**A REAL MAN**

It is pretty hard to assert your independence and defy the world, when you have an empty stomach and an empty pocket book. If your bluff is called, then what?

The prudent man who has saved a little, who has a reserve at the bank to tide him over a month or two, isn't so afraid of sickness nor such a coward about being out of a job. A bank account is a stimulant to real manhood. The larger the account the firmer the footing. It breeds self-confidence, is a proof of efficiency, and an ever-present resource in time of need. It's not what a man earns in a year, that gives him a surplus at the bank, it's what he saves.

**There is a Real Difference**

Cream of tartar, derived from grapes, is used in Royal Baking Powder because it is the best and most healthful ingredient known for the purpose.

Phosphate and alum, which are derived from mineral sources, are used in some baking powders, instead of cream of tartar, because they are cheaper.

If you have been induced to use baking powders made from alum or phosphate, use Royal Baking Powder instead. You will be pleased with the results and the difference in the quality of the food.
