## MOTHER! LOOK AT CHILD'S TONGUE

If cross, feverish, constipated, give "California Syrup of Figs."

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

"Well, any profit on a beauty show ought to be a handsome one."

## HAD A CAPITAL OF \$400

In Six Years He Was Well Off

An Alberta farmer, who had borrowed from a loan company, in remitting to them the last payment on his mortgage, decided to give them the history of his experience, on a Manitoba farm. It was that of many another farmer, and for the benefit of those who contemplate a change the liberty is taken of reproducing it.

"I will give you here a brief summary of my experience since coming here six years ago. I was a new hand at farming, my trade being meat-cutting and butchering. My capital was \$400, which was a first payment on my quarter section (160 acres). Most of my stock, harness, implements, etc., were bought at sales, all "on time," necessarily. The buildings on the place were about as good as nothing and had either to be rebuilt or replaced entirely. There were 20 acres broken, and very badly farmed, bringing poor returns the first year." After mentioning a number of mishances, he says: "In spite of all these drawbacks, I have done well. I consider my farm worth \$3,500 to \$4,000. I have four head of horses, 12 of cattle, over 400 purebred Buff Orpington chickens and 125 turkeys, besides implements, harness, etc., to run my place. I have a well 170 feet deep with an inexhaustible supply of water. The well with pump cost me \$400. I have built a \$125 chicken house and put up nearly \$50 worth of poultry fencing; have built root cellars to hold over 3,000 bushels of potatoes and other vegetables. As to income, I raise about ten acres of garden and roots annually which net from \$600 to \$1,000 total. I generally sell from 20 to 40 tons timothy hay which brings from \$6 to \$14 per ton. My grain is most all used on the farm except a few hundred bushels sold to the neighbors for seed. My four milk cows bring in from \$50 to \$80 each (counting calf). Last year 80 hens laid 600 dozen eggs which averaged more than 25 cents a dozen (I always work for winter egg production). The surplus hens were sold in spring, dressed at \$1 each. My turkeys average \$2.50 each in fall. By having vegetables to feed my young cattle, the two-year-old steers bring \$75 each in spring."—Advertisement.
