J. A. Irwin and wife spent a few days last week in Three Springs where they visited the Huston families. They also visited their niece, Mrs. Brint Miller, near Dublin Mills, while enroute.

Roy C. Cromwell, who removed from this place to Franklin county last spring, lost his pocket-book somewhere between this place and his home in Mercersburg about two weeks ago. The purse contained about \$22.

For several weeks we have heard reports that wild turkeys are dying from the disease known as black-head. Five dead turkeys were recently found on a field in Todd township, along Cove mountain. Others have been found at various times.

Miss Emma J. Fraker, a former Fort Littleton girl and Dublin township teacher, is visiting her sister Mrs. J. Calvin Linn, near Maddenville. For several years Miss Fraker has held a responsible position in the Citizens National Bank of Chattanooga, Tenn., and through her sound business judgment, she has taken rank with that hustling city's substantial citizens.

Andrew Mellott, Dr. Palmer, Willard Snyder, and J. E. Garland, of Needmore, were visitors in town Saturday. Mr. Garland drove by way of the Meadowgrounds, and as he was about to cross the meadows he saw a black bear. Bruin was almost fully grown. It took a good look at Mr. Garland, at a distance of about twenty steps, and then trotted off in a northerly direction.

M. W. Nace and family, "mobilized" Sloan Warthin and his auto at the beginning of the week and went to Chambersburg to see Mr. Nace's father. Early Monday morning Mr. Warthin took Miss Myrtle Stoutengale to the depot at Mercersburg where she took the train for Altoona to engage in the millinery business. The man with an auto is in demand.

Justice of the Peace T. K. Downes, of Needmore, had the misfortune to lose his purse about three weeks ago between Webster Mills and his home. About \$35 and some valuable papers were in the purse. His name was printed on the cover and some of his cards were in the pocketbook, so that the finder will have no trouble to identify it. There is a reward offered for its return.

Charles Egan and wife, and the latter's mother, Mrs. Ettie Burns, all of Midland, Md., spent a few days recently with Mr. John Hann, near Saluvia. Mr. Hann is overseer of lands owned by Mr. Egan. The two gentlemen called at the NEWS office Monday, and Mr. Egan insisted that Uncle John steered the auto to town. Well, isn't Uncle John as smart as others who run autos? Sure he can run an auto.

MUST BELIEVE IT.

When Well-Known McConnellsburg People Tell It So Plainly.

When public endorsement is made by a representative citizen of McConnellsburg the proof is positive. You must believe it. Read this testimony. Every sufferer of kidney backache, every man, woman or child with kidney trouble will do well to read the following:

J. C. Fore, living at Knobsville, Penna., says: "About a year ago I caught a severe cold which settled across the small of my back. My kidneys troubled me badly at times and the kidney secretions were painful and irregular in passage at night. I felt lame and stiff, and there was swelling in my limbs and wrists. I had a doctor at the time, but his treatment didn't give me much relief. My brother who keeps a general store in Knobsville insisted on my trying Doan's Kidney Pills. I did and one box gave me relief. The pains soon left my back, and I haven't had any trouble since. I am never without Doan's Kidney Pills." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Fore had. Foster-Milburn Co., Props., Buffalo, N. Y.

Farm Notes.

A certain Pennsylvania gentleman said recently that "It no longer paid to raise beef cattle, because feeders and butchers declare in favor of western steers." Since the gentleman is not a reader of the News, we are not afraid to tell him that this condition is his own fault. We know where to lay our hands on men who have repeatedly tried both home-raised and western feeders, and the latter pay by far the better, on an average, as they have the bone and the constitution to take on flesh. The whole trouble is in the raising of the calves to yearlings. The western cow raises her own calf, letting it suck until she is ready to "go dry" the following year. Too many "mountain cattle," as they are sometimes called, do not get the start that western calves get, and in consequence, are not in demand—at least not in demand at equal prices with western feeders.

In giving his experience with worn-out, hilly, New York lands, a dairyman said that he got good results by scoring the land in the spring with a spike-toothed harrow, fertilizing it, and sowing it heavily with a mixture of grass seeds, including clover. He sometimes sows the seed in winter time while the ground is cracked open by frost. He then uses judgment in pasturing it. The same results can be had in Fulton county. Washing away of soil is thus avoided.

The United States Agricultural Department is sending out warnings to farmers against the use of Turkestan alfalfa seed. Certain strains of the seed that have been developed and acclimated in this country, may suit for southern portions of this country but commercial stock is condemned. See bulletin No. 138.
