NO REASON FOR IT

When McConnellsburg Citizens Show a Way.

There can be no reason why any reader of this who suffers the tortures of any aching back, the annoyance of urinary disorders, the pains and dangers of kidney ills will fail to heed the words of a neighbor who has relief. Read what a McConnellsburg citizen says:

John P. Conrad, deputy postmaster, Main St., McConnellsburg, says: "I had terrible pains across my back and I didn't sleep well at night. I was very nervous, and when I got up in the morning I was more tired than when I went to bed. Finally I read of Doan's Kidney Pills. I gave them a trial. They helped me immediately. Before long my back was free from pain."

LASTING RELIEF.

On December 10, 1913, Mr. Conrad said: "I haven't needed any remedy for backache or kidney trouble since Doan's Kidney Pills cured me."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Conrad had. Foster-Milburn Co., Props., Buffalo, N. Y.

Costly Milk.

A herd of about a dozen dairy cows was carefully and accurately tested recently and it was found that some of them produced milk at a cost of two and a half cents per quart, and that others produced at a cost which varied all the way up to seven and a half cents. The average cost was close to five cents. Now why not test all cows and keep none that produce milk at right cost? Hundreds of cows right here in Fulton county must be "eating their heads off."

WEST DUBLIN.

There was quite a fall of "the beautiful" on Friday which seemed like a return to winter.

Edwin and Dallas Brant, Sara Laidig, Viola Mamma, and Ruth Lyon were among those from this vicinity who attended preaching at Zion M. E. church near Waterfall last Saturday evening.

On Sunday afternoon, Dr. H. C. McClain, of Hustontown, while on his way to make a professional call at the home of Levi Johnson who lives near the Stone House on Sideling Hill, noticed something wrong with his auto as he was ascending the mountain. Soon the auto stopped. It took him but a moment to discover that he had played the part of some foolish girls we read about in the Good Book, and had neglected to fill his vessels with oil before he left Hustontown.

The Doctor was compelled to make the remainder of the trip on foot. Well, doctor, there were others who had "cold feet" that day.

If you intend to transplant a tree this spring, do it now. If you wait until buds begin to swell, the tree will have to begin work over again, owing to the shock of having its roots disturbed after spring growth started.

Do You Know that Railroad Expansion Makes Work and Stimulates Industry?

Money saved by the railroads flows back to the people. The \$2,000,000 paid annually by the railroads of Pennsylvania and New Jersey to unnecessary trainmen, forced upon them by the Full Crew—or "excess man crew"—Laws, deprives the people of the big benefits and advantages this money, properly expended, would bring.

Because the efficient development of the railway industry in these States is so materially identified with the prosperity of the farmer, business man, working man, and scores of more or less affiliated industries, the railroads ask the people to help them save this huge amount—now absolutely wasted—that it may go to useful purposes and work toward restoration of general prosperity.

This \$2,000,000 spent for 80 locomotives, for example, would make one year's work for 1745 men, as follows:

In the locomotive shops	894
In the various processes of producing the 29,200,000 pounds of material going into these locomotives, 851 men would get employment as follows:	
In steel mills	206
In blast furnaces	45
In iron mines	140
In coal and coke production	60
In other work	400

Wages for all these men would amount to \$1,750,000. This wage money going into circulation would make work in hundreds of other directions.

Railroad development bears upon all industries. It affects hundreds of businesses, thousands of individuals. Under normal conditions, the railroads constitute a great constructive force. Increasing their facilities and improving their systems results in stimulating all industry and business and automatically creates work for innumerable persons in many occupations.

Increased industrial activity swells passenger and freight traffic. This means more trains and real work for additional crews. In turn, it necessitates more locomotives and cars, increased equipment, erection of new and remodeling of old stations, reduction of grades and curves, elimination of grade crossings, construction of sidings in producing territories, increased passenger and freight terminal facilities.

The welfare of the people and the prosperity of the railroads are closely linked. The railroads find their prosperity in the general welfare. They seek not to decrease, but to increase, employment.

Communicate in person, by letter, or otherwise—TODAY—with your elected representatives at Harrisburg and Trenton. Ask them to repeal the Full Crew Laws. Call attention to the fact that, of 282 editorials received to date, 229 urge the repeal of the laws.

Let all get together to start the wheels of industry turning—to open wide the doors to prosperity.

Mr. and Mrs. Robert W. Mellott, of Laurel Ridge, were in town Wednesday attending to little matters of business and doing some spring shopping.

Sheriff Harris, who calls many sales, reports that cows and horses are not selling for as much as they should. He attributes the drop in price to the recent epidemic of foot and mouth disease in Franklin. Formerly, many buyers came from that county; but none are attending Fulton county public sales this spring.
