 At time of going to press, the latest news from the seats (not seat, as there are many) of war is, that Germany declared war against England; up until Tuesday evening, it was the hope of the civilized world that the difficulty might be confined to the small countries that started the trouble; but slumbering hatred between European nations aroused and burst into action, and now practically all of Europe is under arms with the probability that Japan will be drawn into the embroilment. A number of engagements have occurred on sea and land—and in the air too—for France and Germany have each over a thousand airships, aeroplanes, and other air-craft fitted with rapid-fire guns and bombs. History never recorded a war of the proportions, this one has already assumed—and the extent is by no means yet known.

 -- DEALER IN --

High Grade Plain Pianos, Player Pianos, Organs, Victrolas, Records, and Professional Tuner, McConnellsburg,

Nothing adds more to the refinements of home than good music. To have good music you must have a good instrument. There are good bad and indifferent instruments, and to the unskilled eye they look much alike. The unprincipled dealer is likely to make you pay a first-class price for a fourth-class instrument. I have lived in this county since my birth, I am a taxpayer and in a position to make good any business transactions. Buy your piano, organ, or victrola from me and if it is not all right you can come back at me.

There are families in every part of this county that have purchased instruments from me. Ask them about me.

Perhaps you want to trade your organ for a Piano, or Player Piano; or your Plain Piano, for a Player. See me. Let's talk it over.

COMPLETE LINE OF FARM MACHINERY, REPAIRS, HARDWARE, STOVES, &C.

Just now, I want to call especial attention to the
Ontario Grain Drill
 I have sold this Drill to the farmers of Fulton county for ten years, and for sowing wheat and phosphate it stands without a peer.

The Steel King Wagon

One-third lighter and stronger than any other wagon built. It has an axle that cannot be broken and is fully guaranteed. These wagons are used on the mountain every day by C. R. Spangler and J. W. Mellott in their heavy lumber hauls, and give best of satisfaction.

CORN HARVESTERS

Farmers were a little slow about taking hold of Corn Harvesters at first, just as they were with the Reaper when it first came out; now, farmers would as lief cut wheat with a cradle, as corn with the old fashioned corn cutter.

ALL ORDERS FILLED PROMPTLY.

Telephone
 get the season's top prices

You know that in every season there are days when prices go soaring—just as there are others when the bottom seems to drop out and to ship products means less return than the freight cost.

How to catch the height and get from under at the fall of the market, is a big problem with some farmers.

Not so with the modern grower who has Bell Telephone Service. He gets every quotation as soon as it's made and obtains profitable prices for everything.

Do you want to go along doubting or do you want a Bell Telephone and certainty? Ask the Business Office for booklet.

When you telephone, smile!
