C.—Informally reporting the \$148,000,000 naval bill to the House, the Naval Committee said that while in the European war "the submarine has been effective in harbor and coast defense it has not been able to control the sea as the superior battleship fleet has done, causing an enemy with an inferior battleship fleet to suffer great loss of merchant ships, blockade its ports and drive its commerce off the seas."

The committee reported that therefore the two-battleship program had not been changed. It added that the "effectiveness of the submarine in the European war demonstrated it to be a naval weapon of great value," and that "the airship for scouting purposes, likewise, has demonstrated its effectiveness."

Carries Increase Of \$3,000,000. The bill probably will be reached for debate about February 1. It carries an increase of \$3,492,000 in the building program over what the Navy Department recommended.
