THE FARMER.

The farmer is the man who feeds us all. If the farmer should quit work the whole world would have to go out of business. He is the important factor in the world to-day-always has been-always will be.

This bank has many farmer patrons. Farmers are conducting their business along modern lines these days, the same as other business men. They are the solid, reliable men of the community and every bank has reason to feel proud of its farmer friends. The accommodations of our bank are always at the disposal of the farmers. You are invited to make our bank your headquarters when in town. Our interests are mutual, and we will be glad to serve.

Which Do You Prefer?

It is important for reasons of health and practical economy for every housekeeper to ask herself this question:

"Do I prefer a pure baking powder like Royal, made of cream of tartar derived from grapes, or am I willing to use a baking powder made of alum or phosphate, both derived from mineral sources?"

The names of the ingredients printed on the label show whether the kind you are now using or any brand, new or old, that may be offered is a genuine cream of tartar powder, or merely a phosphate or alum compound.

Royal Baking Powder contains no alum nor phosphate.
