Are you paying to sit in the dark?

PAYING to ruin your eyes, paying to smell burning wick and the odor of poor kerosene? Are you doing these things?

Unless your home is equipped with Rayo Lamps—you probably are. And what's more, you are paying the identical price that would buy you the flood of brilliant, eye-soothing, steady light that beams from a Rayo Lamp filled with slow-burning

ATLANTIC Rayolight OIL

Rayo Lamps are beautiful—an ornament to any room. And they burn brightly, without flicker or smell. Your dealer can show you a special design for any room, ranging in price from \$1.50 up. No matter what sort of light you've got, the addition of a few Rayo Lamps will make your home brighter and the folks happier. But Rayo Lamps are at their best when burning Atlantic Rayolight Oil. It is the one kerosene that burns without smoke or smell—that is always the same. It gives the brightest light and the greatest heat for the least money.

The use of Atlantic Rayolight Oil doesn't stop with burning and heating; thousands of housewives have written us that it's the very finest thing to brighten faded carpets, keeps the moths away from closets, shelves and drawers, cuts grease better than anything else, and that for washing windows it's without equal.

Be certain to ask for Atlantic Rayolight Oil by name—it costs no more than the unknown, unreliable kerosene.
