Japan is preparing to lend \$30,000,-000 to Chinn. This is the result of the failure of China to float a loan in New York. Like ourselves, the Japcountries. This loan will strengthen Japan's influence in China, but we have no right to object. We would not help China. Those who say Japan will follow money are probably right. We can learn something from Japan.

Just as China is within Japan's sphere of influence so is all Latin America within our sphere of inflaence. We have no designs on our neighbors other than our desire to this hemisphere. year. Old feuds are forgotten, old enemies are reconciled, and everybody feels that they ought to settle up with God and man, whether it involves a hearty confession, or the paying of a debt or the restoration of what has been wrongfully taken. The atmos phere is favorable to the confession of Christ, and those who have long felt it to be their duty are now emboldened to do it. If all this makes better men and women, more considerate parents and more obedient children, happier homes and more peaceful neighborhoods, who shall say that it is not an unmixed blessing? Anything which makes people more reverent and pray-

erful, more honest and truthful, is good and good only, and this is precisely what a revival of religion does. Objection 1. It awakens excitement.

CHINA WANTS OUR GOODS American Manufacturers Are Meeting Favorable Reception at Hands of Orientals.

The Chinese are beginning distinctly to favor American goods and regard America as a model from a manufacturing as well as governmental viewpoint, according to Maurice Benjamin, general manager of the Oliver Import and Export company, Shanghal, China. In spite of the famine in freight, he says, American munufacturers are not only gradually finding their way into Chins, but are being

ought by the Orientals. "The tremendous disturbances in Europe have not failed to leave traces n Chinn," he said. "In this the high freight rates have played no small part. China wonders why so large a nution as America should have no mercantile marine. In some lines where only \$10 per ton was paid be-

women is certainly a worthy object. Business men try constantly to interest people in their stock of goods, they work night and day to get a crowd into their store; politicians flood the country with literature, parade the street with bands, and no one questions the

wisdom of it because we know it is necessary to arouse the public to the importance of foting aright, but when God's people put forth special efforts to arrest the attention of the thoughtless, the cry of excitement is sure to be raised. Objection 2, It does not last long.

That may be true in some cases, but the merchant does not stop booming his business because he knows the boom will not last long, nor the polltician though he knows the campaign

will be short. It is not to be expected that special meetings will continue many weeks, but if the work is genuine the results will abide for years. The Reformation lasted only a few years hat Europe and the whole world feels its effects to this hour. Pentecost lasted but a day, but it changed the whole

face of the world religiously. Why Are Revivals Necessary?

Why does a dying plant need water and sunshine? Because it hasn't strength enough to hold its head up and must have outside help. So there are many Christians who are not selfsustaining. They do not pray enough nor feed on the word enough to keep them in good spiritual condition. The consequence is they stendily lose ground until they are in danger of losing all hold on Christ, and special measures must be resorted to to revive them. Frequent doses of God's word must be poured into them until they begin to respond to it and love it, and become self-sustaining Christians, able to help others into the way of life. In all ages God has found it neces sary to say to his church, "Awake, awake, put on thy strength, O-Zlon,

put on thy beautiful garments, O Jerusnlem." When May a Revival Be Expected?

When God's people desire a revival and are willing to comply with the conditions. God is always willing but his people are not. "If my people which are called by my name, shall humble themselves and pray, and seek my face. and turn from their wicked ways; then will I hear from heaven, and will for-

give their sin and will heat their land." (II Chron, 7:14), "Bring ye all the tithes into the storehouse, that there may be meat in mine house, and prove me now herewith, suith the Lord of hosts, if I will not open you the windows of heaven.
