Which Do You Prefer?

It is important for reasons of health and practical economy for every housekeeper to ask herself this question:

"Do I prefer a pure baking powder like Royal, made of cream of tartar derived from grapes, or am I willing to use a baking powder made of alum or phosphate, both derived from mineral sources?"

The names of the ingredients printed on the label show whether the kind you are now using or any brand, new or old, that may be offered is a genuine cream of tartar powder, or merely a phosphate or alum compound.

Royal Baking Powder contains no alum nor phosphate.

Sweet Milk for Calves.

While it is desirable to feed calves skimmilk it is very important that the milk be in a clean, sweet condition. Digestive troubles often result, according to the Pennsylvania State College Agriculture Experiment Station, from feeding sour or partly sour milk. A uniformly sweet product from day to day is essential. Instances are on record in which buttermilk has been fed successfully to calves. The practice of feeding buttermilk or sour milk at one feed and sweet milk at the next, however, is not generally advised.

If you are going to build a house or a barn, or do any repairing we are in shape to save you some money, as we bought our hardware early, and always try and give our customers the benefit.

Look over this list of prices, compare them with catalogue houses and we think that you will find that we can save you money. It is impossible to get space to price you every thing, but watch this space for bargains. Thanking you for the nicest year we have ever had. The prices we quote here are not baits but our regular prices. Trusting that you will look over this, and if you find us right on prices, give us some of your business; if not, buy where you can do the best.
