**Runyan the Eye Man at**

McConnellsburg along about 1st of May. See exact dates next week.

**Card of Thanks.**

Mrs. Elizabeth McClellan desires in this manner to express her thanks to those kind friends who assisted so faithfully in the care of her brother John Mann, during his last illness.

**Seventy-five Automobiles.**

Word has been received that on Saturday of this week, seventy-five Overland automobiles will pass through McConnellsburg from Toledo, over the Lincoln Highway for Harrisburg. This is necessary, it is said, because the Overland Company was not able to get railroad transportation speedily enough to make the shipment east.

**McConnellsburg Normal.**

The annual Normal School of McConnellsburg will open June 4th, for a term of six weeks. The purpose of the school will be to prepare teachers to do more efficient work in the school room. The course of study will be especially arranged to meet the demands of teachers and persons preparing to teach. A complete announcement will be issued later.

ADMIRAL SMITH,  
LEWIS HARRIS

4 19 2t

**Educational Meeting.**

The fourth local institute of Belfast township was held at Cedar Lane last Friday evening. The following questions were discussed: 1. Writing; how taught 2. Value of Supplementary Work. 3. Grammar; how Taught in All Grades. Teachers present were Hobart Truax, Blanche Smith, Etta Waltz, Vernona Mellott, Levi Garland and George Mellott, from Belfast, and Mrs. Jessie Yeakle of Thompson, and two ex-teachers Mrs. Maud Hollenshead and Miss Ethel McEldowney. Geo. Mellott, Secretary.

**Summer Normal.**

I wish to announce that there will be a Summer Normal conducted in the Hustontown school house for a term of 7 weeks, beginning May 14, 1917.

Books to be used: Arithmetic, any text you may have; Grammar, Reed & Kelloggs; Geography, Hopkins Physical; Physiology, Steeles; Algebra, Wentworth; Mental, Hull; Civil Government, Shimmel; History, Barnes; Theory of Teaching.

For any additional information, I shall be very glad to be at your service. I am,

Yours very respectfully,  
H. P. BARTON.

**BALK RUN.**

Joe Thomas and Miss Annie Hann spent last Sunday at Elmer Hann's.

Russell Thomas has bought an 8-horse power wood sawing outfit and is now prepared to make the wood fly.

Wm. Paylor is spending some time visiting among friends in Franklin County.

Mrs. Mary Thomas, who has been in frail health for some time does not seem to be improving as much as her friends would like.

Mrs. John Ott, who has been confined to her bed since last December is able to be up again.

Mrs. David Rinedollar and sister spent last Saturday visiting friends in Franklin County.

Mr. C. P. Tritle who has been on the sicklist for several days is better.

Mrs. Edgar Pittman and children Fred, Merrill, Margaret and Netha, of Mercersburg spent last Sunday in the home of Mrs. Pittman's mother Mrs. Lucina Ferner.

**Wanted, For Sale, For Rent, Lost, Found, Etc.**

**RATES**—One cent per word for each insertion. No advertisement accepted for less than 15 cents. Cash must accompany order.

**WANTED**, An experienced man to work on farm. Good wages guaranteed. For particulars write CHAS. HARTZFELD, Curwensville, Pa. 4 5 4t.

**WANTED**—A man familiar with farm work to assist on small farm in Westmoreland County, Pa. Must have good reference. Will pay transportation. W. R. SLOAN, McConnellsburg, Pa. 4-5-tf.

**EGGS**—ACTLY—S. C. Buff Orpington eggs from new thoroughbred stock at 75 cents for a setting of 15 eggs. All infertile eggs replaced.—H. U. NACE, McConnellsburg, Pa. 4 19 2t.

**Sale Register.**

Wednesday, April 25, C. A. Chamberlain, executor, will sell the G. M. Chamberlain farm in Wells Valley at 1 o'clock. See advertisement elsewhere in this paper.

**"Daddy"**

"Dad" is the English of "papa." "Dad" and "daddy" were well known in the sixteenth century. "Papa" did not come in, borrowed from abroad, until the seventeenth century was well advanced.

Florio at about the end of the former century defined the Italian "papa" as the first word that children are taught to call their father, as ours say dad, dadie or bab. "Dad" seems to be the commoner to mankind of the two.

**Specials in Millinery.**

On Friday and Saturday, April 20th and 21st, we shall offer all our millinery at reduced prices to make room for Summer hats, some very pretty models at a very low figure. We have added a line of shirtwaists to our stock of millinery. They are good-looking, and worthy of your consideration. We will appreciate your coming in and looking over our stock of hats and waists.

MRS. S. MANNING,  
111 N. Main St.,  
Opposite Post Office,  
Chambersburg, Pa.

**Morbid Young Women.**

The tragic story of two young women, one from Cincinnati, O. and one from Newton, Mass., who killed themselves in a double suicide agreement at Portsmouth, N. H., is an extreme illustration of the tendency to morbidness which many young women feel to some degree. People who run girls' seminaries and boarding schools find young women who conceive inordinate and abnormal attachment for each other. A bond of this kind led to this sad story of two girls who died rather than permit themselves to be separated.

These regular love affairs between two persons of the same sex are rarely seen in the case of young men. Among girls they are not uncommon. The same passionate attachment, and often the same spirit of jealousy, is seen as in affairs between men and women. The results are rarely as tragic as in this case. But they often lead to a lot of unhappiness and interfere with a girl's normal life and work. The heads of private schools dread abnormal attachments, and try to turn their pupils, thoughts in saner directions.

To sober and self contained persons, such evidences of hysteria seem absurd. But many young women are bundles of nerves and sentiment to an extent not realized by men and the cooler and more ordinary type of women. Their heart gets set in a certain sentimental direction, and the affair completely fills their lives.

Probably the conditions under which girls used to live were more promotive of these affairs than modern habits. The present day girl is full of work and study and normal play, and she takes her sentimental affairs with common sense and good spirit. If separations come, she finds plenty of wholesome interests to fill her life. Work is a great curative of morbidness. The active young women of the modern world have precious little time to get notions in their heads.

**RACKET STORE**

Well, last week we told you we had the agency for Dr. Hess's Stock Remedies—Disinfectants, Pan-a-cea for chickens, and all the rest of his remedies. We have heard of people who were not getting an egg a day, that after using a package or more, are now getting 8, 10, and 12 eggs a day. Isn't this paying? And hogs, sheep, and cattle—equally good results.

**Shoes Shoes**

As you all know, shoes are advancing in price, but we are glad to say that we are still able to sell a great many shoes at old prices. As long as we have them at the old prices we will sell this way, so we think it will be to your advantage to buy early.

**Wire and Wire Nails.**

We bought a carload of wire and wire nails last October which did not reach us until the 10th of January; and it was lucky that we did buy early, for the wholesale price has made several advances since that time. We are now offering wire fence to you at prices we would have to pay, if we were buying now. As long as this lot lasts you will get it at January prices.

Come and See Us.

**HULL & BENDER,**

McConnellsburg, Pa.

**The Disabilities of the Jews.**

To the Hebrew race among us, the overthrow of the Russian despotism means a great deal. It signifies that in the center of the greatest Jewish population, this struggling race is apparently to get a legal equality. This must affect the status of the race all over the world.

In this country the Jews have every legal and political right, and occupy a prominent place in the business world. They still suffer social restrictions. There are thousands of hotels, particularly those at public pleasure resorts, that will not receive them. The hotel managers say they would lose their other business if they attempt to force the Hebrews into their company. This is undemocratic and un-American, and is the fault of public sentiment.

The persecuted condition of the race in Russia has been a drag on its progress all over the world. The result of the indignities which they suffered in that country was to create in their minds a feeling of hostility to the Christian peoples. Having been persecuted, his property destroyed and his life endangered, it was natural enough that the Jew should feel it legitimate to get back at his tormentors in anyway he could, usually by getting the better of him financially. The Jews driven from Russia

came over here in an ignorant condition, embittered against the Christians, disposed to take advantage of them where they could. In that frame of mind it was perhaps natural that they should be unpopular. Education is the greatest remedy for a condition like this, and the wise leaders of the Hebrew people urge it. School and college life has a wonderful power for removing race friction. Many of the young people going through our schools have all the incisive mind and unbounding energy of their blood, without those harder traits that grew up in years of bondage and suffering.

Dr. R. B. Campbell, of New Grenada passed through town last Monday on his way to Philadelphia where he will take a post-graduate course at the polyclinics for graduates in medicine and also to attend medical lectures at the University of Pennsylvania. The Doctor expects to return to New Grenada the 15th of May. His wife and little daughter Emma Grace will spend the time in McConnellsburg in the home of Mrs. Campbell's mother Mrs. E. M. Lodge.

Willard Snyder, Ed and Ira Wink and Oliver Plessinger, of Needmore were an automobile party that drove over to McConnellsburg last Saturday.

**Military Terms Defined.**

Just now when everybody is talking war, it may be helpful to our younger people to throw some light on the meaning of terms frequently heard and not always understood.

A "rookie" is a recruit. An officer never "enlists." He is commissioned by the President of the United States. Only private soldiers, including corporals and sergeants can "enlist."

To be "drafted" means to be forced into the military or naval service.

To "volunteer" means to go into the service willingly.

"Rank and file" do not mean officers and enlisted men. "Rank" is a row of soldiers and "file" represents a man in the front rank with the man or men directly behind him.

"Squad" is part of a company. A captain commands a company and he has under him a first lieutenant and a second lieutenant.

A major commands a battalion which is made up of four companies. A regiment is commanded by a colonel and it comprises three battalions so that a regiment is made up of twelve companies.

The new army law abolishes the grade of brigadier general. Hereafter, if that law passes a colonel will jump directly to major general.

A general of the army corresponds to an admiral of the navy. Lieutenant general ranks with a vice admiral and a major general with a rear admiral.

Since Dewey's death there is no American admiral and we have no vice admirals. Neither is there a general or lieutenant general. Our chief of staff is a major general.

The titles of lieutenant general and general, vice admiral and admiral must be especially created by the act of Congress.

President Wilson is commander-in-chief of both army and navy and has the right to take direct command of the fleet or the army of a million men. Every President stands at the top of both the army and the navy—stands there as the supreme commander.

He can dismiss any officer however high or low the rank. He appoints all officers.

**Central Garage AND SERVICE STATION**

J. W. LINN, PROPRIETOR,  
McConnellsburg, Pa.

**Studebaker Six at Old Price**

I have in stock one new Studebaker Six, that bought before the advance in price, that I can sell at \$1115.00. Be quick. The same car will cost you \$1280 delivered now, under the new price.

Besides the Studebaker, I am also agent for the Chevrolet and Maxwell cars—nothing better on the road.

All kinds of tires, oils, and accessories on hand all the time; also,

**A Full Line of Ford Repairs.**

Don't forget us. You'll find us a friend in time of trouble.

**Prompt Service. Free Advice.**

Office one door west of City Hotel. Garage in rear.

**J. F. SNYDER**

Mercersburg, Penna.

Wishes to inform the public that he has just received from the manufacturers a car load of

**NEW IDEA MANURE SPREADER**

He is the man to sell this spreader in Franklin County, and is still selling the same spreader.

**They are Built Better**

now than ever before. Any farmer thinking of buying a Spreader should look this one over very carefully before he makes a purchase. He also has a full line of farm implements, Machinery, Wagons, Buggies, and repairs of all kinds.

Thanking my many patrons for past favors and soliciting a continuance of the same I am yours truly

J. F. SNYDER,  
Mercersburg, Penna.

**Pays for Itself in Better Crops**

Even if you have only a small farm the New Idea Spreader will make you enough money to pay for itself and give you profit besides.

Scientists and experiment stations have determined that the value of manure is from \$8 to \$10 per animal. Ordinarily half of this is lost through absorption in the barnyard and through improper spreading with a fork. Save this loss by using a New Idea Spreader and you'll save \$300 to \$400 a year even on a 80 acre farm—more on a larger place.

That's why you should increase your profits by spreading with the

**NEW IDEA**  
Registered U.S. Pat. Off.

**Spreads 7 Feet—Across 3 Corn Rows**

The wide spreading New Idea saves you half a mile of travel per acre. It spreads between the wagon tracks and you don't have to drive over the spread manure. It spreads uniformly and the spread can be varied 3, 6, 9, 12, 15, 18 loads per acre merely by pushing a lever.

The double cylinders and distributor take two whacks at the manure. Every particle goes onto the ground—none left to freeze or rot. There is no danger of clogging so the New Idea can be loaded as high as the ordinary wagon box. Strong chain conveyor brings manure unfaillingly to cylinders. Cannot slip from under load and will not race going up.

Chain drive—no gears to freeze, break or strip. Power to conveyor and spreader mechanism is derived direct from rear axle—no side strain or lost power.

The New Idea is made by spreader specialists with more than 16 years experience. We have the confidence to back their machine with a 1 year guarantee on workmanship material. We unhesitatingly recommend it.

**See This Spreader**

Let us show you how it works and you'll understand why we're so enthusiastic about the New Idea. It costs you nothing to investigate and you will not be urged to buy against your will.

**Special Book FREE**

When you come in be sure you ask for a free copy of "Helping Mother Nature"—the special book which has been prepared by the manufacturers. This is not a catalog, but is a book of information on the proper way to spread manure to get the best results. This book is really worth money, but we'll give you a copy free if you'll call at the store.
