REDISTRIBUTION OF AMERICAN TROOPS

Carranza Must Show That He Can Handle Situation.

PREPARING FOR EMERGENCY

Funston Plans Redistribution—Forces To Be So Placed As To Protect Border Towns.

Washington.—Behind the announcement that President Wilson had approved a plan for redistribution of the American troops in Mexico, there was a plain intimation that the Washington Government had determined to maintain a military status quo beyond the border until the Mexican de facto government has demonstrated its ability to capture or crush Villa and his adherents and prevent repetitions of the Columbus raid.

In the interim, it is understood, the American troops will be so placed as to safeguard the border towns by virtually policing the area south of the line where General Carranza heretofore has been unable to check bandit operations.

Recommended By Funston.

Secretary Baker announced the approval of the redistribution plan after consulting with the President over a joint report submitted by Major-General Funston and Major-General Scott, Chief of Staff, in conference on the border. The plan was proposed by General Funston and concurred in by General Scott. The Secretary announced the Administration's decision, as follows:

"General Funston has recommended a redistribution of the forces in Mexico for the purpose of recuperation and pending opportunities for further cooperation with the forces of the de facto Government of Mexico. The recommendation has been approved and its execution left to his discretion."

Later the Secretary dictated the following:

"The statement I have made indicates nothing whatever on the subject of when the American troops will be withdrawn from Mexico. The whole subject of withdrawal of the forces is under arrangement and negotiation by the State Department."
