Lighten Women's Burden.

To "make a living" is by no means all for which we should live in this world. When we go about making a living in such manner that there is no time left for self improvement, and the mother has no time to devote to the children to instill into their sensitive minds the principles that only a mother can teach, we are by no means fulfilling the purpose for which life was given us.

Use all the labor saving machinery possible; but keep a proper balance between that for the farm, and that for the household. Indeed, the very first labor-saving device that should be installed is one to furnish running water in the kitchen. The kitchen is the engine room of the farm. If the "engine" be worked to the limit, some day something like a monkey wrench is going to fall into the family social machinery, and there will be a wreck. Such a disaster could happen from scores of causes. Ask any good, faithful kitchen engineer what they might be. Ask her if running water at the sink could lessen the danger, and she will answer, "Yes, by more than half." Take her word for it, and sacrifice something to secure such good accident insurance. Be honest with your conscience and recall to mind who it was that instilled into your character anything of good that you may now possess—your mother. We may read in novels of slave mothers who raised noble sons and daughters, but they are the exception. If, by reason of slavery, mother minds are dwarfed, we may expect a generation of dwarfed minds in so far as early childhood impressions influence future action. Exceptions only prove the rule. The average child reflects the teachings of the mother.

Times have changed. Help in the household and on the farm is no longer going begging for positions. The old kitchen pump is as far behind the times as the flail and the flax heckle. The strain on the womenfolk is greater than when the house was full of big girls, aunts, and grand mothers who did their share of chores.

Summer Normal at McConnellsburg.
The Summer Normal at McConnellsburg, Pa. will open on Monday, May 10, 1915, for a term of eight weeks.

The object of the school is to prepare teachers for provisional, professional, and State Permanent Certificates.

The management of the school desires, if possible, to have three grades—two for teachers, and the establishment of a grade for pupils who would like to take up branches which would strengthen them for High School Work.

Classes will be organized in higher branches, if desired.

Bring any good text books you may have for reference. The text books to be used will be Wentworth's Geometry Revised, Wentworth's New School Algebra, Weidennamer's Mental, Hopkin's Physical Geography, Reed & Kellogg's Grammar, Methods Colgrove's. Bring any text book you may have in Arithmetic, Geography, Physiology, Civil Government and Literature. Tuition: \$1.00 per week or \$7.00 for entire term.

Come at the opening of term if possible. Any text book you do not have may be secured at the opening of term. Good boarding can be had at reasonable rates. Students wishing board should secure it before opening of school or write the management.

Examinations will be conducted by Co. Supt. Thomas at the close of term. For further information address:

Wanted—badly.—Some one to invent an uglier shaped hat for young men than the present styles. Immense sales guaranteed.

Every available dwelling house in town is occupied. Looks to us like a case of more houses needed. Several families had to "double up."

There will be a supper at Knobsville Saturday evening, April 10th consisting of Chicken soup, Ice Cream, etc. Proceeds to go for church chairs.

After having spent seven weeks in Philadelphia visiting in the home of her brothers, Miss Winifred Metzler returned to her home at Harrisonville last Friday.

HIDES.—Frank B. Sipes says the highest market price for beef hides at their butcher shop in McConnellsburg, also highest price paid for calf skins, sheepskins and tallow.

They say that a new sun spot was discovered on March 29th, and that it will be visible until April 10th. Glad to hear it—been looking for a sunny spot ever since the ground hog's legal term of office expired three weeks ago.

One day last week the sawmill and shed belonging to Frank Whitfield at Crystal Springs caught fire in an unknown manner and were completely destroyed, with the exception of the engine which was not damaged. Loss unknown.

Another little girl that has made a good record of attendance at school is Catharine Clevenger, 13 years of age—daughter of Mr. and Mrs. Ahimaz Clevenger in the Cove. She attends the Road School and has not missed a day in the last six years.

A fierce storm raged up along the Atlantic coast last Saturday, and extended into the eastern end of the State. Ten inches of snow fell in Philadelphia. Many barges, tugs, and coasting vessels went down in the storm, drowning many scores of people.

Christian Sunday school was organized at the Laurel Ridge church last Sunday morning with the following officers: Superintendent, U. G. Humbert; assistant, Jacob Clouser; secretary, George Lynch; Treasurer, Chas. Gordon; the teachers will be arranged for Sunday the 18th.

This office acknowledges the receipt of a copy of a Minneapolis, Kansas, newspaper which gives an account of services held on Good Friday by Rev. C. W. Seville, pastor of the Lutheran church at that place. On the Sunday preceding, he entertained and held services for, the local regiment to the Kansas National Guards, at the army. The paper gives our former townsman great credit for the efficient way in which he has worked in that place. Rev. Seville is a son of our townsman Amos Seville.
