TEXT-For the wrath of God is re-vealed from heaven against all ungodil-ness and unrighteousness of men, who hold the truth in unrighteousness.-Rom. 1-18

What are the good tidings of great joy as announced by the angels to

the shepherds? To say to men today that God loves them? Yes, but only announcing that part of the Gospel the preacher is acting cruelly, he must announce that there is wrath with God. Many years ago the bishop of the central diocese of New York said to a class of young men about to enter the ministry:

"The truth is, half of God's word is law. The Gospel without a promise of retribution is emasculated. It is not only a theological mistake, it is not a Gospel." The text proclaims that there is wrath with God, and there are scores of Scripture passages speaking of the wrath of God and many of them are in the New Testament.

What is the Wrath of God?

When the ancients saw the mountains that are now the witnesses of the wrath of man against man rocking and reeling, they said the gods were mad. But we cannot so think of the wrath of God. That wrath is real indignation against its object, and this indignation carries with it the idea that the object of the wrath will be the subject of God's opposition. The wrath of God is always based on justice and reason that take into account the rights and prerogatives of men as moral agents. Yet, God's own char-

acter for holiness and justice will be vindicated whatever may be the impatience of man with such a statement. "Whatsoever a man soweth, that shall he also reap"-no limitation or modi-

The Wrath of God Against All Sinful Men.

We know God hates iniquity and all evil deeds, but it is a more serious matter for us to note that the proponderance of scripture testimony is that the wrath of God is against sinful men and logically so. Sin is an abstract thing, and cannot be in itself the subject of the execution of justice, but the sinner can be. Jesus told Nicodemus that the wrath of God abode on sinning man. Paul told the Ephesian and Colossian Christians that the wrath of God would come on the children of disobedience. He told the Thessalonians that the day is coming when Jesus Christ will be revealed from heaven taking vengeance on them that know not God, and obey not the Gospel of Jesus Christ.

proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water-you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each wornin

## Clean, Sweet and Fresh Every Day Drink a glass of real hot water before breakfast to wash out poisons. Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet

how very easy it is if one will only adopt the morning inside bath. Folks who are accustomed to feel

dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether alling, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowers the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach. The action of hot water and limestone phosphate og an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and

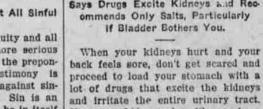

getting ready for a thorough flushing of all the inside organs. The millions of people who are both-

ered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from any store that handles drugs which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation .- Adv.

Attienn drew some sheets of paper from an indexed file and spread them before the financier. It was largely a matter of credits in the beginning extensions here, curtailments there, and all on a scale so gigantic that both gentlemen went over every item with the imaginative minds of poets. In every line there was a vista of vast empires, of toppling thrones, of altered boundaries, of such an endless and shifting panorama of governmental forces, that the minds of men less inured to the contemplation of commercial and political revolutions might have grown fagged. On the third page, the solid banking gentleman. who had not made a nervous motion since his grandfather was a boy, looked up with a start.
