Just as we expected! Two weeks ago we published "Observer's" remark, designating three fields of corn in Big Cove as "The best three." A good-natured Ayr township farmer takes exceptions by stating that "Observer" should observe the fields lying back from the main road and he would then not know which are the "best." Ayr township has a top-notch crop of corn.

The sale of Texas horses, mules, jacks and jennies, held by G. A. Mellott, at the City Hotel last Saturday, was up to expectations. Mr. Mellott went west from this county many years ago. He finally settled in north-western Texas where he is engaged in stock raising. The animals sold last Saturday were raised by him on his Texas rancho. There were twenty-three head in the bunch.

Game protector Miller said last week that more outsiders go to Fulton county to hunt than to any other county in the State. Hope he has called attention of the Game Commission to this fact in order that we may get a fair proportion of game for restocking purposes. The burden is too great to be borne by the strongest sportsmen's organization that could possibly be created in the County.

**NOT ENOUGH CHILDREN**  
ever receive the proper balance of food to sufficiently nourish both body and brain during the growing period when nature's demands are greater than in mature life. This is shown in so many pale faces, lean bodies, frequent colds, and lack of ambition.

For all such children we say with unmistakable earnestness: They need Scott's Emulsion, and need it now. It possesses in concentrated form the very food elements to enrich their blood. It changes weakness to strength; it makes them sturdy and strong. No alcohol.

Mr. and Mrs. Chas. Barton, of Sixmile Run accompanied the happy couple to Baltimore on Sunday.

**A Common Sense Policy.**

Kansas is the first state to bar the drinker from holding public office. The civil service commission, at the suggestion of Governor Capper, incorporated this ruling in the new law. "Most of the big corporations and other large employers have adopted the policy of not employing the drinking people," said the Governor in his letter to the Commission. "In my judgment a state can well afford to follow in such footsteps."

One need not be much of a seer to predict that civil government all over the country, national as well as state and municipal, will soon "standardize" its business system like manner. Even the anti-prohibitionist can recognize the value of total abstinence as a business asset.

**How Are You Using Your Voice.**

Written by V. M.  
Of all the beautiful gifts God has blest us with, our voice is one of the greatest.

The question is, what use are we making of it? Are we using it to praise the giver or to cause him sorrow? Oh! I fear the latter is just the use too many of us are putting our voice to. When we should be singing, praying or making peace somewhere, we are swearing or quarreling or talking about our neighbor. Now that is one of the very worst ways. When you are with your friends and conversation lags don't take God's voice he lets you use and waste it in discussing your man. You may be accusing him right, and may be all wrong. If you are blaming him, or her, for something they are not guilty of, what an awful sin! Don't you see you will answer for as much sin as you are blaming them for? Do not be too ready to accuse. Titus 1:15 says "Unto the pure all things are pure, but unto them that are defiled and unbelieving is nothing pure but even their mind and conscience is defiled."

Don't you see if you let Satan put these dark things of your neighbor into you mind, and you cause your voice to utter them, in time you are going to fully believe them—even though they be innocent: and then you will hate the person. Read first John 4:30 "If a man say I love God and

bateth his brother, he is a liar, for he that loveth not his brother whom he hath seen how can he love God whom he hath not seen. So, when these black things appear, instead of saying I believe this or that of so and so, use your voice in saying, "Get thee behind me Satan."

**Make Your Own Soil Tests.**

The agricultural editor of the NEWS enjoys nothing better than to have friends of this paper come in and talk over farm questions. One of the subjects that interests every farmer is lime and its effects. This question has been discussed in this office frequently, and each time it seems to grow more interesting. Nearly every farmer has now learned how to determine when his soil is acid by closely observing the condition of the clover and other legume crops. But there are times when actual chemical tests are desirable. Every man or boy in the County may make this test at a cost of less than a cent. A small book of litmus paper may be had at our drug stores for ten cents. By wetting a small piece of this paper with mud made from the soil to be tested, the paper will turn color if it needs lime or in other words, if the soil is acid. Drop
