Walter Fohner, who has been spending the summer in Van Wert, O., is back in Winter Haven, Florida for the winter. He was married on the 27th of October, and now with a charming helpmeet and a three-dollar-a-day steady job in a country where coal bills are nil, he will doubtless have a pleasant winter.

Mr. and Mrs. J. F. Garland and little son Jackie, spent a few hours in town last Saturday. Mr. Garland owns part of the Jacob Wink farm in Belfast township and is rapidly bringing up his land to a high state of cultivation. His land is quick to respond to lime, and Mr. Garland is now hauling stone for the sixth kiln. From a farm that produced a sledload of white-top for feed a few years ago, he now has plenty of feed for five or six head of horses, and other stock in proportion.

A few years ago it was predicted that this decade would see the end of the horse. It was to be thrown in the discard with the other relics of a wasteful and inefficient age. The motor vehicle was going to crowd old Dobbin out. To-day there are more horses in the United States than ever before and they are better ones. We have added 400,000 to the horse population in the last two years but it is possible that this number will be reduced by the European embargo, which may take over as many as we have gained, but we will have the money.

Foot and Mouth Disease Here.

Foot and mouth disease has become epidemic in many states, and State and Federal authorities are calling on all cattle owners to work together to stamp it out. No cattle may be shipped into, or out of the state. The disease has appeared to an alarming extent in Franklin, Lancaster, York Allegheny, Chester, Montgomery, Northumberland, Snyder, Lebanon and Bucks counties. State authorities ask that as soon as an animal is suspected of having this dreaded disease, it be separated far from others, or killed and that others be kept from drinking from the same stream, passing over the same grounds, or in any manner whatever, being exposed to the disease. Report all cases at once to the State Agricultural Department at Harrisburg. Also, see to it that your neighbors obey the request to stop the spread of the trouble. Keep it out of Fulton county by all means.

Mr. Parker has been making his home with the Doctor since coming back from Illinois two months ago, and is selling a fine gasoline lighting plant. He installed one in the Doctor's home recently, and expects to work McConnellsburg.

While speaking of the proposed trolley line across Cove mountain to McConnellsburg, Dr. Palmer said that as soon as it became an assured thing that we get the trolley, Needmore will connect with us and have the Court House moved to Needmore, and, what is more, the enterprising people of that section will start a newspaper that will outshine anything of the kind ever attempted in the County. It Pays to Go to Sundayschool.

Clifford Lininger is the name of the boy that is making himself generally useful in the Racket store, and, like all other good boys, he goes to Sunday school. On a Sunday morning recently, as he was on his way to Sunday school, his eye caught sight of something shining in the leaves by the sidewalk in front of the Fulton House, and upon picking it up, found that he had in his hand a splendid gold watch. He kept a lookout for the owner. When the FULTON COUNTY NEWS came out the following week, it contained an advertisement in the Lost and Found column, stating that a watch had been lost, and gave directions for its return. Clifford promptly sent the watch to its owner, who happened to be an automobile tourist, and was rewarded by receiving a crisp five-dollar bill.

Longevity.

Our friend Uriah W. Kline, of Licking Creek township, was in town yesterday. While Uriah will be 81 if he lives to the 11th day of January, he is as active as many persons twenty years younger. When it comes to husking corn, he turns out as much as anybody else. He is still fond of hunting. Out of fifteen shots this season he killed fifteen squirrels. Uriah looks good for many years yet. His father died at the age of 96; his brother Abram, at 94; his brother Pete, living near Dresher, O., is 86.

Sailed For England.

Harry Irwin, traveling foreign salesman for the Landis Tool Company of Waynesboro, was home over Saturday night with his parents, Mr. and Mrs. J. A. Irwin, and on Sunday the latter accompanied him on his way to Washington as far as Hagerstown. At Washington Harry received his passport, and sailed on the good ship Lapland yesterday for London. Harry's regular territory is Germany, but owing to war conditions in that country, he will cover England, Scotland, and Ireland until the situation in Germany will warrant his going there.

At the present rate of conscript in the countries now at war, there will be many workmen left to run European factories, and Americans will be called upon to supply most manufactured articles needed there until the war ends and business resumes normal conditions. We feel sure that Harry will have good trade abroad.
