Mrs. George K. Nelson and little daughter May Elizabeth, of Cumberland county, spent the time from Wednesday until Saturday of last week visiting relatives in town and the Cove.

HIDES.—Frank B. Sipes pays the highest market price for beef hides at their butcher shop in McConnellsburg, also highest price paid for calf skins, sheepskins and tallow.

Advertisement.

Drop a postal card containing your name and address to The State Livestock Sanitary Board, Harrisburg, Pa., and ask for Circular No. 4, and you will receive a neat pamphlet telling all about tuberculosis of cattle.

Mrs. L. W. Weisel and two little daughters Evelyn and Louise, returned to their home in Pittsburgh on Monday after having spent two weeks in the home of her parents, Mr. and Mrs. J. L. Garland west of town.

Mr. and Mrs. A. C. Mellott and daughter Edna, who have been visiting in the home of Mrs. Mellott's parents, Mr. and Mrs. Joseph Sipes, have gone to Bedford to spend a few days before returning to their home in Pittsburgh. Willis Mellott will remain with his grandparents during July and August.

Mrs. Casper J. Lowery, who was taken to the Johnstown hospital after being injured in the auto wreck near Stoyestown several weeks ago, is so much better that she was brought to her home in Everett last week. Mrs. Lowery is the grandmother of little Dollie Price who was instantly killed in the same wreck.

Buckwheat is one of the few grain crops which may be planted about the middle of July with the prospect of a good yield, the crop maturing about the middle of September. Drill in one bushel of seed to the acre. Some good farmers add three pecks of rye per acre, and, after the buckwheat is off, pasture the rye to keep it from heading.

Mrs. Julia Cree, of Bowie, Texas, visited in the home of Mr. and Mrs. J. K. Johnston for two weeks and left on Monday for Mt. Union where her brother resides. For many years Mr. and Mrs. Cree lived in Huntingdon county just across the line from Burnt Cabins; after the death of her husband, J. Walker Cree, over thirty years ago, she went to Texas. Mrs. Cree has recently made her home with a daughter, Mrs. C. Y. Cosby, in Bowie, in the north-western part of Texas.

H. Wilson Maxwell and family, of Mount Union, were out for a ride in their Overland car Sunday, and they found themselves at supper time in McConnellsburg where they took supper with old friends, Mr. and Mrs. S. B. Woollet, at the Washington House. Mr. Wilson and one of his sons are engaged in the hardware business in that thriving town where they say that they do not know of any depression in business, "psychological," or real. Mrs. Maxwell hunted up her old friend Mrs. Minna Thompson Reisner to renew "auld acquaintance."

Ye Smoke Shop.

Quit Gorging.

The greatest cause of ill health among Americans, says a New York physician, is overeating.

Overeating, mind you, not over drinking!

Now stop a minute and consider your own case, you who have been complaining about the heat and the climate here-about and what-not during the last several months. Could it be possible that the reason you have that pain in the head and that wilted feeling all over is that you have been stuffing yourself with too many of the good things that summer produces? Could it be that you ate just a bit too much cherry pie at luncheon to-day? Could it be that you had to open your belt a notch or two after dinner and consequently are all but falling a sleep over this?

Impudent to ask such questions! Oh, well such things have happened, you know; such things have happened!

Cuts, Threshes and Sacks.

A new harvester cuts, threshes and sacks grain in a single operation. The machine is described in the August Popular Mechanics Magazine. Loading wagons follow it, picking up the sacks of grain ready for shipment. The machine is drawn by two spans of horses hitched at its sides back of the cutting bars. A 40-hp. gasoline engine furnishes energy for threshing and sacking. After the grain is cut it is thrown back upon tables whence it is forced into the thresher mechanically. The grain is then carried to the sacking device, where the sacks are filled, sewed and dropped.

Uses Gasoline and Electricity.

Bearing the external appearance of an ordinary gasoline car, a gas-electric automobile, which is driven by electricity generated by its power plant, has lately been patented. The current is developed with a 10-hp. engine and 5-kw. dynamo which propel the motor. When the machine is not running at its maximum speed, which averages between 25 and 30 miles an hour, the surplus power is diverted to the storage batteries, which will drive the car 20 miles without recharging. Between 20 and 30 miles can be covered on a gallon of gasoline. A picture of the machine appears in the August Popular Mechanics Magazine.

Independent manufacturers of iron, steel, and tinplate in the West and middle West have signed the new wage scale for another year on a basis of increased wages.

Hunters Licenses Here.

Fulton County Hunters can secure their licenses from the County Treasurer after August 15th. The tags and blanks have been changed since last year. This year the tags will be white with black numbers.

The County Treasurer last year appointed a Justice of the Peace in each township to issue the license, make report to the Treasurer, who in turn made report to the Game Commissioner and the State Treasurer each month.

The Department this year will not allow the Treasurer to appoint Justices to issue licenses. Justices may obtain from the Treasurer application blanks and can charge each applicant fifteen cents or less if he desires for the application and then same must be forwarded to the Treasurer with \$1.00 and postage for return of license.

It is very likely most of the hunters will make application in person or by mail to the Treasurer providing they give the required answers by mail.

The issuing of about 1000 licenses and all the necessary reports makes much work for the County Treasurer especially since Justices are not allowed to issue.

Mr. Hess informs us he will make it as convenient as possible for hunters to secure license and will before August 15th announce through this paper the form of application and to whom application can be made.

Base Ball.

Needmore and Hancock (colored) crossed bats on the latter's diamond, Saturday, July 17th, with the following result:

 Needmore—121101011-8

Harvest Home Picnic.

As announced last week, there will be a harvest home basket picnic in M. M. Kendall's woods in Ayr township Friday, July 24th. We called for all to bring a basket of good things to eat, but neglected to specify that it is to be the good old fashioned kind—a basket picnic, where groups of friends may linger over the viands as long as they choose. Turn out and help revive the spirit of sociability—we get little else out of the results of our labors; our interests are the community's interests; your neighbor is anxious to discuss those interests with you. It will do all of us good to take a day off and meet our neighbors on common grounds of social life.

Presbyterian Reunion.

The Pen-Mar Presbyterian Reunion will be held on Thursday, July 30th. The address will be made by Rev. E. T. Jeffers, D. D., LL.D., of York, Pa. The Aeolian Quartette, of Harrisburg Pa., will sing. The Program will not be long, but will be good. Make your arrangements to go and enjoy the Pen-Mar air and view and fellowship.—Harry B. King, Secretary, Harrisburg, Pa.

Band Concert.

Providing Band is not called upon to furnish music for some occasion at a neighboring place, next concert will be given on the Square by Trout's drug store, Saturday evening, July 25th.

**Action follows.—
The ring of a bell**

Even the most important man in the country answers to the ring of the telephone bell. It's a compelling force. No one knows what that little tinkling bell may mean to him—what the message which it announces will bring forth.

The electric energy for the curious, questioning, calling telephone bell is supplied by a little mechanism in nearly all Bell Telephone central offices, called a ringing machine.

There are ten or more styles of telephone calling bells ranging from a little tea bell to a ten-inch fire gong and including sleigh bells, cow bells, wooden ringers, etc. This is an indication of the Bell System's efforts to provide satisfactory service from every standpoint, and it is one of many things that makes Bell service the most efficient telephone service in the world.

When you telephone, smile!

The Bell Telephone Co. of Pa.
