KIDNEY Is a deceptive disease—thousands have it and don't know it. It can make no mistake by using Dr. Kilmer's Swamp-Root, the great kidney remedy.

MAKING RAPID STRIDES Canada Improving in Every Way—Agriculturally, Commercially and Financially.

and along with this, the natural tendency of the allies to trade among themselves, and perhaps special trading privileges.

The reports coming to hand every day from all branches of industry in Canada speak highly of the constructive ability of that country.

Mr. Robins, in an address before the Bondmen's Club of Chicago, expressed the opinion of a far-thinking mind and the review of an experience of the last of his numerous trips through the Canadian West.

"From the records in the office I knew it was getting better. We clear here every retail merchant in the country every three months, and we are therefore in the closest touch and have intimate knowledge of the way trade is going and how payments are being made.

An important part of Mr. Robins' address, which invites earnest attention, is that in which he refers to the land situation, and when his remarks are quoted they carry with them the impression gained by one who has given the question the careful thought of a man experienced in economic questions.

"This is about the condition of trade, and I am glad to say there is no exaggeration in what I have said. The business of the prairie provinces is in splendid condition."

It has been the experience of employers that reducing the hours of work to a reasonable standard results in increased efficiency of workers.

Alleged hard times in Manitoba have not dampened the ardor of motorists or prospective ones. The automobile license department reported a few days since that there are 1,600 more private owners of cars in the province this year than last.

Each year that has gone by has made more evident the soundness of the principles which the trade unionists have followed. As the dynamic forces in the lives of the people stand out sharply in some test that cuts through to bed-rock fundamentals, the strength and the nature of economic power is revealed.

TO LABOR

Shall you complain who feed the world? Who clothe the world? Who house the world? Shall you complain who are the world, Of what the world may do? As from this hour You use your power, The world must follow you.

PURPOSE OF THE LABOR MOVEMENT

With Some of the More Important Things That Have Been Accomplished. By SAMUEL GOMPERS. As the years have gone past, a tremendous change has been brought about in conditions of work and in the workers themselves.

One endeavoring to obtain greater opportunities and facilities for personal development and activity. These problems are problems of economic relations between themselves and those who produce and those who happen to enjoy strategic advantages in the determining distribution of the returns from production.

Politics a Secondary Force. But politics is concerned with providing opportunities, maintaining the right to activities, establishing ways and means by which things can be done—politics does not enter directly and intimately into industrial relations.

Great Humanitarian Laws. Much beneficent, remedial legislation has already been secured from congress, conserving the lives and health of workers and protecting their rights—doing for them that which cannot be done through economic organization alone.

History of Labor Day. The celebration of Labor Day was started by the Knights of Labor by a street parade in New York city in 1882. This was followed by another in 1884, and by a general movement of labor unions to have the day made a legal holiday.

SLEEPING IN QUEER PLACES Englishman Chooses Narrow Plank 120 Feet Above the Ground for a Siesta.

A short time ago a man was discovered in the lunch hour fast asleep on a plank. His arms were hanging down, one on each side of the board, which was about a foot wide.

The evening performance arrived, and the man had to pretend to go to sleep with his head on the body of a couchant lion, finishing up the performance by springing up and putting his head in another lion's mouth.

"Old Father Thames" as Physician. The charitable public of London is taking in hand, with commendable energy, the provision of means for helping maimed and wounded soldiers toward convalescence.

This Really Happened. Not one woman in a dozen will believe this story, although it is true. Every other week Bill Smith can prove it by rolling up his left pants' leg.

Once-Overs. The wife who is plainly dressed and does not have the luxuries you enjoy is not necessarily unhappy, and she may be getting much more out of life than you are getting.

The Best Passage. A somewhat conceited clergyman, who was more celebrated for the length of his sermons than for their eloquence, once asked the late Father Healy, the famous Irish wit, what he thought of the one just preached.

Keeping Friends. "This poet speaks about keeping friends with oneself. That sounds nonsensical for me."

Hence the Delay. The Kiddle—Come quick! There's a man been fightin' my father more'n half an hour!

Business Man Tells How He Placated Angry Customer Who Had a Real Grievance.

In the American Magazine a writer says: "I soon learned that the average woman, with the burden of housekeeping on her shoulders, is the most irritable and unresponsive creature alive."

Dr. Peary's "DEAD SHOT" is an effective medicine for Worms or Tapeworm in adults or children. One dose is sufficient and no supplemental purge necessary.

Ed Bowes, the theatrical manager, used to live in San Francisco, and out there he knew a certain contractor who did a good deal of work for the city.

One morning—so Bowes says—a stranger who professed to understand street repairing in all its branches applied to the contractor for a job as foreman.

The postman handed him the letter. One glance at the envelope sent him nearly into hysterics.

"Heaven's!" he cried, "the first challenge I ever got."

"Duel" was in big letters on the outside of the envelope.

So he hurried to the station house, explained that he knew of no enemy who should demand his blood and asked for protection.

Three blue coated arms of the law presented themselves.

The detective force hurried out. By that time the desk sergeant had recovered.

He said it meant, "Dine one cent."

HOW MRS. BEAN MET THE CRISIS

Carried Safely Through Change of Life by Lydia E. Pinkham's Vegetable Compound.

Nashville, Tenn.—"When I was going through the Change of Life I had a tumor as large as a child's head. The doctor said it was three years coming and gave me medicine for it until I was called away from the city for some time. Of course I could not go to him then, so my sister-in-law told me that she thought Lydia E. Pinkham's Vegetable Compound would cure it. It helped both the Change of Life and the tumor and when I got home I did not need the doctor. I took the Pinkham remedies until the tumor was gone, the doctor said, and I have not felt it since. I tell every one how I was cured. If this letter will help others you are welcome to use it."

—Mrs. E. H. BEAN, 525 Joseph Avenue, Nashville, Tenn.

Strategy. "What was all the argument between you and Judge Eliver yesterday?"

"Oh, we were discussing the merits of our respective cars."

"That's a foolish thing to do. You can never convince a man that your car is better than his."

"I know that, but I got him so mad that he committed himself to the statement that my car can't make over two miles an hour. The next time I brought up before him for speeding I'll remind him of that."

Honor Roll. "Has your college produced any distinguished men?"

"Has it? Say, don't you ever read the papers? Didn't you hear of Lefty Jones, the famous southern, or Kangaroo Klein, the best shortstop in either league, or Bill Barroughs, the tenth best? And I could name a dozen more who have made good in the game. Have we ever produced any distinguished men? Why, Spalding's Baseball Guide is full of them."

There Are Others. "It is very strange that no one has ever been able to find Captain Kidd's treasure."

"Oh, well, Captain Kidd isn't the only man who has put his money into real estate and couldn't get it out."
