RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system. To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's greatest blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and rebuild your strength. Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

Would Drill Soldiers.

Dorsey Shore, of Ayr township has had training in the N. G. P., and also spent two years in the regular army. He is familiar with military tactics of all kinds, and would make a good drill master. In an interview by a News reporter, Mr. Shore said that he would be pleased to hear from all who would like to take a course of this kind once a week at some convenient place in Big Cove. It will cost nothing for equipment. Several have spoken to him about it, and as soon as several more apply he will start drilling. As soon as an organization is effected, rifles and ammunition may be had free of cost, as the government is offering guns and ammunition to men who will meet as Mr. Shore suggests.

As we said when we first suggested a drill squad, the young men do not have to go to the army to be benefited; the sharp attention necessary, his obedience to command, the training of the will powers and erect and military carriage of the body are matters greatly to be desired, and they will be of value to any young man in any calling. Regular drill day somewhere in the Cove would be a great occasion for meeting friends.

Will Prosecute.
The Commissioner of Forestry has referred to the Attorney General thirty-one cases of careless or malicious setting of forest fires, with a recommendation that prosecutions be brought in every case where the evidence warrants it.
It will be the policy of the Department of Forestry hereafter to ask for criminal prosecution in every forest fire case where reasonable evidence can be secured, regardless of whether the fire was started maliciously or whether it was the result of mere carelessness. The act of 1915 puts carelessness and incendiarism on the same plane, and the forest officers mean to do all they can to see that it is enforced.
