Mrs. D. Keyser, McConnellsburg, says: "My back ached constantly and the pains in my loins were so severe that it was almost impossible for me to bend over. I had but little strength and my housework became a burden. One box of Doan's Kidney Pills, procured at Trout's Drug Store, cured me."

Doan's Made a Cure. Over Two Years Later, Mrs. Keyser said: "Doan's Kidney Pills completely cured me of kidney trouble. I am in good health now."

Price 50c, at all dealers. Don't simply ask for a kidney remedy-get Doan's Kidney Pills-the same that Mrs. Keyser has twice publicly recommended. Foster Milburn Co., Props., Buffalo, N. Y.

Vital Advance Program Continued.

DEAR SUPERINTENDENT:

The County Convention will be held at Needmore, May 24th and 25th. Please see that one or two delegates are elected by your school without fail. It would be a stimulus-indeed, a blessing-if every school in the County could be represented. At the State Convention at York, last year, every county in the State was represented; and the announcement, made by Mr. Landis, brought cheers from the 1200 delegates and 3000 Sunday school lovers present.

The Sunday school needs your help and support. It is the most successful recruiting station the Church has to-day; but, it is vastly more-is is the training center of the Church.

Our County Secretary is very anxious that you send your Sunday School report before, or at, the Convention at Needmore. You know if you or your secretary has made a statistical report this year of your school; if not, please do so. It is an important matter The County is always affected and humiliated by the neglect of some schools to report. We hope for a liberal offering from your school. If the District pledges are paid, we can meet the County pledges to the State.
Yours for a Great Convention.
PRESIDENT AND SECRETARY.

Wealth in Alaskan Waters. Nearly all Alaskan waters teem with herring, whose value as a food fish is just beginning to be recognized in those parts. Important in Alaskan fisheries is the whaling industry. The species of whale most common are the hump-back, fin-back, sulphur-bottom and sperm. The sperm whale is plentiful about Resurrection bay and Cook inlet waters. A good-sized sperm whale is worth about \$3,000. The great Alaska salmon industry is the most important industry in Alaska next to mining.

Soap as Germ Destroyer. Lately medical science has been trying to find out to what degree the chemical action of soap can be depended upon as a destroyer of germs. Professor Symes, after experimenting with many varieties of soap, declares that "all soaps possess antiseptic properties in some degree, and that any germs rubbed into soap or dropped upon its surface are not capable of multiplication."

See If Your Diamond Is Genuine. Here is a test that can be made when a diamond is quite clean and dry. Place on the surface of a diamond a tiny drop of water. Now take a needle or pin and try to move the drop about. If the diamond is genuine, experts say, the drop can be rolled intact. On the other hand when the gem is an imitation the water spreads directly it is touched with the needle point.

TUESDAY

TOW the old range does love to heat things up, especially when it's sizzling hot outside! Then, there's always the coal or wood to carry, always that constant raking and poking, pulling this and pushing that, to keep the fire going.

But the ironing must be done. There's no other way to do it, is there? No, not unless you have a New Perfection Oil Cook Stove in your kitchen.

NEW PERFECTION

have made thousands of women happy-freed them from the ironing day and the everyday drudgery and overwork you have now.

A Perfection will heat the irons on Tuesdays. And it's always ready to bake, fry, boil or roast at the strike of a match. You'll be particularly interested in the separate oven and the fireless cooker. Your dealer will explain about them. Ask him.

THE ATLANTIC REFINING COMPANY Philadelphia and Pittsburgh

One of the many good points about a Perfection is that it burns the most economical fuel-kerosene. And the best kerosene is Rayolight. It's so highly refined that it burns without smoking, sputtering, smelling or charring the wicks. Look for this sign:
