

pany Do Not Believe the Explosion At Their Two Mills Caused By Any Deliberate Action.

Wilmington -- With terrifice reports which could be heard for miles two powder mills of the Du Pont Powder Company, at its Brandywine plant, three miles west of this city, exploded Sunday morning, killing Lawrence Cunningham, aged 45, married, of Henry Clay, and Hugh Gillespie, 25, of Hazleton, Pa. The cause has not been determined. Several hundred pounds of powder of a powerful brand were stored in each mill. The first mill to go up was a fuse plant, the blast from which caused the explosion of the second mill nearby.

The two victims were employed in the fuse mill. Only one body was found, but whether it is that of Cunningham or Gillespie it is impossible. to tell, it being mangled and burned beyond recognition. The other workman was blown to atoms, the only remains found being a few bits of charred flesh hanging to the branch from the mills. Both mills were completely destroyed, being swept clean from their foundations. The force of chinery, shafting and large stones a considerable distance in all directions and trees were either uprooted or twisted as if in the path of a cyclone.

ACTON PLANT CRIPPLED.

Powder Explosion Believed Result Of Plot To Halt Work.

Acton, Mass-With a shock that was felt within a radius of 40 miles, the glazing mill of the American Powder Company, which, since the outbreak of the European war, has been working to its capacity, hlew up early Sunday. So far as known nobody was killed.

The actual money loss to the comthat work on large orders probably would be held up for several weeks. Property-owners in the surrounding towns, particularly in Maynard, were heavy lovers because of the shattered windows.

The mill had been closed down since Saturday afternoon and the police of this town and Maynard expressed the belief that the explosion had been caused with intent to cripple the plant.

FRANCE TAKES KING'S ESTATE.

Property Of German Princes Will Be Administered By State.

Paris .- The property rights of three German princes in the estate of

London,-The Germans, in full possession of the entire Brest-Litovsk line, have resumed the offensive in the Baltic provinces and are pressing the Russians both in the districts southeast of Mitau and to the east of Kovno In an effort to reach the main line of railway which passes through Vilna and Dvinsk to Petrograd.

This may, in time, prove the most important of the German operations, although at present they are using more troops in the pursuit of the Russians, who are retiring from Brest-Litovsk and the line on either side of the fortress.

It is expected, however, that with the fall of Brest-Litovsk, which has been followed by that of Olita, south of Kovno, the armies of Field Marshal von Hindenburg will be reinforced and make another attempt to cut off the retreat of the Russians. It is believed here, however, that it now of trees across the Brandywine Creek is too late to accomplish this purpose

The /Russians apparently have evacuated both Brest-Litovsk and the explosion hurled pieces of may Olita before the Germans arrived, as the latter make no claim to the capture of guns and booty. The Austrian official report states that Archduke Joseph Ferdinand found the town of Kamieniez-Litovsk in flames when he arrived. There are indications therefore that the Russians still are carrying to the rear everything movable that might prove of use to the invaders and burning what they are unable to take with them.

Russians Strip Country.

Petrograd .- The main mass of the Russian army deployed between the Bobr and the Pripet marshes is falling back on another general position slong the greater part of a front of at the Presidio. He was taken there pany was not heavy, but it was stated 150 miles. The retirement is being carried out independently of any local pressure of the enemy, who is supposed to have 29 corps concentrated on the line of Brest-Litovsk. For some weeks past the work of

stripping the country in the immediate rear of the Czar's armies of all machinery, stock and supplies that might be of any use to the enemy has been vigorously prosecuted and the fortifications evacuated are nothing more than heaps of debris.

The Russians, in fact, are adopting the policy which proved fatal to Napo- from the porch roof to the ground leon. FERRIBLE BLOW NATIONAL GUARD TO GEN. PERSHING His Wife and His Three Children The Massachusetts Militia Marches Through Streets. Perish By Fire.

ONLY ONE SON IS RESCUED MOB LAW HAS NO DEFENSE

Belleving All Had Escaped From Burning Quarters At Presidio, Fire Department Centered Energies On Flames.

San Francisco.-Warren Pershing, five years old, will be the only member of Brigadier General John J. Pershing's family to welcome the officer when he returns here from El Paso. Mrs. Pershing and the three other children, Mary Margaret, six; Anne, seven, and Helen, eight, were suffocated and burned in a fire which consumed their quarters at the Presido of San Francisco

Warren is being cared for by nurses at the Lettermann General Hospital, when he was picked up unconscious on the floor of his bedroom by rescuers who crawled through the burning house searching for Mrs. Pershing and her four children. Warren revived quickly. The others were dead when the rescuers reached them, suffocated and their heads, hands and feet burned.

STATE NEWS

ters Have Been Received From All Of the Mexican Leaders Except Carranza.

Washington. - The Pan-Americanconference on Mexican affairs will shortly be reassembled to consider carrying out the peace plan proposed to the various factions in the republic. Favorable replies have been received from Villa, Zapata and their military leaders and the influential civic authorities and prominent citizens to whom the note was addressed, with the exception of Carranza and his military commanders. The great majority express a desire to meet in a peaceful way and select a provisional president who will be acceptable to the United States and the other

American republicas Although Secretary Lansing would say nothing about the conference just held, a general idea of what transpired is known. The replies thus far re-

ceived were considered. A tentative arrangement was made looking to an early reconvening of the conference, when the tenor of the responses will be made public, and the Mexican people will be told to call their convention and elect their man. This convention naturally will not be held in Carranza territory. The State Department is advised that if the Mexican representatives are permitted to meet inmolested they will give voice to their real choice for the first time

since the overthrow of Diaz. The United States will give official recognition to the new President and his government and extend its moral support. Similar action will be taken by the Latin-American republics. The provisional government will be permited to buy arms in this country if necessary to sustain itself and an embargo will be established against the exportation of munitions of any kind to Carranza.

El Paso, Texas.-General Pascual Orozco, wanted by the Department of Justice for defaulting his bond, when held with General Huerta on charges of conspiracy to violate American neutrality, was here spent the forenoon with his family at his residence and disappeared 15 minutes before Department of Justice representatives appeared there to place him under arrest.
