Some of our citizens are taking an interest in helping the little house wrens fight the pesky sparrows by putting little boxes in hidden places where cats cannot climb to them. To beat the sparrows, the holes must not be larger than a silver quarter—or three-quarter inch auger holes will answer. Something must be done if we wish to prevent all birds being driven away by the English sparrows. Many towns are organizing bird clubs.

James Linn brought with him from Madsenville a dog that can "show off" to advantage against most McConnellsburg dogs. One of the tricks of the newcomer is to take an iron ring three inches in width, a quarter-inch in thickness, and several pounds in weight, toss the ring into the air with his nose and then meet it on the way down and let the ring slip over his head like a collar which fits snugly. Some trick, that.

Auto Accident.

Dr. Ed L. Smith, formerly practicing in McConnellsburg, left his home in Schellsburg on Monday morning of last week in a Ford to go to Bedford to attend a bank meeting. Approaching a cement bridge about two miles east of his home a front tire burst with great force. The side of the car dropped lower and in order to prevent contact with the bridge wall, Dr. Smith, who was running at a good speed, quickly turned to the opposite side of the road; the car locked and immediately turned over throwing him out and again turning on its side. The doctor escaped with a few bruises, one shoe entirely removed from his foot, but the car was a wreck. Dr. Smith found a silver dollar which he had with other coin in his pocket about two hundred feet away from the car. He is unable to state just how the accident occurred and how often the car turned over. He walked to the nearest residence phoned to Schellsburg for his touring car, and reached Bedford about ten minutes late for the meeting.

Large, or Small Farms.

In reply to a group of young men who wish to have discussed the question as to whether Pennsylvania farms should be large, or small, our answer is, farm according to your means. Never lose sight of the fact that the cost in labor and seed, to farm a ten-barrel acre, is as great as that of a fifty-barrel acre, the cost in both cases being about \$12.50—average. It stands to reason then, that 5 acres made to produce 250 barrels at a cost of \$62.50, beats all hollow the 20 acres that produce 200 barrels at a cost of \$250. In the first instance, the cost per barrel is 25 cents, while cost in the second instance is \$1.25 per barrel.

If your capital is small, spread it thickly over a few acres rather than thinly over many. The rule holds good whether for grain hay, pasture, and consequently, for more live stock.

The only exception to the rule is in case you could rent a large and fertile farm and "skin it to death," if the owner is foolish enough to permit you to do so.

Easter in the Churches.

The Lutherans rendered a beautiful Cantata, "The Gospel of Easter," to a large and appreciative audience in the High School Auditorium, on Sunday evening. After half of the musical entertainment had been rendered, Mrs. R. E. Peterman gave a select reading, after which, the latter half of the cantata was given.

Early Sunrise services were held in the Presbyterian and in the Lutheran church at 6 o'clock both of which were attended by a large number of persons. Communion services were held in the Reformed church at 10:30 and at the services in the Presbyterian church in the evening the recently elected church and Sunday school officers were installed. Rev. Dr. Whalen, of Frederick, Md. preached in the Reformed church Saturday evening, Sunday morning, and in the Presbyterian church in the evening. Rev. A. S. Luring, "new minister" preached in the Methodist church Sunday morning, much to the satisfaction of the congregation.

Crop and Livestock Report.

L. H. Wible, of this place, Statistician, Department of Agriculture, has sent out his report for March. It contains many things of interest, among which are: Estimate of farm animals in the State; Condition of crops by counties, &c. For Fulton county, he estimates the number of pure bred stallions, 7; pure bred bulls, 12; same for hogs, 16; rams, 14; number of farmers who are fattening steers for market, 6; average number of tons of fertilizer used by each farmer, 1 1/2; average price of fertilizer paid by Fulton county farmers, \$15.90. The average price paid in the State is \$20.80, while in some counties the average price paid is \$24.00. It is in counties noted for rich soil that the average price paid runs highest. Surely there is something for us to learn from that. The wheat outlook is 10 per cent. below average, owing to freezing.

Asks for Information.

Men are not all of the same mind even on the greatest of questions—and it is not surprising that they should not all hold to the same opinion on the Woman Suffrage question. Any one desiring to express his, or her, opinion on the subject through the Fulton County News, and will do so over his own name, and not ask for that privilege more than twice, will be granted a reasonable space, provided there be nothing personal in the article. Mr. Geo. Wa. Mellott, of Whips Cove, submits the following:

"Who changed the rules that are laid down in the Bible? Is Woman Suffrage right? Let the Word of God Speak.

"And thy desire shall be to thy husband, and he shall rule over thee.—Genesis 3:16.

"But I would have you know that the head of every man is Christ, and the head of the woman is the man, and the head of Christ is God.—1 Corinthians 11: 3.

"They are commanded to be under obedience as also saith the law.—1 Corinthians 14:34.

"For the husband is the head of the wife, even as Christ is the head of the Church.—Ephesians 5:23.

"For after this manner in the old time, the holy women also, who trusted in God, adorned themselves, being in subjection to their own husbands, even as Sarah obeyed Abraham, calling him lord.—1 Peter 3:5, 6.

"And Adam was not deceived; but the woman being deceived, was in the transgression. For this cause, the woman was bid- den to be in subjection.—1 Timothy 2:14.

"The same rule comes down through the old Bible and the New Testament. Paul says there is no other rule, but what we have laid down, and thought we, or an angel, preach any other word, let him be accursed. Paul could not change the rule; an angel cannot change it; Christ has set his seal upon it; and no one can remove it but him.

"Now if some one can make the question plain, I would be glad to learn to know and how it can be; as the woman is the weaker vessel, and this being so how could she be expected to carry a burden equal with a man."

War Sends Sorrow.

For evidence of the world-wide effects of the European war upon the lives of citizens in all civilized nations, few would suspect that McConnellsburg would be called upon to furnish a share; but today a son of one of our citizens lies so badly wounded in a French hospital that nurses who cannot write English had to do the best they could to apprise the parents of their son's plight. Accordingly, a letter written in French was received on Monday night by Mrs. C. B. Little, telling her that a son by her first husband had been struck by fragments of a German shell while he was on duty in the trenches, and that while he was not necessarily mortally wounded, he is helpless in so far as the use of his arms are concerned.

The unfortunate soldier is Mr. John J. Ryan, of Hamilton, Ontario, Canada. He is a member of Battery 11, 3rd regiment, C. F. A. (Canadian Field Artillery), and was serving with the English army, on French soil, when he received his wounds. Strict censorship of foreign mails forbade giving details as to exact location of trenches when Mr. Ryan was wounded.

Your brains will spot the sweetness of our syrups, the rich aroma of our coffees, the delightfulness of our teas, the splendid quality of our sugars, and canned goods, and of the many other table necessities and luxuries we carry. And your brains will note the value and reasonableness in price of every article.

Turn your brains loose in our CLOTHING department. It will be a treat for them to see the exceptional offerings we are making in our spring and summer wear for men and boys, to note the new styles in furnishings, to test the value of cloth in our goods, and to note the splendid fit and workmanship of every piece we sell. And PRICE! Say, that matter of price will be a delight to your brains for many a day to come. Bring your brains around.

And SHOES! You won't need brains in your heels if you buy our shoes, for those shoes are so well made, easy fitting, foot resting, and brain easing that you will want nothing else after once giving them a trial. There are all kind of shoes in the world, but the shoe that flashes a feeling of ecstasy to the brains must be MADE RIGHT by people who KNOW HOW TO MAKE SHOES. We sell these shoes, and the price is as easy as the shoe.

Housecleaning time is just here and we have a large stock of WALL PAPERS from 5 cents up; Window blinds, Curtains, and curtain nets from 10 cents a yard up. Splendid assortment of Carpets, Rugs, and Linoleums.

AND THE WOMEN, bless 'em! They know where the good things are, for of all the people of the earth women are the keenest users of brains in shopping. Our store is so full of good things for women that they just flock in every day in large numbers and buy our dress goods, and furnishings, and the thousand and one other things we carry that are used every day in dress or in the home. And especially are the women attracted just now by our spring wearing apparel, which is superior to anything we have ever before shown. Our goods and prices are popular with the women, and, OF COURSE, the women are popular with us.

Just make a habit of coming around to our store for everything you want. We carry most things ourselves, but if it should happen to be something out of our line we'll tell you where to find it. And you will be surprised at the many hundreds of things we carry, and all to the good, with not much of a price tacked onto them, either.

-- DEALER IN --

High Grade Plain Pianos, Player Pianos, Organs, Victrolas, Records, and Professional Tuner, McConnellsburg,

Nothing adds more to the refinements of home than good music. To have good music you must have a good instrument. There are good bad and indifferent instruments, and to the unskilled eye they look much alike. The unprincipled dealer is likely to make you pay a first-class price for a fourth-class instrument. I have lived in this county since my birth, I am a taxpayer and in a position to make good any business transactions. Buy your piano, organ, or victrola from me and if it is not all right you can come back at me.

There are families in every part of this county that have purchased instruments from me. Ask them about me.

Perhaps you want to trade your organ for a Piano, or Player Piano; or your Plain Piano, for a Player. See me. Let's talk it over.
