Several of our local artists have made drawings of arches suitable for erection by the people of this county as an attraction to span the Lincoln Highway. The sketches show ability, and any that we have seen would grace the locality, in which they might be erected, if copied in wood, or in steel.

Miss Alice Brewer was elected teacher of Warfordsburg school for the ensuing term. This is one of the largest schools in the County. Miss Brewer is well qualified for this work, and as she is one of our best teachers, we congratulate the patrons of this school for being so fortunate. Miss Brewer's many friends in Thompson township wish her abundant success.

The Blair County Medical Society, by the use of thyroid gland of lambs and sheep, are transforming a young dwarf of Hollidaysburg, Jules Schroeder, aged 4 years, into natural proportions. The boy is suffering from cretinism, and under the treatment his arms and legs are steadily lengthening. The experiment is being watched with great attention by the medical fraternity.

Our friend A. M. Lake, of Belfast township, dropped into our sanctum Tuesday evening and spent a few minutes in pleasant chat with the editor. Abner, who for several years has been the efficient representative of the Friends Cove Fire Insurance Company, and, of course, represents it yet, has also taken the agency for the Everett Cash Mutual Fire Insurance Company,—the company that does not take premium notes, nor ask for assessments.

Mr. W. Scott Palmer, of Sipes Mills, passed through town early Monday morning in his automobile taking Mrs. Martha Skiles, her son Frank, and Miss Maude Hill to Franklin county to see Mrs. Skiles' son Allen, who has been ill for some time. Allen was at the Chambersburg hospital last week for treatment; but as in the case of William H. Hoop the physicians at the hospital held out very little encouragement, and Mr. Skiles returned to his home.

Frequent big, snake stories come from Webster Mills. The latest is that D. B. Hewitt, of near that place, says he can beat the one from Taylor township where a snake was killed in the door-yard woodpile. Hewitt informs us that he killed seven copperhead snakes within seventy-five yards of his dwelling house, and that a few days later he killed a rattler near the same place. Doctor Sappington, hadn't you better keep a good supply of snake anti-toxin on hands?

The costly nitrogen which we buy mixed with fertilizer compounds comes from the rainless regions of Chile and Peru, where great deposits have been found. It seems strange that the very thing that makes stalk and leaf in our crops of corn, oats, wheat, &c., should be found in regions where vegetation is seldom found. It is never found in its pure state, but comes to us as nitrate of soda which contains about fifteen pounds of nitrogen to each one hundred pounds of the mineral.

Close observers claim that there are not nearly as many flies in town as during the former summers. Large traps that are being set in front of shops show that there are still some flies; but the traps do not fill as rapidly as they did last summer. The general public is beginning to realize the fly nuisance can be greatly reduced by cleaning up the breeding places. Small manure piles, piles of garbage, &c., if left lie for a short time afford breeding places for millions of the disease-carrying insects.

ARE YOUR KIDNEYS WELL?

Many McConnellsburg People Know the Importance of Healthy Kidneys. The kidneys filter the blood. They work night and day. Well kidneys remove impurities. Weak kidneys allow impurities to multiply. No kidney ill should be neglected. There is possible danger in delay. If you have backache or urinary troubles, If you are nervous, dizzy or worn out, Begin treating your kidneys at once; Use a proven kidney remedy. None endorsed like Doan's Kidney Pills. Recommended by thousands. Proved by McConnellsburg testimony.

P. F. Black, McConnellsburg, Pa., says: "While unloading lumber at my work I slipped and wrenched my back badly. After that I had great pain across my loins, and my back often got lame and sore. I used Doan's Kidney Pills, procured at Trout Drug Store, and they soon gave me relief. This remedy has my endorsement." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Black had. Foster-Milburn Co., Props., Buffalo, N. Y.

NEW GRENADA.

As this is vacation time, it might be a good plan to resurrect one of your correspondents, as it seems they have been out of line up for some time, and why so? Folks who were once residents of the County, and live now in other places, usually, upon receiving paper, make a hunt for items from their former homes; and while item writing is a task at best, yet what would not be considered news to home readers is appreciated by those away from home. Readers should be slow to fault the writers, and should be willing to assist in furnishing items. To any who think it light and trivial we say just take a pencil and paper and go to it for a trial and see how funny it is.

Miss Alice Houck, of McConnellsburg, and Miss Linda Householder, of Pitscarn, Pa., visited the family of Hon. M. W. Houck for several weeks.

James Clark and family, of Orbisonia, and his father, Walter Clark, of Shirley, passed through here Sunday.

L. L. Cunningham and wife who have been at Akron, Ohio, during the past year, returned to the old folks' home, better known here as the "Yellow Parsonage." Mrs. Cunningham, or "Aunt Lab" as she is called is suffering with inflammatory rheumatism; hence, Flick is learning the art of housekeeping.

Olive and Fred Black are visiting their brother Ritner in Shade Gap.

We note with gladness that all three cripples in town are improving; they are; Mrs. Kate Mills who fell down porch steps; Mrs. Ida Alloway who fell off of a cherry tree; and Mrs. L. L. Cunningham who has rheumatism.

To The Music-Loving Public.

Next concert will be given on the Square by the City Hotel, Saturday evening, provided, that we are not called away. The concert of last Saturday evening and the ones to follow, are for the benefit of business men who cannot get away to go to the regular places to hear the concerts. Hereafter, a collection will be taken at each and every concert given, to help defray expenses of the Band. Some people think that it does not require much money to run a band, and again some have wondered where all the money that the Band has taken in has gone. For the benefit of the public, I have made out an itemized statement and put it in Hohman's butcher shop where all can see it. The band boys are doing the best they can to furnish you with music during the season, so help them along; but if you cannot boost—please do not knock. C. R. Shore, Manager.

NEEDMORE.

A storm of unusual severity, rain, accompanied by hail, passed over this place last Saturday afternoon. Much damage was done to the standing corn, garden vegetables suffered considerable damage, glass was shattered in several windows, and a large oak tree just west of Mrs. Frances Hart's was struck by lightning. Several trees were blown across the State Road east of Tonoloway creek. The rainfall was much needed.

The fact that four, and perhaps five new dwelling houses are to be added to the village this season, needs no comment. Such things go hand in hand with the spirit of push which has made this settlement conspicuous.

Not long since the agricultural editor of the NEWS was lamenting the absence of the "old time hordes of grasshoppers." If that gentleman has lost any hoppers or wish any "seed" to preserve the race, he can secure eight or ten bushels along Licking Creek if he come before the young turkeys eat them.

Pott McKee lost a valuable cow last Saturday. She was injured by being horned by other cows.

BORN WITH MORAL QUALITIES

Those, as Well as the Physical, Children Inherit From the Parents—Habit of Obedience.

No one for a moment questions that children inherit physical qualities from their parents, but we quite easily forget that moral qualities are also inherited. Parents, apparently intelligent, never seem to realize that their children are composite reproductions of themselves, added to some peculiarities of ancestors and some originality of their own.

During the early years of the child's life he grows in the direction his parents lead or drive him. He is never again entirely free from the effects of this leadership, whether good or bad. And isn't it true that fathers and mothers can only train their children aright when they have high ideals for themselves?

We all know—and most of us forget—that the habit of obedience is formed as any other habit is, by constant practice. It is absolutely indispensable to a strong moral sense, says a writer in World's Work. The lack of it leads to all kinds of bad conduct and self-indulgences. Of course, if we are to preserve anything like order in a community, the individuals must obey the laws. To most people this comes natural, the fact that a law exists being sufficient reason why it should be kept. There are always some people, though, who find it very difficult to conform to the regulations, no matter how salutary.

Shakespeare said: "Neither a borrower nor a lender be; for loan oft loses both [friend] itself and friend; and borrowing dulls the edge of husbandry." Not many can follow the above advice, but sometimes it is as well to be a "spub" as to be a "spug."

EVERY OWNER LIKES THE DAIRYMAID

The man who buys a cream separator at random—the first one he may see—is likely to get any grade of quality. He may get an economical, satisfactory machine, or he may buy one that will never get the right amount of profits out of his milk. It is best to go carefully and buy wisely.

Study the Dairymaid. Every detail is built for service, and it will give you service and highest dairy profits.

Take for instance, the method of oiling; with the exception of the neck bearing, all the working parts of the Dairymaid cream separator are oiled by an automatic splash system. The only thing necessary to keep the gears and bearings in perfect condition is to open a small waste cock, let the old oil run out, clean the gears, and put in a sufficient quantity of fresh, clean oil.

The neck bearing, which of itself is a most valuable feature, is oiled through a feed oil cup in front of the machine. There is almost no chance for anyone to have trouble with the oiling arrangements of the Dairymaid cream separator.

See the Dairymaid yourself at the dealer's. It will be worth your while.
