MRS. J. K. JOHNSTON DEAD.

Passed Away in The Chambersburg Hospital Yesterday Afternoon. Had Undergone Surgical Operation.

Alice, wife of J. Kendall Johnston, well known merchant of McConnellsburg, died in the Chambersburg Hospital at 1:30 o'clock yesterday afternoon. Having been in failing health for some time, she was advised by her local physician to go to a hospital and undergo an operation for gall stones. On Monday morning she was taken to Chambersburg, and on Tuesday morning she was placed upon the operating table. The surgeons found that the diagnosis was correct, and a very large stone was removed and it was believed that recovery should follow speedily. She, however, did not rally from the effects of the anaesthetic satisfactorily, and Wednesday morning word came that she was failing, and at 1:30 she passed away.

Mrs. Johnston was a daughter of William and Sarah Walker Kendall, and was born in Ayr township about 52 years ago. About 31 years ago, she was married to J. K. Johnston and they have been residents of McConnellsburg most of the time since their marriage. Besides her husband she is survived by two sons and two daughters, Paul, residing in New York City, and Harry, Jean, and Beulah, at home.

Mrs. Johnston was a very capable woman, a model wife and mother, and her sudden and unexpected removal from her family and friends creates a pang of sorrow to be felt in the hearts of a very large circle of acquaintances. Funeral 10 o'clock, Saturday morning.

How About Our Share?

As is known to most readers of the NEWS, the State has set apart a fund for needy widows who are trying to bring up their children in their own home. A communication from the State Supervisor of the Mothers' Assistance Fund, states that the sum of \$585 has been apportioned to the widowed families of this county. But the state acts upon the principle that it helps only those who help themselves, and if Fulton County wants this \$585 the county must put up a like sum. In this case, the county is represented by the County Commissioners. If an organization is effected, and the Commissioners make the appropriation, the widowed families of this county would get the benefit of \$1170. This, however, must be done before the last day of May, otherwise, the State will take it for granted that Fulton does not need the money, and the State will give it to the other counties that comply with the conditions. Thirty-one counties of Pennsylvania have accepted the conditions of the law, and are receiving the aid, among which are our neighbors Franklin, Adams, Blair, and other nearby counties.

Do You Breathe?

Are you one of the many persons who, without being really ill, are never quite well? Do you grow tired very easily? Is your sleep often broken and your digestion imperfect? When you give your hand to a friend does he sometimes say, "Oh, how cold your hand is"? Do you constantly wonder why your skin and hair do not seem to be in a perfectly healthy and vigorous condition?

Of course there are many possible causes for all these things, but before you make up your mind that you are a pre-destined semi-invalid ask yourself one question: Do you breathe? You must certainly breathe enough to keep yourself going, because there you are; but what a pity it is, that when nature has given you a good set of lungs, and all the oxygen you need, you should not use a little more of it, and see whether the physical drawbacks that are so annoying do not disappear. We may all economize somewhat, but we ought not to begin with oxygen, when it is a free gift—ours for the taking.

The trouble is that we are too indolent. We read a paper about a lecture on the subject and it all sounds so simple and so easy that we determine at once to breathe deep and earn the deep breather's reward. All that day we breathe, and that night we even do some of the suggested exercises to expand our lungs; the next day or the day after we forget the exercises, habit grips her slave again, and we go back to live a life of self-imposed starvation in the midst of plenty.

If shallow breathers would only give their lungs a fair chance to show what they can do, they would find the gains not only physical, but moral and mental. Much dull-mindedness and irritability is caused by the poison that poor breathers accumulate in their systems—poisons that they could literally blow away by deep slow breathing. Do you feel depressed and blue for no particular reason? Does the house "get on your nerves"? Then go out and breathe fresh life into yourself in the open. If that is impossible at the moment, stand in an open window and do your breathing exercises for five minutes only. You will find the world a different place and yourself a different person.
