An easy way by which to remember how much surplus wheat this country has at this date, is to count the days from now until July first, and then remember that we could export until that time, 1,000,000 bushels every day—including Sunday. Because the City Council of Scranton got smart with Judge Handley, one of that city's wealthy citizens a few years ago, the little town of Winchester, Va., is richer by two millions of dollars. Rifling a Barrel.
The grooves in a rifle barrel are made with special machinery, and unless one has this he could not do the work properly, no matter how skilled he was. When the grooves of a rifle barrel are filled with lead it is usually necessary to have an expert gunsmith clean them out.

L. W. FUNK
-- DEALER IN --
High Grade Plain Pianos, Player Pianos, Organs, Victrolas, Records, and Professional Tuner, McConnellsburg,

Nothing adds more to the refinements of home than good music. To have good music you must have a good instrument. There are good bad and indifferent instruments, and to the unskilled eye they look much alike. The unprincipled dealer is likely to make you pay a first-class price for a fourth-class instrument. I have lived in this county since my birth, I am a taxpayer and in a position to make good any business transactions. Buy your piano, organ, or victrola from me and if it is not all right you can come back at me.

There are families in every part of this county that have purchased instruments from me. Ask them about me.

Perhaps you want to trade your organ for a Piano, or Player Piano; or your Plain Piano, for a Player. See me. Let's talk it over.
