Governor Brumbaugh Married.

Governor Martin G. Brumbaugh and Miss Flora Belle Parks were quietly married Saturday, January 29, 1916, in the First Brethren Church of Germantown Philadelphia, by their former pastor, Rev. George D. Kuntz. The marriage license gives the age of the Governor as 54 years, and that of the bride as 40. Her mother is dead, and she has made her home in the Brumbaugh family for twenty years. In his application for a marriage license, Mr. Brumbaugh gave his occupation as teacher, and his residence Harrisburg. The Governor seems to be opposed to any fuss concerning his domestic affairs, and his intention to marry was kept secret until last Saturday. There will be a brief honeymoon trip of about one week, after which Mr. and Mrs. Brumbaugh will take up their residence in the Executive Mansion on Front Street, Harrisburg. This is Mr. Brumbaugh's second marriage, his first wife having died one year and seven months ago while he was in the midst of his campaign for the governorship.

His First Baby.

The following letter dated Fostoria, Ohio, January 24th, pictures the excitement in the home of John E. Mellott when their first baby arrived a short time ago:

"Hey there! You little wriggle chap, winking and blinking on Dad's lap! What do you think of this little biz? Cute little fellow—ain't he, Belle? Say, Doc, how much d'ye s'pose he'll weigh? Seven pounds! Beats Chester Decker's, anyway. Hully Gee, what an arm that is! Regular Dad—ain't he, Doc? See him doublin' up his fist! He's going to be a pugilist, or a preacher, or else—Gee whiz—whoops like an Indian; don't he, Belle? Seems he says plain's can be, 'I'm lonesome, that's what's troublin' me.' Lonesome, the poor little fellow is. But we'll be good to him, won't we, Belle? Say, Doc, you goin'? Here's twenty dollars—is that all right? I'm satisfied, and I'll bet she is. Pretty good doctor, ain't he, Belle?"

Dr. McAlister's Lecture.

Dr. Geo. A. McAlister, pastor of the Central Presbyterian church, of Chambersburg, was a passenger on the Steamer Arabic when it was sent to the bottom of the Atlantic last summer by a German torpedo boat, and many of the passengers drowned. Mr. McAlister was lucky enough to escape a watery grave, and under the auspices of the Parent-Teacher's Association he was brought to McConnellsburg last Friday evening to tell the story. The recital was full of thrilling experiences, and very much interested the audience present, which, on account of the prevalence of grippe in the town was small and disappointing to the promoters of the lecture.

Attention is called to the furniture advertisement of H. Seirer, in Chambersburg, found on the 8th page of this paper. The Seirers have been advertisers in the Fulton County News at intervals for many years, and during that time have sold hundreds of dollars worth of furniture to Fulton county people who have always found them square in their dealings.

Born on January, 29, 1916, to Mr. and Mrs. U. G. Humbert of Ayr township, a little son.

OUR DISTANT FRIENDS.

Interesting Extracts from Letters Recently Received from Former Fulton County People.

JAMES A. FUNK, Tiffin, O.—The label on our paper is reminding me that we are getting behind, so here's two dollars, which will put us in the "18" class. Good old FULTON COUNTY NEWS, it's worth the money, and we could not get along without it. It often brings to us glad news, and at other times, news that fills our hearts with sadness. In last week's issue was the announcement of the death of three of our old Fulton County friends. During the last few weeks, our roads have been so muddy, that it has kept our Rural Mail Carrier busy to make his deliveries. During the greater part of January, we have been oppressed by grip and mud—nearly everybody got grip. There is just one case of typhoid fever in our neighborhood—Mrs. E. C. Brundage—and her many friends hope for her speedy recovery.

D. R. WINK, Princess Anne, Md.—Here's another dollar, and please put a "17" on my label. The NEWS comes to us on Friday of each week, always just like a good letter from home. We are having fine weather—wheat, oats, and clover are bright and green, and our farmers are busy ploughing and getting ready for early spring crops. Kindest regards to you and all the rest of my Fulton county friends.

U. M. DAVIS, Braddock, Pa.—Here's another "buck" to make my subscription good another year. I am a former Fulton County, and welcome the NEWS each Friday evening. Although it is 28 years since I left "Little Fulton" I still have a warm spot in my heart for my former home and friends.

MRS. CHESLEY HAMILTON, (Beckie Hunter) 1613 W. 31st St., Minneapolis, Minn.—I am sending a money order to have the label on my paper changed. I am always glad to get the paper. Many changes in "Little Fulton" since I left '82, but I always greet the paper as an old friend from home.

320 Acres a Misfortune.

In the February American Magazine is an article on Arnold Martin, whose farming system is being investigated by the Government and who is considered the best intensive farmer in America. "The intensive methods pursued by him are of particular interest," we read. "The land is kept busy from spring until fall. At the last cultivation of potatoes corn is planted between the rows. A full crop of potatoes and a fair crop of corn is produced from the same ground. As many as seven hundred bushels of potatoes and seventy-five bushels of corn are produced from each acre planted in this way."

"After the potatoes ripen, the corn keeps the weeds down. By the time the corn needs the ground, the potatoes are ripe, and the corn is in the shock before it is time to dig the potatoes. Some parts of the potato patch are sown with millet and sorghum just before the last cultivation. This makes a good crop of feed and does not hurt the potatoes. Squashes are sometimes planted in the same way. The onion patches grow corn and melons, which are planted in rows between the onions."

"Part of the orchard is set with small fruit and part is planted with potatoes and truck. In dry spells all the water that the wind mill will pump is used for irrigation, and it is here that the intensive farming reaches its height. The water from the well flows directly to the ditches as pumped. A little manure is scattered in the ditches to prevent washing. The orchard at one time contained 900 pear, 200 cherry, 800 peach and a few apple trees. The trees are planted in straight rows, and between the trees are raspberry bushes, tomatoes, cabbage and sweet potatoes, with beets close by."

"Mr. Martin has said: 'Twenty acres is all I want to farm. That's enough land for any man; 320 acres is a misfortune, and 640 acres is a calamity.'"

New Council.

At a regular meeting of the Town Council last Monday evening, Jacob W. Mellott and Harry Ott, the newly elected members were installed to take the place of Geo. W. Reisner and Sanner Ray whose term of office had expired. W. H. Nesbit, who succeeded Leslie W. Seylar as Burgess, took his place at the head of the board, and the new Council settled down to business. As it now stands, "town fathers" is composed of Burgess, W. H. Nesbit; and councilmen, R. C. McQuade, D. E. Little, Amos Wilkinson, John A. Irwin, A. U. Nace, Harry Ott, and J. W. Mellott.

BIG COVE TANNERY.

Our people are still suffering from colds and grippe. The school at Laurel Ridge was closed Thursday and Friday on account of colds and grippe among the pupils. Mrs. Scott Reeder has been suffering from a severe attack of grippe. Mrs. Roy Mason and daughter Emma, of Thompson township, spent Thursday and Friday with friends at Big Cove Tannery. A number of people met at the home of Mrs. Margaret Lynch last Monday to celebrate her seventy third birthday. The people greatly enjoyed the day, and especially the grand dinner that was served at noon.
