The booklet may be read in ten minutes. There are so many failures in the starting of alfalfa that it will pay well to learn the right way from those who know. MAKE GOOD USE OF PALACES

Royal Residences in Europe Have Been Converted Into Hospitals for Wounded Soldiers.

The necessities of war have transformed the uses of the royal palaces of Europe. They are nearly all turned into hospitals. Such are the Winter palace on the Neva, the Kremlin in Moscow, Tsarskoe Selo and Livadia, and in Italy not only the Quirinal and Queen Margherita's palace in the Via Veneta, but the queen is directing a military hospital in a wing of the Vatican.

Not only have Verona and Monza been put at the disposal of the war office, but the pope has done the same with Castel Gandolfo.

The Elysee palace is given over to war work, and Buckingham palace is not a hospital simply because there is no need for it, so the king and queen use it largely to receive soldiers and to entertain the wounded.

The palaces at Berlin and elsewhere in Germany are all turned into military hospitals, and the Germans have devoted King Albert's palace at Brussels to the same use. The English turned the kaiser's stately pleasure palace, the Achilleion, on the Ionian island of Corfu, in Greece, to the same purpose for the benefit of the Serbian army.

The wife of Ferdinand has made part of his palace at Sofia into a military hospital, but the Austrian invaders of Montenegro used the palace at Cetinje as barracks.

MADE HIT WITH MANSFIELD

Actor Quick to See Good Piece of "Business" in Error of One of His Supporters.

Now that Arnold Daly is reviving "Beau Brummell," various anecdotes of the late Richard Mansfield, who created the title role, are being revived. W. J. Ferguson, who acted the valet in the original production and who is now one of the pirates in "Treasure Island," has remembered one.

In the character of the valet it was Ferguson's place to hand the Beau his gloves, his stick, and finally his hat. Upon the opening night he proffered the hat to Mansfield, turned the wrong way around. Had the Beau put on the hat in the way it was handed to him and strolled down Piccadilly or Bond street, the faux pas might have created a scandal. When Ferguson discovered his error he turned pale under his make-up.

Mansfield was quick to grasp the situation, and with one of his most courtly bows gave the hat back to the valet, so that he might turn it around, which Ferguson did with pantomimic apology.

As Mansfield put on the hat and passed out of the door he whispered to Ferguson: "That's a good piece of business; keep it in."

LISTENING OVER TELEPHONE.

Listening in on the telephone is not a new thing, nor is it peculiar to New York. A newspaper correspondent in Dover, England, was summoned under the defense of the realm act the other day for attempting to elicit information and for communicating information concerning the movement and disposition of troops which might be of use to England's enemies. The defendant, it was alleged, gave important information to a press agency over the telephone. In accordance with instructions, the telephone supervisor listened to the conversation and took it down in writing. For the defense, however, it was contended that the information was commonplace. The magistrates upheld this view and dismissed the summons.

RAILROAD WAGES

Shall they be determined by Industrial Warfare or Federal Inquiry?

To the American Public:

Do you believe in arbitration or industrial warfare?

The train employes on all the railroads are voting whether they will give their leaders authority to tie up the commerce of the country to enforce their demands for a 100 million dollar wage increase.

The railroads are in the public service—your service. This army of employes is in the public service—your service.

You pay for rail transportation 3 billion dollars a year, and 44 cents out of every dollar from you goes to the employes.

On all the Eastern Railroads in 1915, seventy-five per cent of the train employes earned these wages (lowest, highest, and average of all) as shown by the payrolls—

	Passenger		Freight		Yard	
	Range	Average	Range	Average	Range	Average
Engineers	\$1641 3224	\$1931	\$1585 2992	\$1783	\$1303 2178	\$1543
Conductors	1553 3004	1831	1552 2901	1642	1145 1991	1315
Firemen	951 1704	1128	933 1762	1109	752 1633	935
Brakemen	957 1707	1141	862 1521	973	834 1635	1085

The average yearly wage payments to all Eastern train employes (including those who worked only part of the year) as shown by the 1915 payrolls were—

	Passenger	Freight	Yard
Engineers	\$1796	\$1546	\$1384
Conductors	1724	1404	1238
Firemen	1033	903	844
Brakemen	1018	858	990

A 100 million dollar wage increase for men in freight and yard service (less than one-fifth of all employes) is equal to a 5 per cent advance in all freight rates.

The managers of the railroads, as trustees for the public, have no right to place this burden on the cost of transportation to you without a clear mandate from a public tribunal speaking for you.

The railroads have proposed the settlement of this controversy either under the existing national arbitration law, or by reference to the Interstate Commerce Commission. This offer has been refused by the employes' representatives.

Shall a nation-wide strike or an investigation under the Government determine this issue?
