Miss Mary McDowell, of Mercersburg, visited in the home of James H. Kendall, last week.

Mr. A. Danner Buehler, a newspaper man of Gettysburg, spent a few days last week in the home of his brother-in-law, Druggist L. W. Seylar.

After having spent a short vacation at home, Miss Jean Johnston returned to Shippensburg Normal School on Monday for the five-weeks summer term.

HIDES.—Frank B. Sipes pays the highest market price for beef hides at their butcher shop in McConnellsburg, also highest price paid for calf skins, sheepskins and tallow.

When their automobile turned and rolled down an Allegheny mountain embankment near Hagerstown, Arthur Summers, Pittsburg, and his father, Frederick, were injured, one of the latter's shoulders being dislocated.

An automobile load of Chambersburgers were arrested and fined \$5 and costs in Hagerstown Monday because they drove their car around and ahead of another coming from the base ball park. It seems there is an ironclad rule against so doing in Hagerstown.

The practice of firing air guns and target rifles within the borough limits is an every-day occurrence, and it is no uncommon thing to hear a spent ball whizzing past your ear. After some child, or older person has lost an eye, or has otherwise been seriously injured, the ordinance against such practice will be enforced.

Skilled teachers were never so much in demand as they are now. More than two thirds of the graduating class of the Shippensburg Normal School were elected to positions before they were graduated. Boards of Directors recognize the value of efficiently trained teachers. The Fall Term which opens September 6 is the best time to begin work at the Normal.

Do Not Give Them Money.

Just because our foreign missionaries sent a few converted and educated natives of Asiatic countries to America to go out among our people to tell us at first hands of the needs of the Gospel, and of the need of money to carry on the work, an army of lazy loafers from those countries have invaded America to beg for themselves. For months the church papers have been warning us to pay no attention to the latter class. When a genuine representative of charitable work is sent among us, he is either accompanied by one of our missionaries, or he carries credentials from our church courts about which there is not the shadow of a doubt. As an illustration of the fraudulent class, a strapping big, able-bodied man passed westward over Lincoln Highway last week, carrying a very greasy printed recommendation from some foreigner with an outlandish name that no one could pronounce. The paper stated that the bearer was a "Christian" and that we should give him money for his orphan children who were caught in the European war zone. Many people gave him quarters and half dollars to get rid of him, and we have no doubt that he collects many dollars during a day's walk through the farms of our hard working people. Friends you can help our missionary cause by setting the dogs and the constable after such frauds—it hurts the cause of Christianity for you to encourage these blasphemous men. We say blasphemous because they will offer to preach from your pulpits, and some of them can deceive the very Elect.

Farm Notes.

To get the best paying results from clover as a soil builder, it should remain on the ground two years, until the root system is fully developed, then plough down.

A few weeks ago we gave a handful of soybeans to each of three farmers. Reports from all three show that some of the beans grew. In two instances crusts formed before germination and was not discovered in time to remove it and consequently only a few of the tender plants came up. On the third farm the crust was carefully watched and removed and the farmer has a fine stand of beans. We think that this is worth repeating for the benefit of those who may care to plant soybeans next year. Soybeans are too tender to force their way through a crust that would not affect other varieties, or that would not prevent corn from coming up.

There is no man in Licking Creek township more highly respected for his thrift than "Bilby" Bair. Shortly after his marriage, he went into debt for twenty acres of land. He went further into debt for lime. He farmed eighteen acres of it well, he has a splendid home paid for, and to-day he will tell you that if he could induce some neighbor to sell him twenty acres more—just enough to keep him busy—he would not care who had three-hundred-acre farms. This is another proof of our contention that small farms well managed pay best where labor is the determining factor of success.

Are After Grocers.

According to a letter from the State Food Bureau—too long to publish in these columns—so much dirty breakfast food is on the market that consumers have complained and the Bureau is going to make a store-to-store canvass of the country to remedy conditions. The complaint is that breakfast foods are permitted to become wormy, full of bugs, and otherwise unfit for food. The letter ends with the following statement:

"If the retailers, aided by judicious co-operation of manufacturers and jobbers to remedy existing conditions, do not get rid of this evil it is possible that the people may feel it necessary to adopt a remedy proposed in other states against the sale of stale stock of perishable goods such as these cereal preparations, namely, that of requiring that the package shall bear a stamp indicating the date of manufacture of the goods.

"The Commissioner earnestly hopes that the retailers of the State will examine their own stocks and protect their own customers before the Food Agents reach their stores, and by so doing avoid trouble of a more serious character for themselves."

Are Dynamiting Fish.

A member of the State Police force has been taking evidence in Franklin county against parties who used dynamite to kill fish in one of the streams. It is to be hoped that the criminals will be brought to justice. A stick of dynamite exploded in a stream kills every little fish in the pool. The man who will kill fifty to one hundred small trout or bass for the sake of obtaining two or three larger ones deserves the utmost contempt of all fishermen, and he should be made to know his place. It is not the few good fish he takes that constitutes the outrage, but it is the innumerable small ones killed that is exasperating to law abiding citizens.

JUST A WORD TO YOU

There comes a time when you, as with every other person, need something in our line, and that means about everything a farmer or housekeeper needs. It may be a jackknife or a mowing scythe, a necktie or a suit of clothes, a row of pins or a pair of shoes—a penny purchase or a fifty-dollar purchase.

KEEP THIS IN MIND

That when the time comes we are here to serve you—and we guarantee that both quality and price will be eminently satisfactory to you.

We did sell some sweet corn this season, and could have sold more, if we could have procured it; and we are sorry that we could not fill all the mail orders we got.

Garden Plows and Lawn Mowers.

We made mention of these two articles in our last advertisement; and, up to this time we have sold 20 garden plows and 15 cadet mowers. If you do not have these two articles on the farm, buy them at once. You can save money by using a Garden Plow. You can do the work in one-third of the time. Price of plow \$1.98; Mowers, \$2.50 and 2.65.

MOWING MACHINE OIL.

We are supplied with these goods again. Quite a lot of people have asked whether we were going to handle the same oil that we had before, and they say they have never used a better one. The price is the same as before—25 cents a gallon. Grain rakes 23 cents, Batcheller Wheat, Manure, Oats, and Pitch Forks 38 to 75 cents. Rivets 5c. to 18c. a box. Mowing machine oilers 8 to 15 cents.

SHOES THAT WEAR.

Remember that if you want shoes that wear, we have them; and as we are talking about harvest goods, we have a good harvest shoe that will not hurt your feet. Boy's \$1.90; Men's \$2.00 and \$2.25. Call and see the largest stock of shoes in town. Thanking you for the largest spring trade we have ever had, we remain yours for business.

The Thrice-a-Week Edition of
THE NEW YORK WORLD

Practically a Daily at the Price of a Weekly. No other Newspaper in the world gives so much at so low a price.

The year 1914 has been the most extraordinary in the history of modern times. It has witnessed the outbreak of the Great European war, a struggle so titanic that it makes all others look small.

You live in momentous times, and you should not miss any of the tremendous events that are occurring. No other newspaper will inform you with the promptness and cheapness of the Thrice-a-Week edition of the New York World. Moreover, a year's subscription to it will take you far into our next Presidential campaign.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and this pays for 166 papers. We offer this unequalled newspaper and THE FULTON COUNTY NEWS together for one year for \$1.65.

The regular subscription price of the two papers is \$2.00.

L. W. FUNK
 -- DEALER IN --

High Grade Plain Pianos, Player Pianos, Organs, Victrolas, Records, and Professional Tuner, McConnellsburg,

Nothing adds more to the refinements of home than good music. To have good music you must have a good instrument. There are good bad and indifferent instruments, and to the unskilled eye they look much alike. The unprincipled dealer is likely to make you pay a first-class price for a fourth-class instrument. I have lived in this county since my birth, I am a taxpayer and in a position to make good any business transactions. Buy your piano, organ, or victrola from me and if it is not all right you can come back at me.

There are families in every part of this county that have purchased instruments from me. Ask them about me.

Perhaps you want to trade your organ for a Piano, or Player Piano; or your Plain Piano, for a Player. See me. Let's talk it over.]
