Excellent muffins are now being made of soybean meal. This article of diet contains no starch and it is highly recommended for those who must avoid starchy foods.

Mr. Daniel Teeter, of Greencastle, is visiting his friend David Maun, and others in the Cove. Mr. Maun always treats him to a ride behind the 30-year-old colt. This time the colt was gayer than ever.

We continually hear of Franklin county farmers complaining of deer eating wheat. Here in Fulton county the farmers seem glad to have the deer deer come down from the mountains to be sociable and take a "nip" with them.

Mr. and Mrs. Lee B. Cattlett and children Mary and Abbie, of Needmore, were shopping in town Thursday of last week. We know they were, because they gave us a dollar, and Mrs. Cattlett said that she "just couldn't do without the NEWS."

Messrs. Henry Rowe and Howard Tice, of Wells Valley, were transacting business in town last Monday. They report the Valley as being quiet and industrious. Howard did a little shopping. One of the things he bought was a nifty automobile just big enough for two.

J. S. Mort, Esq., of Clear Ridge, brought his daughter Susie (Mrs. W. E. Stouffer) and her two children, Margaret and Elizabeth, to town last Saturday, and they took passage on one of our automobiles at noon for her home in Waynesboro. It was Mrs. Stouffer's first visit to the home of her parents in two years.

Miss — Campbell, secretary of the D. A. R. of the state of Kansas, is visiting relatives in Mercersburg, and was the guest of honor in an automobile party that visited relatives in the Cove last week. The party consisted of Miss Campbell, Mr. and Mrs. James Johnston, and Mrs. Johnston's mother, Mrs. Minnie Bradley.

Although Bedford and Everett are connected by a steam railroad, a motor bus runs regularly over the Lincoln Highway between those towns, and finds plenty of work to do. A motorbus is also running between Rainsburg and Bedford. There is a chance for some wide-awake fellow to pick up the route between McConnellsburg and Everett.

Little boys who want to go swimming before their parents think it is warm enough, should remember that there are awful things in the water now. Some of them are Opedia Solonglypha, with much poison in their teeth. Another ugly thing is the larva of a winged insect known as Rydulus Cornutus. There are also, many species of the American Fundulus, and of the Catostomidae family. Better wait a little longer until the water is real warm.

THE INDUCEMENT WE OFFER

We do not give something for nothing. No merchant can do that and continue in business.

We do not sell goods below cost. You would not do that yourself if you were a merchant.

We do not advertise to do either of these things. For we advertise to do only that which we faithfully accomplish.

But we do advertise to give you the best and biggest dollar's worth of goods for a dollar of any store in this community. And we give what we advertise.

We do advertise to give you the best quality of goods of any store in this community. And we give what we advertise.

We do advertise to give you the best service of any store in this community, and we give what we advertise.

We do advertise that we will treat you exactly as we like to be treated when we go elsewhere to buy goods we do not handle.

And we do exactly as we advertise.

That is all WE can promise you. But we GIVE what we PROMISE.

The bright days of springtime bring with them new life and energy, and we take this opportunity of calling your attention to many reasonable bargains.

We have yet a nice line of horse collars that was made up for us last winter when the collar business was dull; and for the cash, we bought them at a price that will save you money.
