Who Wins the Battle?

All other things being equal, it's the man behind the gun that wins the fight. And it's true in other affairs besides battles. In banking or in business, success is due to the men behind the counter. We take pride in the statement that every employee of our bank is instructed to be courteous to the public, and to render every reasonable service possible. We take pride in the fact that the officers, directors and shareholders, the men behind this bank are among the leading men of this community, men who can be depended upon, men who make this bank what it is today, a strong, reliable, secure financial institution.
