Miss Nellie Kelso, formerly of Knobsville, has spent the last five years in the western states. She has been as far as the Pacific Coast and she has spent more or less time in many of the far western states, but she is now back in Kansas, which she believes is the best state of them all. Of course, she knows that the bottom has dropped out of our railroad, for she gets the NEWS.

Our esteemed friend Mike Detwiller, who for ten years has held down the job of Rural mail carrier on Route 1 from Three Springs to the entire satisfaction of Uncle Sam believes in "improving each shining hour." As the mail service only requires seven hours of his time each day, and that in the afternoon, he keeps a little herd of 17 good dairy cows, gets up before the chickens each morning, milks his cows, bottles the milk delivers it to his customers in Saltillo and Three Springs, and gets home in time to split the kindling, get in coal and eat a good dinner preparatory to his afternoon's work.

Wives. A wife is an ex-girl who has realized her greatest ambition—the capture of a man who has set tied down to show him that woman, woman's clubs, pink teas, and gowns are absolute necessities, while three square meals a day are anything else than that.

When a wife takes a man to raise he soon learns that she is his master. She doesn't tell him so; he just mysteriously absorbs that information and the older he grows the more established the fact roots itself in his mind. Al most any man is brave enough to go to war; he will fight a man twice his size, but a mere look from his wife will wilt him like a lettuce leaf on a hot stove. No one knows why.

Wives are peculiar animals in a way that those belonging to other men always look better to a man than his own, and that a man feels it is a terrible task to support one, he would have a dozen if it were not for our laws.

It is said that a man once took his new born son to an island and reared him to manhood without the child ever seeing a woman. When twenty-five years old, the father brought the son back to civilization. Passing a woman the son asked: "Father, what is that thing?" "I don't know," answered the father. "Well, I want one, anyway," declared the young man.

SALVIA SUMMARIZINGS.

Good prospects now for sled-ding and sleighing for Christmas and New Years.

We gladly note that no fatalities have occurred since the last writing among the hundreds of cases of measles in Licking Creek Valley.

We regret to note that Mrs. W. E. Bair has suffered greatly from neuralgia of the head and throat and chest in the past few days. At this writing she is but little, if any, better. She has lost much sleep at night.

Rightley Bros & Co., our successful lumbermen with Wm. Deavor sawyer with force of laborers are about to commence to cut and saw the timber of East Sideling Hill wind gap, N. W. of Salvia, along the Lincoln Highway, on both sides of the famous Forbes road, which was made in 1755 to get the army and supplies of Col. Forbes on to reinforce Genl Washington at Ft. Braddock. Thousands of R. R. ties mine props, and saw legs will be cut. They have a force of men cutting the stately, beautiful yellow pines, on west side of mountain at the rate of 3 to 4 hundred trees per work-day. By the time

they get over the mountain there will be nothing but scrub-oaks left, in way of timber, and one of these days, some ingenious fellow will discover a way to extract the tannic acid from the foliage, brush, and roots of the scrub oaks, and they will all be dug up. Then great sheep and goat ranches will be made on our mountains and the wool will clothe, and the nutritious, and healthful meat, feed the nation.

So far as we can learn, there will be no Christmas entertainments, or public meetings, other than regular church services in this section on account of further spreading of measles.

Wishing a happy and enjoyable Christmas and New Year to all the "Fulton Co. News office force from Editor down to "devil" and to all the subscribers and readers of the inestimable news organ. I am faithfully yours,

J. A. S.

Women, more than men, have excitable nerves, because tiring work and physical strain tax their more delicate nervous systems and bring premature age and chronic weakness—unless treated intelligently.

Drug-laden pills and alcoholic concoctions cannot build up a woman's strength, but the concentrated medicinal food properties in

SCOTT'S EMULSION

build strength from its very source and are helping thousands of women to gain control of their nerve power—overcome tiredness, nervousness, impatience and irritability. SCOTT'S is a liquid-food—free from alcohol.
