

Runyan the Eye Man at

McConnellsburg Thursday and Friday, May 3 and 4 to 3 p. m., Burnt Cabins Friday May 4 about 4 p. m.

Broad Top, May 11, a. m.; New Grenada, May 12, a. m.; Wells Tannery, May 12, p. m. and May 14, a. m.; Saxton, May 15; Three Springs, May 17.

West Virginia went "bone dry" on May first.

Hays Morgret recently purchased a Buick car from L. W. Funk, of McConnellsburg.

John A. Irwin is having a fine slate roof put on his house and store on West Lincoln Way.

Dr. F. K. Stevens will be at Hustontown May 7th and 8th; at Needmore, May 21st and at Burnt Cabins on the 22nd.

A lump the size of a hen's egg on the side of J. K. Johnston's right jaw last Monday was proof enough that he had not slept well for several nights. Cause, a sore tooth.

Alex Patterson, of Cumberland county, arrived in McConnellsburg last Saturday to look after affairs on his farm in the Cove. He reported that no corn had been planted on his side of the mountains.

If you are troubled with wormy apples, spray for codling moth as soon as the apple blossoms begin to fall off, or after the blossoms are all open as that is the time the eggs are laid in the heart of the blossom.

Mrs. Harry Angle, of Upton, Franklin county was a guest of Miss Mollie Seylar while attending the Missionary meeting in the Reformed church last week. Mrs. Angle is better known in McConnellsburg as Stella Boyd.

Orlan Mock went to Roaring Spring in a friend's car last Wednesday and came home Monday. From Everett he rode in a eighty-horse power machine that brought him over the hills on what Orlan said was the "ride of his life."

Several steam rollers are at work leveling up the surface of the Lincoln Highway between this place and Chambersburg. The road on the mountain is in fairly good shape, but it gets pretty muddy after a rain. Too much soft material working up through the stone work.

Miss Olive Pittman made another trip to Chambersburg hospital last Sunday to try to obtain relief from the severe pain in the thumb which she had cut open at that institution ten days ago. Two years ago she had a felon on that member and a fragment of loose bone caused the trouble the second time.

Owing to protection, probably robins have increased in numbers until they are now troubling gardens "a little bit." But if the pretty creatures nip a little cabbage, they certainly will pay for it later when troublesome insects appear. Birds do not get all the insects and worms, but if all birds disappeared we could have no gardens.

Mr. and Mrs. Silas Felton and daughters Mary, Margaret and Emma, and Mr. Harry Felton—all of Everett R. R. 4 motored to Shippensburg last Sunday leaving Mary at the Normal. In the afternoon they returned home, stopping for supper with Mr. and Mrs. C. D. Hixson and family, East Lincoln Way. Mrs. Felton is Mr. Hixson's sister.

L. H. Wible and family removed on Monday from their home on south Thirteenth street Harrisburg, to a nice house on top of the hill immediately west of Dr. Swallow's residence in Camp Hill. They are practically in the country, but with city conveniences. A good garden in connection will remind them of former homes in Fulton county.

Get in the Swim.

Since many of the canned articles that formerly sold for ten cents, or three-for-a-quarter, are now selling for nearly twice that sum, has it occurred to any of our Licking Creek friends that their bank accounts could be fattened and the long distance to railroads offset by canning and evaporating their products for condensed shipments? Co-operation, friends, co-operation, is all that is needed to bring the benefits of high prices to our farms.

Some Plain Facts

When we invite you to do business at our bank, you naturally want to know why we should ask you to do so. We are right here to answer that question, as well as any others. It's because we have faith in our bank and the men interested in it. It's because we honestly believe we can do as good or better by you than any other bank in this territory. Our banking facilities are the best. We have modern equipment, accommodating officers, have ample capital and surplus, know the need of the people of this community and feel that it is to your interest as well as ours that you should make our bank your bank. If there are more questions, don't be backward about coming right in and asking them. Nothing would please us better.

FULTON COUNTY BANK.

Wanted, For Sale, For Rent, Lost, Found, Etc.

RATES—One cent per word for each insertion. No advertisement accepted for less than 15 cents. Cash must accompany order.

LOST—Open-face silver watch between Racket Store and McClain's garage last Saturday night. If found please return to NEWS office and receive reward.

Students for Farms.

The shortage of Pennsylvania farm labor is estimated at least 250,000 workers. The Public Safety Committee hope to overcome this shortage to a large extent by placing student help on the farms under such conditions as will secure the best distribution of labor and protect the plan from abuses and confusion. To this end all high schools and college authorities have been asked—or will be asked—to release all men over sixteen years of age who have made average of 70 and over, and the men so released to be given advanced standing when they return to school next fall if they comply with the request to work for farmers.

Spelling Bee.

A full attendance of members of the Civic Club is requested for this evening at Miss Minnie McGovern's, to arrange for a spelling bee to be held in the Auditorium Friday evening, May 11th. No admission to the bee will be charged, but a liberal collection will be asked. The Civic Club is preparing to do good work for the town and vicinity and this is one of the ways selections to raise money. As every one knows, Civic Clubs are the least selfish organizations in the world. What they do benefits no individual alone. The name indicates public spirit. They should not be expected to go down into their own pockets for money to pay for public improvement. All members serve the general public free of charge. Civic Clubs have become a necessity in every borough that has any civic pride. Therefore we know that the public will continue to generously support our club as has been done since its organization. A sufficient sum will soon be had to begin work.

Entertainment.

An entertainment will be held at Crystal Springs on Saturday evening, May 12th. The Old New Hampshire Home a Rural Drama in three acts. Time 2½ hours will be given.

CAST OF CHARACTERS.

Farmer Winthrop—A New Hampshire farmer—R. J. Barton. Edward Van Dusen—secretly married to Mabel—Harold Akers. Oliver Stanhope—a country blacksmith in love with Mabel—Harvey Raker. Zeb Watkins a country boy—Archie Akers. Micky Mullins—a traveling tinker—Roy Hixson. Moses Gazinski—a Hebrew glazier—Glenn McKibbin. Rawlings—In league with Van Dusen—James Davis. Mabel Winthrop—Farmer Winthrop's daughter—Minnie Lynch. Tilly—Her maiden aunt—Celia Barton. Mrs. Winthrop—The Farmer's wife—Annie Wilkinson. Muffins—a young lady with a mind of her own—Elizabeth Hixson.

Big Egg.

Last Sunday one of George W. Morton's Rhode Island Reds laid an egg, which for size is a real curiosity. By the shorter circumference, the measurement is 6½ inches and by the longer 7½ inches.

RACKET STORE

Well, last week we told you we had the agency for Dr. Hess's Stock Remedies—Disinfectants, Pan-a-acea for chickens, and all the rest of his remedies. We have heard of people who were not getting an egg a day, that after using a package or more, are now getting 8, 10, and 12 eggs a day. Isn't this paying? And hogs, sheep, and cattle—equally good results.

Shoes Shoes

As you all know, shoes are advancing in price, but we are glad to say that we are still able to sell a great many shoes at old prices. As long as we have them at the old prices we will sell this way, so we think it will be to your advantage to buy early.

Wire and Wire Nails.

We bought a carload of wire and wire nails last October which did not reach us until the 10th of January; and it was lucky that we did buy early, for the wholesale price has made several advances since that time. We are now offering wire fence to you at prices we would have to pay, if we were buying now. As long as this lot lasts you will get it at January prices.

J. F. SNYDER
Mercersburg, Penna.

Wishes to inform the public that he has just received from the manufacturers a car load of

NEW IDEA MANURE SPREADER

He is the man to sell this spreader in Franklin County, and is still selling the same spreader.

They are Built Better

now than ever before. Any farmer thinking of buying a Spreader should look this one over very carefully before he makes a purchase. He also has a full line of farm implements, Machinery, Wagons, Buggies, and repairs of all kinds.

Thanking my many patrons for past favors and soliciting a continuance of the same I am yours truly,

J. F. SNYDER,
Mercersburg, Penna.

Pays for Itself in Better Crops

Even if you have only a small farm the New Idea Spreader will make you enough money to pay for itself and give you a profit besides.

Scientists and experiment stations have determined that the value of manure is from \$8 to \$10 per animal. Ordinarily half of this is lost through absorption in the barnyard and through improper spreading with a fork. Save this half by using a New Idea Spreader and you'll save \$300 to \$400 a year even on an 80 acre farm—more on a larger place.

That's why you should increase your profits by spreading with the

NEW IDEA
Registered U.S. Pat. Off.

Spreads 7 Feet—Across 3 Corn Rows

The wide spreading New Idea saves you half a mile of travel per acre. It spreads beyond the wagon tracks and you don't have to drive over the spread manure. It spreads uniformly and the spread can be varied 3, 6, 9, 12, 15, 18 loads per acre merely by pushing a lever.

The double cylinders and distributor take two whacks at the manure. Every particle goes onto the ground—none left to freeze or rot. There is no danger of clogging so the New Idea can be loaded as high as the ordinary wagon box. Strong chain conveyor brings the manure unfaillingly to cylinders. Cannot slip from under load and will not race going up hill. Chain drive—no gears to freeze, break or strip. Power to conveyor and spreader mechanism is derived direct from rear axle—no side strain or lost power.

The New Idea is made by spreader specialists with more than 16 years experience, who have the confidence to back their machine with a 1 year guarantee on workmanship and material. We unhesitatingly recommend it.

See This Spreader

Let us show you how it works and you'll understand why we're so enthusiastic about the New Idea. It costs you nothing to investigate and you will not be urged to buy against your will.

Special Book FREE

When you come in be sure you ask for a free copy of "Helping Mother Nature"—the special book which has been prepared by the manufacturers. This is not a catalog, but is a book of information on the proper way to spread manure to get the best results. This book is really worth money, but we'll give you a copy free if you'll call at the store.
