before the twenty-first day, when the calendar tells us the sun enters the constellation Aries, and spring begins with noticeably increasing periods of light and heat. I found one familiar friend, the Skunk Cabbage, in bloom about a month ago: and on the same day, viz. February 23rd, a half dozen Silver Maples laden with blossom. No tree comes into flower earlier than the Silver Maple. The Red Maple may be the next, but there is always the chance that the mile northeast of Burnt Cabins, White Poplar will beat it. The next tree to flower is the American Elm. When we think of the next flower, it must be Chickweed, Hepatica, Bloodroot, or Spring Beauty:-or, it may be Dandelion, or even Quaker Ladies, or Innocence. I found Dandelion yesterday on a sunny hillside but no others, except a patch or two of Chickweed, which is said to bloom every month in the year. I regard a city church as a poor place for the Christian, at best. He is lost in the crowd; does not receive the fellowship he needs; is not ministered unto spiritually by the minister of the Word. It is no wonder to me that there are backslidings-the wonder is that there are not more of them. Billy Sunday has filled and the men's Bible classes-it remains to be seen whether or not his spirit, which is the Spirit Mrs Wm. Imagination balks at the magnitude of \$2,000,000. Only when it is translated into terms of purchasing power does it become comprehensible.

Two million dollars, for example, will support more than 2000 families of moderate income for a year.

Two million dollars will buy more than 200,000 barrels of flour, more than 50,000 sewing machines or 80,000 suits. It will give work for an entire year to 2000 men and women engaged in various productive industries and other occupations that add to the common welfare of the people in all walks of life.

It is \$2,000,000 a year that the Full Crew-"excess man crew"-Laws compel the railroads of your States to pay in unearned wages. Laws deprive you of improvements for safety and comfort in travel that this money, now used unproductively, would provide.

How much longer in these times when economy is a universal necessity are you willing to endure this tremendous waste? In the end the cost bears upon you, either in increased rates or decreased service.

Will you use your influence in urging that the people's elected Representatives at Trenton and Harrisburg work and vote for repeal of the Full Crew Laws and place control of the proper manning of trains in the hands of the Public Service Commissioners?
