gold in the scalp after "planting" 50,000 hairs is only one gramme. The hair is stated to appear perfectly natural, and a capsule of tissue appears to form around each gold wire knot. The inflammation resulting from the treatment entirely disappears in from ten to twelve days. and in no case, so far, has any intense inflammation or suppuration resulted. The hair can be washed, brushed and treated with oil in the ordinary way, and one of the earliest patients so treated, a lady, has retained her hair intact, with the original luster and flexibility, for over

Robbed to Play Poker.

In one of the southern states a man whose habits were bad, robbed an express company of several thousand dollars. Instead of decamping Some one advised me to take Lydia R. he remained in the city. He confessed to the theft and said he had lost the money playing poker. The surety company sent a man to prosecute the thief. He found the defaulter had been receiving a good salary from the express company and that there was no reason for his taking the money. Further Investigation revealed the fact that the county attorney had sat in the poker game and won most of the money; the other players were friends of the county attorney. The surety company dropped the case at once and paid the express company the amount of the loss.
