Lloyd Mellott made a trip to Chambersburg last Sunday.

Miss Irene Truax, a trained nurse, has purchased a building lot from Jacob W. Mellott, and expects to build a bungalow on it during the coming summer.

Miss Dorothy Jacobs, a teacher in the public schools of the city of York, Pa., is spending this week in the home of her parents, Rev. and Mrs. C. F. Jacobs, West Lincoln Way.

Willis Daniels, and Hillary and Charles Ehalt, students at St. Joseph's College, Emmittsburg, Md., are spending their Easter vacation in their respective homes in this place.

HIDES.—Frank B. Sipes pays the highest market price for beef hides at their butcher shop in McConnellsburg, also highest price paid for calf skins, sheepskins and tallow.

Rev. J. Leidy Yearick went to Mechanicsburg Tuesday to attend the spring meeting of the Carlisle presbytery, representing the McConnellsburg, and the Greenhill, Presbyterian church.

Mr. G. C. Fields who has been conducting a barber shop just west of the Fulton House during the past two years, brought his family from Clear Ridge yesterday and they will occupy the property on East Market Street now being vacated by George C. Mellott.

John Wright, who lives at the Rack Run schoolhouse, brought the editor a box of fine old-fashioned Meadowground teaberries Tuesday morning as an Easter gift. John says they are very abundant this spring. The fine plump, solid berries made the editor think of his happy boyhood days in that quaint little valley.

David, little son of Mr. and Mrs. Ira Kerlin near Knobsville, was severely burned on Tuesday of last week. The little fellow had built a bonfire, which was assuming threatening proportions and in attempting to extinguish it his clothing became ignited. Had his mother not been attracted at once by his screams and succeeded in tearing the clothes from his body, he would have been burned to death.

Mr. George C. Mellott, who has resided in McConnellsburg during the past three years, has received an appointment to the United States Railway Mail Service. He will have sale of his personal property at his residence next to ex-Sheriff Alexander's on East Market Street next Saturday afternoon at 1 o'clock, and his family will go to Pittsburgh the following week, where they will reside indefinitely. See their sale advertisement in the Sale Register in another column.

Mr. and Mrs. L. H. Wible, of Harrisburg, spent a few days in this county during the past week. Mr. Wible visited his aged father B. F. Wible at Knobsville, and Mrs. Wible her mother, Mrs. J. A. Stewart at Greenhill. Mr. and Mrs. Wible who have lived in the city of Harrisburg for several years, are, this spring, moving out to Camp Hill. They will still be within the limits of a five-cent fare from the city, and at the same time have all the advantages of suburban life.

Mr. W. C. Berkstresser manager of Meiser's Music House, Thompsettown, Pa., son of W. L. Berkstresser, drove over from Thompsettown via Dry Run, Fannettsburg and Mercersburg and went out to Taylor township, where he spent Monday night with his home folks after an absence of two years. He was accompanied as far as Mercersburg by Mr. Meiser, who visited his son at the Academy while Mr. Berkstresser was making his trip over to Fulton County. He and Mr. Meiser returned to Thompsettown Tuesday.

Sale Register.

Pays for Itself in Better Crops

Even if you have only a small farm the New Idea Spreader will make you enough money to pay for itself and give you a profit besides.

Scientists and experiment stations have determined that the value of manure is from \$8 to \$10 per animal. Ordinarily half of this is lost through absorption in the barnyard and through improper spreading with a fork. Save this loss by using a New Idea Spreader and you'll save \$300 to \$400 a year even on a 80 acre farm—more on a larger place.

That's why you should increase your profits by spreading with the

NEW IDEA
Registered U.S. Pat. Off.

Spreads 7 Feet—Across 3 Corn Rows

The wide spreading New Idea saves you half a mile of travel per acre. It spreads beyond the wagon tracks and you don't have to drive over the spread manure. It spreads uniformly and the spread can be varied 3, 6, 9, 12, 15, 18 loads per acre merely by pushing a lever.

The double cylinders and distributor take two whacks at the manure. Every particle goes onto the ground—none left to freeze or rot. There is no danger of clogging so the New Idea can be loaded as high as the ordinary wagon box. Strong chain conveyor brings the manure unafraid to cylinders. Cannot slip from under load and will not race going up hill.

Chain drive—no gears to freeze, break or strip. Power to conveyor and spreader mechanism is derived direct from rear axle—no side strain or lost power.

The New Idea is made by spreader specialists with more than 16 years experience, who have the confidence to back their machine with a 1 year guarantee on workmanship and material. We unhesitatingly recommend it.

See This Spreader

Let us show you how it works and you'll understand why we're so enthusiastic about the New Idea. It costs you nothing to investigate and you will not be urged to buy against your will.

Special Book FREE

When you come in be sure you ask for a free copy of "Helping Mother Nature"—the special book which has been prepared by the manufacturers. This is not a catalog, but is a book of information on the proper way to spread manure to get the best results. This book is really worth money, but we'll give you a copy free if you'll call at the store.
