I. The First Question, vv. 15-22. The Appeal of Religion Has Changed. In a former day, the appeal was to the acceptance of the evangelical teachings of the New Testament accepted by all denominations, and sometimes to the particular doctrines of the denominations, but now it is made to the acceptance of certain caricatures of Christianity known as Christian Science, Russellism, theosophy, etc., and sad to say, with a very large response. This indicates that man is naturally religious. He wants something that will meet the demands of the spiritual craving within, and he is quite apt to take up with something that takes on the name of Christian, or that professes to be biblical, and yet ridicules evangelical Christianity and offers a substitute for it, however to turn him over to Herod, who was a puppet of Rome. In this consideration let us first note that there are various spheres of never so subtile, so dangerous nor so knowledge - physical, philosophical and spiritual. In the physical sphere the senses must be the witnesses, in the philosophical reason, and in the spiritual faith, although in the spir-Itual faith does not reject the witnessing of the senses and reason. In the physical sphere the testimony of the senses may be misleading, as one man may say an object is of one color. while another man says it is of a different color, the fact being that one of these is certainly color blind, and it may be that both of them are so. Secret Methods,

This parable of the wicked husbandman (ch. 21) seems to have been clearly understood by the Pharisees (v. 45). While it stung it did not bring them to repentance. The hardening effect of unaccepted truth is one of its most terrible results upon the human heart. The record tells us plainly (ch. 21:46) why these Pharisees were withheld from at once putting Jesus out of the way. They therefore resorted to secret methods and endeavored to bring him into conflict with the Roman government. The Pharisees entered into this plot to entangle Jesus with their most determined enemies, the Herodian party (Mark 12:13). It was a good scheme from their viewpoint to get Jesus to utter something treasonable and then

Apart from Jesus each party would have given quite a different reply to this question. In fancy we can see them as they must have gloatingly exclaimed, "Now we will sed him entrapped." If Jesus declared it illegal to pay tribute to Caesar they could at once formulate a charge of sedition against him. On the other hand, for him to declare it proper thus to pay tribute to a foreign government would seem to them for him to deny his messianic claim, according to their understanding of the messianic program. State Relieves Fertilizer Men.

Steps were taken by Secretary of Agriculture N. B. Critchfield to straighten out the tangle caused in the fertilizer trade by the cessation of shipments of potash from Germany. It is estimated that at least ninety per cent, of the potash used in fertilizers in this State comes from that country and in order to conserve the stock in this country manufacturers will be forced to use a smaller portion than has been done. To facilitate matters Secretary Critchfield has issued a circular in which a way is pointed out for the marketing of fertilizers for the fall trade without making a new registration with all that such procedure entalls

The letter of the Secretary on the ubject is as follows:

"This department recognizes the fact that with the shortage there is tikely to be in the amount of potash available this fall manufacturers will find it difficult to prepare their goods for the fall trade so as to meet the re-

At 114 in the Shade, Farmer Didn't See Necessity for Shortening Hours of Labor in the Field.

A St. Louisian who responded to the Macedonian cry for help from the Kansas wheat fields tells this story: "The farmer told us we were to work ten hours a day, but that when it got hot he would knock off an hour. One day, after we had been out in the blazing sun until we were panting for breath, we came in to dinner to find the mercury up to 114. We thought the farmer would say something about short hours that afternoon, but he didn't. As we started out to work I said to him:

it much?" "'No,' I said, 'I don't mind it particularly; but when does it get hot out here?"

PIMPLES ITCHED AND BURNED

It itched and burned so that sleep and rest were impossible and I could not sleep any hardly for weeks. My clothes irritated my back till it got so sore I had to have a soft cloth pluned to my shirt.

"As I heard of Cuticura Soap and Ointment for years I bought a cake of Cuticura Soap and box of Cuticura Ointment and to my surprise and joy my itching and burning had disappeared. My back had been so raw and inflamed I could not lie on it and the first application brought relief. I washed my back twice a day with a strong lather of Cuticura Soap and then applied the Cuticura Ointment. In two weeks I was sound and well and have never been troubled since." (Signed) J. D. The Pilgrim. Alfred Noyes, the exponent of "pay-

"One morning," he said, "my work was interrupted by a westerner. He rdshed in on me enthusiastically. He bruised my hand with the power of his cordial clasp. He made me sit down and write my name 50 times on a sheet of foolscap that he drew from his pocket-he wanted to distribute, he explained, my autograph among all his friends. He even urged me to write a poem for him-to dash a poem off while he looked on. This failing, he would not go till I had read him a good half-dozen selections from my works.

Mr. Noves sighed.

"And all the time," he ended, "the duffer called me Boyes."

Mr. Howells listened to the novelist with his good natured smile, and then, with his good-natured laugh, he said: "Our American academy is like death. People never joke about it unless they know it's very far away."

abolition of the liquor traffic, however, lies in the senator's further statement that "the American republic cannot endure if the liquor traffic continues to absorb the earnings and the energies of the people-to threaten their moral and material welfare."

The preservation of the republic through a higher standard of citizenship is the end and aim of all temperance legislation.

LOSS TO THE NATION?

The following statement is taken from the report of the Massachusetts commission on drunkenness: "The greatest economic loss to the state lies in the idleness of capable men. Nineteen out of every twenty men imprisoned for drunkenness in Massachusetts last year were of American or British birth, unhandicapped in their occupation by difficulties with our language. Four out of every five men so imprisoned were between seventeen and fifty years of age, and therefore at the very period of life when industrial output should be largest. These men, at the prime of life, lost over 300,000 working days from imprisonment alone last year and probably an equal amount of time was lost in hunting for work after release from prison. That efficiency in work is reduced through alcoholism is unquestioned. It is impossible to calculate the continuous loss which it involves."

there may be some facts presented, as in the alleged cases of healing, there is no appeal to that which is behind us, the experience of millions of Christian people through the centuries. A Definite Faith.

The faith of the disciples was very

definite. "We believe and are sure that thou art that Christ, the son of the living God." The evidence of this definite faith is abundant as may be proved by the men who expressed it being perfectly willing to certify it by the sacrifice of wealth, position, and even life itself. That adherents of false forms of Christianity have made great sacrifices will not be questioned but in connection with Christian sacrifice we have a law that has existed through twenty centuries, and the blessings that have come out of this spirit of sacrifice and realized by the individual have certified to the genuineness of the faith-they have new wealth, new position, and foretastes of the life that is not only eternal but in harmony with the life of God.

The agent in this assurance is nothing less than the holy spirit of God which indicates supernatural origin "No man can say that Jesus is the Lord, but by the holy ghost." Here is where the religion of Jesus Christ and the apostles is to be differentiated from any other religion. Notwith standing that it is from above it does not relieve from personal responsibil ity, but the blessings in bearing the responsibility are so infinitely above anything that' the world has to offer that the responsibility may be forgot

In so far as the laws of the state are just and true and in harmony with the law of God it is the duty of Christian people to support and to obey them. Jesus would ally himself with neither party, thereby avoiding complicity with any measure of evil. We may likewise maintain a similar relationship with God and speak with authority in the correction of abuses, and in the direction of civic and national life.

MUST HAVE THE BOYS.

Recent investigations show that two-thirds of all the drunkards contract the drinking habit before they are twenty-one years old, nearly onethe controversial into that of abiding third before they are sixteen, and about seven per cent before they are twelve. The liquor dealers know this and for business reasons they must "create appetite" among our school boys. One family out of every five must furnish a recruit for the army of drunkards or the "trade" must go under.

Private Rail Sidings.

The Public Service Commission held question as to whether a railroad company can legally charge demurrage on private cars standing on a private switch in a complaint brought by the Pittsburgh Plate Glass Company against the Pennsylvania Railroad Company.

J. M. Bellville, of the glass company, contended that such a charge was not proper because the railroad company renders no service while the cars stand on a private track. Henry Wolfe Bikle, for the respondent, told the commission that the rules governing demurrage charges were adopted by the National Association of Railway Commissioners, and enforcement was necessary to avoid discrimination. The commission approved the peti-

tion of the Baltimore & Ohio Railroad Company and the Schuylkill East Service Railroad Company for the approval of crissings at grade over Wolfe and Dickinson streets in Philadelphia. The proposed switches have been approved by the city of Philadelphia.
