RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system. To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and rebuild your strength. Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

Autumn Arbor Day.

However little I may be At least I, too, can plant a tree. And some day it will grow so high That it can whisper to the sky, And spread its leafy branches wide To make a shade on every side. Then on a sultry summer day, The people resting there will say—"Oh, good, and wise, and great was he Who thought to plant this blessed tree." Anonymous.

The time for the fall planting of trees is again nigh at hand. The custom of planting trees in the fall and in the spring can not be urged too often or too strongly. Each year we cut several times as much timber as grows. Fruit trees and shade trees grow old and die. New trees should be planted to take the place of those which grow old and useless.

The Legislature has added the study of birds to the duties of Arbor Day. In these days one hears much about national preparation for defense. Few have any adequate conception of the relentless war which insects are waging against the farmer and the fruit-grower. Birds are our best allies in fighting these destructive enemies.

In accordance with a long established custom, Friday, October 22, 1915, is hereby designated as Autumn Arbor Day and all persons connected with the school are urged to observe the day by the planting of trees, by the study of birds and by other suitable exercises.

NATHAN C. SCHAEFFER, Supt. Pub. Instruction.

Nothing adds more to the refinements of home than good music. To have good music you must have a good instrument. There are good bad and indifferent instruments, and to the unskilled eye they look much alike. The unprincipled dealer is likely to make you pay a first-class price for a fourth-class instrument. I have lived in this county since my birth, I am a taxpayer and in a position to make good any business transactions. Buy your piano, organ, or victrola from me and if it is not all right you can come back at me.

There are families in every part of this county that have purchased instruments from me. Ask them about me.

Perhaps you want to trade your organ for a Piano, or Player Piano; or your Plain Piano, for a Player. See me. Let's talk it over.

L. W. FUNK.
