STATE GUARDSMEN RECEIVE \$80,000

Citizen Soldiers on Duty in Camps Paid.

STATE ROAD CONTRACTS LET

Delegates Named to Atlantic Deeper Waterways Association Meet—State Aid Road Contracts Let—Charters Granted.

Harrisburg.—Pennsylvania's citizen soldiers were paid \$80,000 for their services in the camps at Selinsgrove and Indiana last month, the War Department paying \$13,985.06. The remainder was paid by the State. The camp at Selinsgrove, which was attended by the Ninth and Thirteenth Regiments, the separate battalion of Infantry and six troops of cavalry, had a pay roll of \$31,978.35, of which the State paid \$17,993.29 and the Federal Government the rest, the camp being a joint camp in which regular army soldiers participated. The camp at Indiana, participated in by the Second Brigade, the Fourteenth Regiment, two troops of cavalry, Battery B, the field hospital and signal corps company, had a pay roll of \$48,621.41, all of which was paid by the State.

State Aid Road Contracts Let. Highway Commissioner Bigelow let two contracts on which action had been deferred. The contract for the improvement in Blossburg was let to the Empire Contractors' Material & Supply Company, Newark, N. Y., and that in Ridgeway to R. H. Coryell, Williamsport. Readvertisement was ordered on the State aid road in Franklin Township, Greene County.

Successful in Therapy Tests. Announcement has just been made by the State Bureau of Medical Education and Licensure that 25 of 124 applicants for State licenses to practice for drugless therapy who took the recent examination in Philadelphia passed the test. Ninety-nine failed. Of the thirty-six chiropractors who took the examination for licenses in that branch, twenty-four were successful. These examinations were held by the bureau for persons who were not able to show continuous service for the required period prior to the fixing of the State standard.

Inspect Canneries. An inspection of the canneries of the State with special reference to observance of the employment laws, sanitation and safety appliances has been started by the State Department of Labor and Industry. The inspection is being directed by James C. Cronin, of the State Industrial Board, who is engaged in the vicinity of Philadelphia. Every cannery has been listed and reports will be made on each.

State Charters Granted. Charters for twelve electric companies, the largest number to be incorporated at one time since the public service company law took effect, were issued. In addition a number of other charters were granted. The electric companies chartered are Hellertown, Bethlehem Township and Freemansburg Electric Light & Power Companies, capital of each \$5,000, Charles B. Wagner, Allentown, treasurer; Turbotville, Lewis Township and McEvensville Electric Companies to operate in Northumberland County, offices at Sunbury, capital stock of each \$5,000, L. K. Bingham, Sunbury, treasurer; Green Township, Hanover, Racoon Township and Independence Light Companies, to operate in Beaver County, offices at New Brighton, capital of each \$5,000, C. J. Braun, Jr., treasurer; West Deer Township Electric Company, Pittsburgh, capital \$5,000, R. E. WAR MAY CAUSE LABOR SHORTAGE

Boy Killed, Four Hurt When Cave Collapses.

HOME CONTRACTOR GETS JOB

Carnegie International Art Exhibit Postponed—Freemansburg Postmaster Named—Ends Life With Dynamite.

Home Contractor Gets Job.

Pottsville.—Pottsville City Commissioners awarded a big street paving contract to a high bidder because of his local residence. M. A. Mangon, of Pottsville, was given the job for \$49,132, which is \$769 higher than the bid of the W. H. Lyons Company, of Scrubury.

Ends Life With Dynamite.

Hazleton.—Carl Dushinski, twenty-two years old, unmarried, a laborer at a local colliery, committed suicide by exploding a stick of dynamite, which blew him to atoms. The man went to the mine before it was time for him to be there and was found by other employees.

John W. Beatty, director of the Department of Fine Arts of the Carnegie Institute, announced that Carnegie Institute will not hold an international exhibition of paintings in the Spring of 1915. This course was decided upon because the United States Government will hold an international exhibition at the Panama-Pacific Exposition in San Francisco next spring.

Believe Poisoner Is Killing Cows.

Scranton.—Analysis of the stomach of one of the cows that died at the Hillside home, has revealed poison other than arsenate of lead which was used on the grass to kill army worms and at a special meeting of the poor board the conclusion was reached that a poisoner is at work at the institution. The directors authorized the payment of a reward of \$500 for the arrest of the guilty person.

Lodge Bankrupt In Jail.

Bellefonte.—W. H. Macker, a former business man of Bellefonte, has been committed to the Center County jail by Judge Charles B. Witmer, of the United States District Court, for failing to declare and turn over to the receiver seven hundred dollars when he recently went through voluntary bankruptcy proceedings. Macker was tried in the district court at Scranton last spring.

War May Cause Labor Shortage.

Heads of manufacturing and mining companies fear a shortage of labor if the Austro-Serbian War be prolonged. While there are probably less than five hundred Serbians in the Pittsburgh district, it is estimated that there are fully five hundred thousand Austro-Hungarian subjects in western Pennsylvania and northern West Virginia, one-fifth of whom are liable for military duty. The withdrawal of any considerable proportion of this number from mills and mines would be seriously felt in times of industrial activity, while the curtailment of immigration would add to the shortage, say the employees.

GREAT POWERS IN ACTUAL WARFARE

War Without Severing Diplomatic Relations—France and Germany Believed to Be Trying to Throw Responsibility Upon Each Other.

London.—Four great powers of Europe—Austria-Hungary, Russia, France and Germany—are now engaged in actual warfare, but two of them—Germany and France—have not only not declared war against each other, as far as is known here, but have not even severed diplomatic relations. This is despite the fact that Germany's ultimatum to France has either been ignored or rejected.

The explanation of this would appear to be that Germany and France are each seeking to throw upon the other the onus of beginning the war. In fact, while the nations of Europe are flying at one another's throats, they vie with each other in protesting their desire to maintain peace and they repudiate the responsibility for plunging the whole Continent into bloodshed.

France Last To Mobilize.

In this curious situation France, according to British opinion, has the strongest justification. She certainly was the last to mobilize and seems to have taken the greatest precautions to avoid frontier collisions. On the other hand, Germany, in addition to invading French territory without making a formal declaration of war, has violated the neutrality of Luxembourg and declines to give any undertaking to respect Belgian neutrality. The efforts of the British Ambassador at Berlin to secure such an undertaking have been wasted.

Hard For Britain To Keep Out.

It is difficult to see how Great Britain can avoid being drawn into the conflict to protect Belgium and Dutch neutrality, and on this point Premier Asquith's official announcement in Parliament is awaited with intense anxiety, the British public being no longer under any illusions as to the gravity of the crises which transcends anything in their experience.

The least observant man in London Sunday could not fail to be impressed with the fact that something tremendous was happening. Short of actual formal mobilization, the British Government is taking all necessary steps to meet a situation unprecedented in the nation's history.

TO HIT FRANCE QUICKLY

Germans Apparently Duplicating First Movement Of Their Campaign In 1870.

London.—German forces Sunday began the invasion of France without, so far as is known, a declaration of war having been made. The invading force is estimated as high as 100,000. Two German detachments entered French territory, moving in the direction of Paris.

One German force crossed the French frontier near the village of Cirey, between Nancy and Strassburg, and another German detachment, probably the Twenty-ninth Infantry, Sunday night invaded the Grand Duchy of Luxembourg, neutral territory between Belgium and Germany, and continued its march on the French fortified town of Longwy. A dispatch from Brussels said there was good reason to believe that this force later in the day entered France.

Report Of Repulse Confirmed.

The German force which went into France near Cirey, which is 40 miles from Nancy, is reported to have been repulsed, with heavy losses, but this has not yet been confirmed.

Apparently the German Army is duplicating the first movement of the Franco-Prussian War. It was on August 2, 1870, 44 years ago Sunday, that the French and Germans clashed in the first battle of that war at Saarbruecken, where the Prince Imperial, under the orders of the Emperor, received his famous "baptism of fire."

It would appear that Germany is taking the fullest possible advantage of her supposed superiority in rapid mobilization over France. The plan of the German Emperor, according to military observers here, is to vanquish or attempt to vanquish France in the interval before Russia will be able to create serious trouble on her northern frontier. It is supposed that Russian mobilization will take about three weeks.

All telegraphic and telephonic communication between Brussels and Luxembourg has been severed.

KEEPERS STARVING.

Mexican Lighthouse Tenders Without Food For Months, Is Report.

Mobile, Ala.—Lighthouse keepers along the Mexican coast are reported starving, according to vessel captains reaching here from Mexico. Lighthouse supply ships of Mexico have not visited the stations for months, it is declared. Men in charge of the light at Arenas Reef put off in small boats to passing boats and begged for food.

FOR THREE NEW WARSHIPS.

Contracts Signed For Biggest Ships In United States Navy.

Washington, D. C.—The contract plans for the new battleships, to be named, respectively, the California, the Mississippi and the Idaho, were signed by Secretary Daniels. The specifications and plans will be ready for bidders on Saturday, and bids will be opened on October 6. The limit of the cost of the three battleships, which were authorized by Congress on June 20, is \$7,800,000, exclusive of armor and armament.

RUSSIANS ATTACK GUARD

Forces Of Cossacks and Other Troops Cross German Border At Several Points.

Berlin.—Russia has begun the invasion of German territory, Russian forces having crossed the German frontier at Schwinden, southeast of Bialla, while Sunday night a Russian patrol entered Germany near Elchenried, in Posen.

The Russian column which crossed the frontier at Schwinden and was accompanied by artillery.

Two squadrons of Russian cossacks are riding in the direction of Johannsburg, in East Prussia, 15 miles from the frontier.

Attacks German Guard.

The Russian patrol, which entered near Elchenried, attacked the German guard at the railroad bridge over the Warth. The attack was repulsed. Two Germans were slightly wounded.

The above information was given out by the Imperial staff. The staff at the same time said that the invasion near Schwinden showed that war had actually begun.

A telegram received here from Koenigsberg says a Russian patrol has entered Eydikhun, on the Russian border. It advanced to Bilderweltschen, near Eydikhun, where it destroyed the local postoffice.

The enemy, according to this intelligence, crossed the border at several points.

French Air-Man Drops Bombs.

A French aviator has been dropping bombs from an aeroplane in the neighborhood of Nuremberg, Bavaria, according to an announcement made by the military authorities Sunday. In making this announcement the authorities added that this action was a crime against the rights of man, as there has been no declaration of war.

\$1,000 FOR STEERAGE TICKET.

Americans in Paris Seem Almost Panic-Stricken.

Paris.—Every berth on the trans-Atlantic steamers sailing before September 15 has been sold and many thousands of Americans traveling here have become almost panic-stricken. One of them gave \$1,000 for a steerage ticket, while a Mr. Meyer, of the Hamburg-American offices in New York, who had booked on the Imperator, was able to obtain only an inside berth on the Potsdam, sailing Sunday.

NO RELATION TO TARIFF.

So Says Redfield Of Beet Sugar Industry Inquiry.

Washington.—Secretary Redfield notified Commissioner Davies, of the Bureau of Corporations, that the inquiry into conditions in the beet sugar industry now in progress had no relation to any change in the tariff. "No such change is to my knowledge considered," stated the Secretary.

LIPTON MAY STOP RACE.

Challenger May Not Start If England Is At War.

London.—Sir Thomas Lipton is seriously considering whether, if Great Britain is involved in the European war, he will race his yacht Shamrock IV for the America cup this year. Sir Thomas inclines to the opinion there should be no race while his country is engaged in war.

CONGRATULATIONS TO KINGS.

President To Send Them On Monarchs' Birthdays.

Washington, D. C.—President Wilson sent cablegrams of congratulation to two European monarchs—King Haakon of Norway, and King Constantine of Greece—in honor of the birthday anniversaries of those rulers.

GERMANS IMPRISON EDITORS.

All Those Of Danish Papers At Hadersleben In Fortress.

Copenhagen.—All the editors of the Danish papers at Hadersleben, a seaport of Prussia, in Schleswig, have been arrested by the German authorities and imprisoned in the fortress. The Danish-German frontier is barred by German troops.

Ordered To Neutral Ports.

London.—A Reuter dispatch from Ymuiden states that an amateur wireless operator there has intercepted a message from the Norddeich station ordering all German steamers to go to the nearest neutral port with all speed.

Funds For the Red Cross.

Moscow.—The Municipal Council has voted a million roubles (about \$500,000) for the Red Cross service of Russia and friendly powers.

Japan's Navy Gets Ready.

Tokyo, Japan.—The Japanese Navy has been prepared to meet any emergency and the minister of marine, Vice Admiral Rokuro Yashiro, went to Nikko to consult with the Emperor on the international situation. In the meantime the second battle squadron has assembled at the naval station Sasebo.

Norway Will Be Neutral.

Christiania, Norway.—A government decree declares the complete neutrality of Norway.

GREAT NAVAL FLEETS MAKE WARLIKE MOVES

All Are on the Alert for the Opening of Hostilities—The Final Efforts to Avert a Conflict.

London.—There are only two factors today (Saturday) giving the faintest hope of averting a general European war:

First, Russia and Austria are engaged again in direct negotiations. Second, both Great Britain and France are using their utmost endeavors in favor of peace.

On the other hand, Russia has ordered a general mobilization and Germany has declared a state of siege, which is undoubtedly a prelude to, if it does not cover, mobilization.

France has not yet mobilized, but at Cabinet councils, issued decrees establishing a moratorium and taking other action which could only be determined upon the eve of war. Unofficially the French army is being virtually mobilized.

Great Britain is practically, though not officially, mobilized, and the smaller European States, as a precaution, have ordered the mobilization of their armies—Belgium, Holland and Switzerland to protect their territory from being used as a highway for the belligerents; Norway, Sweden and Denmark to guard themselves on general principles.

Asquith's Statement.

Premier Asquith made this significant statement in the House of Commons:

"We have just heard, not from St. Petersburg, but from Germany, that Russia has proclaimed the general mobilization of her army and her fleet, and that in consequence of this martial law is to be proclaimed in Germany."

"We understand this to mean that mobilization will follow in Germany if the Russian mobilization is general and is proceeded with."

Italy makes no announcement, and although a rumor credits her with the decision not to participate in the struggle, there is little doubt that she is making ready by mobilization.

Communication across Europe has been cut off, and there is a universal application of the censorship, with the result that it is impossible to obtain any accurate knowledge of what military operations are going on in Serbia. All code telegrams are refused.

In short, all the European nations are becoming isolated from each other by railway and telephone. Many American travelers have been held up by the suspension of international trains.

A Significant Move.

The withdrawal of three famous German yachts from the Cowes regatta is significant. They include the Emperor's Meteor and Krupp's Germania.

All the countries involved in the war have prohibited the export of many products, and all the stock exchanges in England and Scotland are closed. The European state banks have raised their rates, and the Bank of England rate has been doubled.

A Rome dispatch to the Exchange Telegraph Company says the Italian government learns that Germany will ask Russia and France to cease their military operations forthwith.

Might Be Captured.

There is much interest and speculation here over the fate of the North German Lloyd steamer Kron Prinzessin Cecilie in event of war being declared before her arrival at Bremen. The vessel sailed from New York last Tuesday, carrying a large amount of specie, and is due to touch at Plymouth and Cherbourg.

It is presumed here that in the event of war she might elect to return to New York or to reach Germany by way of the North of Scotland. The Daily Telegraph suggests that the steamer, even if she tried to reach New York, might be captured by a British or French cruiser before she could get into American territorial waters.

The correspondent of the Times, telegraphing from St. Petersburg, says: "A general mobilization has been ordered. Never within living memory has Russia lived through a day of such emotion. The government decided on mobilization late Thursday."

"This step was forced upon it when it became apparent that the Germans were purposely delaying their official notice of mobilization in order to place Russia in a position of inferiority."

"To have hesitated longer would have been to court disaster."

German Activity Reported.

A dispatch to the Times from Paris reports that the Germans have seized French locomotives at frontier points and torn up the permanent railway

WILSON ACTS TO AVERT DANGER

Takes Prompt Precautions Against Possible Crisis.

U. S. TREASURY ALL READY

Senate Passes Bill At Secretary McAdoo's Request Facilitating Distribution Of Cash In Case Of Need.

Washington, D. C.—President Wilson and the Administration acted promptly to reassure the country against any threatening financial dangers growing out of the European war situation.

The President took steps to bring about an immediate completion of the organization of the Federal Reserve Board in order that the new currency law may become effective.

Secretary McAdoo, expressing approval of the closing of stock exchanges throughout the country, issued a statement announcing that a \$500,000,000 issue of emergency currency waiting at the Treasury Department would be made immediately available to the national banks.

To make more easily accessible this half billion of emergency currency, authorized by the Aldrich-Vreeland act, the Senate late in the day, at the suggestion of Mr. McAdoo, passed unanimously an amendment to the Currency law modifying the clause providing that banks of national currency associations in order to avail themselves of the issue must have outstanding currency notes "secured by bonds of the United States to an amount not less than 40 per cent. of its capital."

NAVAL AEROPLANE WRECKED

Craft Upsets While Alighting On Water At Hampton Roads.

Washington, D. C.—Naval aeroplane A B 4 was wrecked while attempting to alight on the waters of Hampton Roads. Ensign Lamont and Captain Hart, operating the machine, were thrown into the water, but escaped uninjured. Few details of the accident were given in meager dispatches to the Navy Department. The machine, the report said, had returned from a flight over the roads and attempted to alight when it suddenly upset, side-swiped the surface and was wrecked. The A B 4 is one of the Curtis flying boats recently purchased by the navy and was successfully used last week in bomb-throwing experiments at Indian Head, Md.

GREAT ACTIVITY AT HALIFAX.

Artillery And Infantry To Man Forts, Is Belief.

Halifax, N. S.—There were indications here of great activity on the part of the garrison at Halifax after the receipt, it is reported, of a dispatch from the War Office in London. The Royal Canadian Field Artillery of both companies stationed in the citadel were taken to the forts on transports. A special train brought back the Royal Canadian Rifles stationed in Aldershot and it is expected that infantry will be held in readiness for any contingency. It is reported that the artillery will immediately man the forts in the harbor.

SHE DIES OF FRIGHT.

Miss Goulet Riding in Auto When It Catches Fire.

New York.—Miss Claudia Goulet, an actress, of 21 Sandford street, Boston, died from fright when an automobile in which she was riding caught fire. The police could assign no other reason for her death, since her body was unmarked, despite the fact she jumped from the car.

MILITANTS WILL STOP AWHILE
