Mutual Profit, the Foundation of Permanent Success
The Geiger-Jones Company believes that permanent success in the investment business cannot be attained on selfish considerations of the investor for profit—but can ensue only as the natural result of valuable, constructive service.
Our present success during the past 12 years has been founded on this belief. We have grown and matured more rapidly than most other companies—but in direct ratio to the prosperity of the great business enterprise we have financed, and that of the 10,000 investors who have sold securities.
These investors have purchased nearly \$10,000,000 par value, of preferred stock of our recommendation without losing a dollar of principal or income.
We have just published a very interesting 32-page book that is a valuable addition to the reference library of all who are interested in the industrial growth of the Middle West.
If you have \$100 or more to invest, we will gladly send you a copy of this publication at least expense or obligation if you will send us a post card bearing your name and address.
