Read this:

Mrs. D. Keyser, Main St. McConnellsburg, says, "My back had been causing me a lot of trouble for a long time. It ached constantly and the pains in my joints were so severe that it was almost impossible for me to bend over. I had but little strength and my housework became a burden. I heard so much about Doan's Kidney Pills and I finally got a supply at Trout's Drug Store. I had only taken one box when I was completely cured. It is nearly three years since I have taken any kidney remedy and I know my cure has been permanent."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Keyser had. Foster-Milburn Co., Props., Buffalo, N. Y.

WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body.

In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamless sleep, irritability and unless corrected, leads straight to a breakdown.

To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutriment gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol. Scott & Bowne, Bloomfield, N. J.

The Editor.

Consider the editor. He wears purple and fine linen. His abode is amongst the mansions of the rich. His wife hath her limousine and his first-born sporteth a racing car that can hit her up in forty flat.

Lo! All the people breaketh their necks to hand him money. A child is born unto the wife of a merchant in the bazaar. The physician getteth ten golden plunks. The editor writeth a stick and a half and telleth the multitude that the child tippeth the beam at nine pounds. Yea, he lieth even as a centurion. And the proud father giveth him a cremo.

Behold the young one groweth up and graduateth. And the editor putteth into his paper a swell notice. Yea, a peach of a notice. He telleth of the wisdom of the young woman, and of her exceeding comeliness. Like unto the roses of Sharon is she and her gown is played up to beat the band. And the dressmaker getteth two score and four iron men. And the editor getteth a note of thanks from the S. G. G.

The daughter goeth a journey. And the editor throweth himself on the story of the farewell party. It runneth a column, solid. And the fair one remembereth him from afar with a picture postal card that costeth six for a jitney.

Behold, she returneth and the youth of the city fall down and worship. She picketh one and lo, she picketh a lemon. But the editor calleth him one of "our most promising young men" and getteth away with it. And they send unto him a bid to the wedding feast and behold, the bids are fashioned by Muntgummary Hawbuck, in a far city.

Flowers and long is the wedding notice which the editor printeth. The minister getteth ten bones. The groom standeth the editor off for a twelvemonth subscription.

All flesh is grass and in time the wife is gathered into the silo. The minister getteth his bit. The editor printeth a death notice, two columns of obituary, three lodge notices, a cubit of poetry and a card of thanks. And he forgetteth to read proof on the head, and the thing cometh out "Gone to Her Last Roasting Place."

And all that are akin to the deceased jumpeth on the editor with exceeding great jumps. And they pulleth out the adds and cancelleth their subscriptions and they swing the hammer unto the third and fourth generations. Canst thou beat it?

The New Scalp Law.

On the 15th of April, 1915, a new scalp law went into effect, and by its provisions, the claim for bounty must be made to a Justice of the Peace, who will examine the skin to satisfy himself that the claim is legitimate, and will take the affidavit of the claimant on forms provided by the Game Commission. The claimant shall pay the Justice a fee of 25c if but one animal is presented and named in such affidavit, and a fee of 50c if more than one animal, and not to exceed five, is named in such affidavit after which such official will hand both the skin and the affidavit to the claimant, who will forward same prepaid to the Game Commission, Bounty Division, Harrisburg, Pa. The law provides that no official other than a game Protector Shall In Any Way Mutilate or Split the Face of the skin so presented, and no claim will be honored by the Game Commission if the face of the skin can be split before being sent to that office.

The Act of April 15th, 1915, provides for a bounty of \$6.00 on the wild cat, \$2.00 on the fox, and \$1.00 each on the weasel and mink.

DANE.

H. O. Wible is spending this week with his family. While Olie is trying to make good boys at the Reformatory, he has to come home occasionally to see what the boys here are doing.

Last week while Clem Brant was working on Mrs. Maggie Ambrose's farm, he found a tortoise with the date 1873 carved on the shell. The initials were worn out. Clem tried to cut his initials and the date, but the shell was so hard it could hardly be marked.

Result of the great Yale University Sheffield Scientific School Test. Of the forty automobiles tested at the famous Sheffield Scientific School laboratory the Maxwell stands first in economy of Gasoline consumption.

Maxwell Wins Test Over 40 Cars

MECHANICAL ENGINEERING DEPARTMENT SHEFFIELD SCIENTIFIC SCHOOL YALE UNIVERSITY

NEW HAVEN, CONNECTICUT May 1st 1915.

The Biever Motor Car Company, 1079 Chapel Street New Haven, Conn.

Gentlemen:-

I am enclosing report of test of your Maxwell automobile recently made in our laboratory.

I should like to add the following comments:

1. RELIABILITY OF TEST.

A preliminary test was made on April 19th, using a new car which was rather stiff. The showing was so good that we decided to make a second test. This was made on April 30th, using same car. On this test, the car showed less stiffness and the performance was better than on the first car. The second test was supervised by our most careful experts, and the results, I believe to be perfectly reliable.

2. MILEAGE.

The efficiency of the Maxwell automobile as indicated by the number of miles on a level road, is exceptionally high. This mileage record is better than that of any one of forty automobiles tested in our laboratory to date.

3. MOTOR PERFORMANCE.

The efficiency of the motor and carburetor as indicated by the pounds of gasoline used per hour per horse-power at rear tires, is exceedingly good, and indicates very perfect carburetor action over the whole range of speed and load. This record like that on mileage per gallon, is the best one that we have had.

Very truly yours,

E. H. Lockwood

He Called Her Down.

A choice bit of gossip has been going the rounds for the past week. The principal parties connected with the affair are well known, which makes the story all the more sensational. A husband and wife are mixed up in the scandal, and what makes it doubly startling is the fact that each of them has always had the

entire respect of the community. As a matter of fact the bomb exploded at the very moment at which there had arrived at their house a party of twenty or twenty-five of our best people, who had gone there to surprise the couple on their wedding anniversary. Neither of the principals expected com-

pany. The astonishment of the visitors may be imagined when they heard the husband call his wife down. He made no bones of it. It was done openly and without even a hint of apology to the guests. The shocking part of it is the fact that everyone, even the closest friends of the couple, had no idea but that their home life was ideal. Neverthe-

less—and we have the best of authority for the story when the company arrived they were met at the door by the astonished husband. As soon as the first greetings were over he said "My wife is up stairs, I will call her down. And he did.
