### RHEUMATISM ARRESTED

Many people suffer the tertures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system. To arrest rheumatism it is quite as im-

portant to improve your general health as to purify your blood, and the cod liver oil inscott's Emulsion is nature's great blood-maker, while its medicinal nourishment attengthens the organs to expel the impurities and upbuild your strength.

Scott's Emulsion is helping thousands every day who could not find other relief.

Refuse the alcoholic substitutes.

#### WISDOM OF CHAMP CLARK.

#### Influence Comes With Experience-Must Learn to Be a Congressman.

Speaker Champ Clark is of the opinion that Pennsylvania and New England have greater influence in legislation at Washington by reason of keeping their Congressmen long in office. This opinion was expressed by the day. speaker at a meeting of the National Press Club. He said:

"The New England states and the cities of Philadelphia and Pittsburgh long ago learned the wisdom of keeping representatives in Congress for many terms In that way their Congressmen manships and have much to do with the enactment of legislation. Five Philadelphia Congressmen who are serving in the House at one time had a combined service of 147 years. Philadelphia had five 'fathers of the House' in suc cession, and when the last one ached badly and it hurt me to died, John Dalzell, of Pittsburgh became the next father."

> Speaker Clark said a man must learn to be a Congressman, and declared that it is an unwise per formance for any district to

The speaker cited as examples to prove his assertion the careers | cent. of many members who have served long terms in the lower House

of Congress. The admonition of Speaker Clark has direct application and bearing on the present situation in the 17th Congressional District of Pennsylvania. Here the people will soon be called upon to K. Focht, a trained and experienced legislator as well as a hard worker and product of the mas ses, and his opponent who is to tally without legislative experience, but who seeks to displace Mr. Focht at this very time when of all occasions since the Civil War the country needs careful, experienced and dependable men who are for our country first and always but who are not swayed by every passing fancy and dan

gerous emotion. There is no gainsaying the potency of these facts, for where would the country be if every Congressional District in the United States sent a green and 1-m-on. Among those who attended untried man to meet the complex problems now confronting and likely to confront the nation durng the coming several years? The force of the statement is apparent and the people will know what to do .-- Adv.

## WHY not give your take the same training?

"When I was a growing lad, and came upon many words in my reading that I did not understand, my mother, instead of giving me the definition when I applied to her, uniformly sent me to the dictionary to learn it, and in this way I gradually learned many things besides the meaning of the individual word in question among other things, how to use a dictionary, and the great pleasure and advantage there might be in the use of the dictionary. Afterwards, when I went to the village achool, my chief diversion, after leswere recited, was in turning over the pages of the 'Unabridged' of those days. Now the most modern Unabridged the NEW INTERNATIONALgives me a pleasure of the same sort. Bo far as my knowledge extends, it is at present the best of the one-volume dictionaries, and quite sufficient for all ordinary uses. Even those who possess the splendid dictionaries in several volumes will yet find it a great convenience to have this, which is so compact, so full, and so trustworthy as to leave, in most cases, little to be desired." - Albert S. Cook, Ph.D., LL.D., Professor of the English Language and Literature, Yale Univ. April 28, 1811.

# Sewing can be either – Work or Play

It all depends on the light. Sewing by the glimmer of the ordinary flickering, smoking, smelly lamp is work, difficult work. Hard on the eyes, ofttimes the real cause of throbbing, nervous headaches.

But it's a real pleasure to pick out the finest stitches by the radiant, soft, white light of a Rayo

# ATLANTIC

A Rayo Lamp makes a heap of difference—the difference between work and play. And it's beautiful -actually improves the appearance of a room. Your dealer can show you special designs, specially made for your very parlor, sitting room or kitchen, and inexpensive, too-from \$1.50 up. Cleans easily and lasts for all time.

Gives the best light when filled with Atlantic Rayolight Oil—the kerosene that burns without smoke or smell, that does not char wicks, but that does yield a marvelous white, soft light and unusually intense and economical heat.

And thousands and thousands of knowing housewives say money can't buy anything as good as Atlantic Rayolight Oil for whitening clothes (onehalf cup to the boiler), and for cleaning stoves, hair brushes and combs, for dusting, brightening faded carpets, polishing furniture, etc.

Buy it by name-Atlantic Rayolight Oil-from any dealer who displays this sign:

Costs no more than the unknown, unreliable kind. ATLANTIC REFINING COMPANY
