

SYRUP OF FIGS FOR A CHILD'S BOWELS

It is cruel to force nauseating, harsh physic into a sick child.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics.

With our children it's different. Others who cling to the old form of physic simply don't realize what they do.

The children's revolt is well-founded. Under little "insides" are hidden by them. If your child's stomach, liver and bowels need cleansing, give only delicate "California Syrup of Figs."

Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to cleanse the liver and bowels and sweeten the stomach, and that a teaspoonful today saves a sick child tomorrow.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Adv.

Wise. "Yes," exclaimed the young man with a deep drawn sigh. "I've finished my legal education at last!"

"And now," said the friend, "you'll go out and wait for clients."

"See your life, I won't!" replied the attorney. "I've got a job pressed me in a dry goods store."

A necessity in Every Rural Home is a bottle of good liniment. Yager's Liniment is the best external remedy for man or beast.

There will have to be new rules made here, or I shall give notice," said the belle girl in the telephone office to the chief clerk.

"Well, some of the things said over the wires are not fit for me to hear."

GRANDMA USED SAGE TEA TO DARKEN HER GRAY HAIR

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and stops the hair when faded, streaked or gray, also ends dandruff, itching scalp and stops falling hair.

By holding the handle in the position shown in Fig. 4, and shaking from side to side, the tin wings will flap back and forth and make a splendid crackling, crashing noise.

If you have never tried pulling upon a string rubbed with resin, you cannot appreciate what a loud shrieking sound is produced in this manner.

On Friday, January 1, the mummies will mum—that's their way of ushering in the New Year.

In England the mummies performed plays, spoke dialogues and impersonated famous people, especially kings and warriors.

Those days they loved, too, to masquerade as animals, bears and unicorns being especially favored disguises.

At last this mumming came to be a menace as well as a nuisance, and the chaste Henry VIII made it a misdemeanor to wear a mask.

It was George Washington who made the day what it once was in this country. Said he: "Never forget the cheerful and cordial observance of New Year's day."

The days of the New Year. O God, give me the strength through this new year.

To take each day just as it comes to me; To grasp the good of every passing hour And never question what the next will be.

Help me to see that all the homely cares, When fully met and simply done, bring peace; Let me not seek for joy outside myself, For that which springs within will never cease.

FOR NEW YEAR'S EVE

Toy Noise Producers and How to Make Them.

No one objects to a moderate amount of noise in welcome to the incoming new year, and I am sure that you will agree with me that the following are splendid noise producers.

The bell rattle shown in Fig. 1 is made with a tin can, a common thread spool, two short sticks and two screw-eyes. The tin can forms the bell portion of the rattle, and a short piece of broomhandle, or other stick whitened round, fastens it for a handle.

The odd-shaped rattle shown in Fig. 4 requires a short stick for handle A, and two tin cans out of which to make the wings, pieces B and C. The bottoms of the cans must be removed, and the sides opened out.

By holding the handle in the position shown in Fig. 4, and shaking from side to side, the tin wings will flap back and forth and make a splendid crackling, crashing noise.

Figure 5 shows the idea adapted to a toy that is quickly put together. Get an empty tin can, a piece of heavy wrapping paper, a piece of stout twine, and a piece of resin.

FOUND THINGS HAD CHANGED

Auto Made It Impossible for De Wet to Repeat Famous Deeds on the Veldt.

Christian De Wet was the most picturesque, resourceful and elusive figure on the Boer side of the South African war a dozen years ago.

Hence when General De Wet went into insurrection against the Union of South Africa and on the side of England's foes there was general expectation of a game time.

He and his followers rode and raided with all his old skill and invention. The difference was that they never had a chance to rest.

The Herald has before suggested this should be termed "The Automobile War." The running down of De Wet, the unequal horseman of the veldt, emphasizes the merit of the suggestion.

Husband is Poor Companion.

The fact that one party to a marriage is a poor entertainer and companion is no ground for a divorce.

Every maiden wonders what the future has in store for her, and this is what she must do on New Year's day to learn her fate.

Turn the pillow at midnight, the 31st of December, and you will dream of the man you are to marry.

On New Year's eve, if a maiden wishes to know her fate during the coming year, she must go into the open air with a psalm book in one hand and a piece of silver in her mouth.

On New Year's eve, while the clock is striking twelve, repeat three times: Good St. Anne, good St. Anne, Send me a man as fast as you can—And you will be engaged in a year.

"Then it's a mistake," rejoined his father. "Law is never given. It's retained in mighty small quantities at mighty high figures."
