Letter From Florida.

The many friends of Mr. and Mrs. Chas. H. Mann, who went from Saluvia to Florida last fall, will be pleased to hear that they are happy and prospering. Mrs. Mann writes under date of January 14 as follows: "We had an opening in our new store last week. The store is attached to our new dwelling which will have been completed by the time this reaches your readers. We are wearing our summer clothing yet, although fire in a little heater is welcomed some evenings and on damp days. When I think of how Mr. Mann had to hustle—in wood for four stoves from that old stonepile back in Saluvia, I thank Goodness that we are out of it. Mr. Mann's health is very much improved, but he is a very busy 'Mann' keeping carpenters at work. Lumber is cheaper here than in Pennsylvania.

Sunday in Washington.

Billy Sunday took Monday off from his work in Philadelphia, went over to Washington, and preached to an audience of 5,900 people in Convention Hall in that city. Speaker Champ Clark of the House introduced Billy. On the platform sat Vice President Marshall, Secretary of State Bryan, many Senators and Congressmen, including Mr. Dershem, and in the audience were members of the diplomatic corps and citizens prominent in the social and political life of the national capital.

The great evangelist's sermon was on the passing of Christ through Jericho. He made the application of Christ coming to Washington, and made a strong personal plea.

Better Feeling Existing Between Employer and Employee

By A. PARKER NEVIN, General Counsel National Association of Manufacturers

THE POSITION OF THE WORKINGMAN IN HIS RELATION TO HIS EMPLOYER IS BETTER AND HAPPIER NOW THAN IT HAS EVER BEEN IN THE HISTORY OF OUR COMMERCIAL CIVILIZATION.

Many employers now realize that if they had been more anxious to gain the confidence of their employees the LABOR AGITATOR WOULD BE OUT OF A STEADY JOB. The closer employer and employee get to each other the further the salaried delegate disappears down the street.

SHOW ME A FACTORY OR A PLANT WHERE CONTENTMENT REIGNS AND I WILL SHOW YOU THAT THE HUMAN ELEMENT BETWEEN WORKINGMAN AND EMPLOYER IS IN WORKING ACCORD. YOU CAN'T TREAT MEN, BORN IN THE IMAGE OF GOD, AS MERE INSTRUMENTS OF PRODUCTION OR UNITS OF COST. THE MOMENT THE HUMAN SIDE IN INDUSTRY IS EXCLUDED LIFE BECOMES MECHANICAL. WHEN LIFE IS MECHANICAL THE SOUL IS DEAD. SOULLESS INDUSTRY IS PROPA-NATION.

The Fuel Value of Wood.

The fuel value of two pounds of wood is roughly equivalent to that of one pound of coal. This is given as the result of certain calculations now being made in the forest service laboratory, which show also about how many cords of certain kinds of wood are required to obtain an amount of heat equal to that in a ton of coal.

Certain kinds of wood, such as hickory, oak, beech, birch, hard maple, ash, elm, locust, longleaf pine, and cherry, have fairly high heat values, and only one cord of seasoned wood of these species is required to equal one ton of good coal.

It takes a cord and a half of shortleaf pine, hemlock, red gum Douglas, fir, sycamore, and soft maple to equal a ton of coal, and two cords of cedar, redwood, poplar, catalpa, Norway pine, Cypress, basswood, spruce, and white pine.

The Department was careful to add, however, that a pile of crooked, knotty wood, loosely thrown together to occupy a space of 128 cubic feet, is not a cord of wood.

The work of opening up the limestone quarry at the west end of town is progressing nicely. Mr. C. J. Brewer expects to have out sufficient stone for a kiln in a few days.

Sermonette.

While Italy was hesitating about joining in the great European war, an earthquake last week destroyed many towns and villages in that country, damaged many historic buildings in Rome, killed perhaps 20,000 people, and injured several times that many. Had this, and the present war, occurred in "Bible times," the prophets of those days would have pointed out national sins for which the people were being punished. Can it be successfully denied that Providence now takes less knowledge of national sins than in the days of the prophets? Is not the light of the Gospel a thousand fold more of a guide to what they are than the ancient word-of-mouth teachings of a few prophets? The fate of nations that forget God is written in that law of which "not one jot nor tittle shall pass until all shall be fulfilled." Who can say what shall come out of this, the greatest war known to history? Proud heads may be bowed in the dust; or, nations that connived at the sharp practices of political leaders may be humiliated before their enemies. Has America cleaner hands by one whit than have those nations whose life blood is now flowing like water?
