AMERICAN TANKER AND U-BOAT BATTLE

Four of Moreni's Crew Lose Their Lives.

TWO WILL DIE OF WOUNDS

Foe Lauds Captain For His Game Fight—British Merchant Cruiser and Five Norse Ships Are Destroyed.

Washington.—American naval gunners have met their first defeat in open fight with a German submarine. Official dispatches announced the destruction of the tank steamer Moreni, abandoned ablaze June 12 by her crew and armed guard after a desperate running fight in the war zone, which cost the lives of four of her crew.

Picked Up in Half Hour.

Half an hour after the tanker had been sent to the bottom her 43 survivors, including all of the members of the armed guard, were picked up with their lifeboats by a passing steamer. The German commander had set them adrift after congratulating the American skipper upon his game fight and having the wounded men treated by the submarine's surgeon.

The submarine began the action at a range of 8,000 yards, four nautical miles, when she hardly was visible to the steamer without glasses. Presenting virtually no target herself, she sent 200 shells at the big tanker, making many hits, while the American gunners wasted 150 shots without harming the speck from which the deadly hail came.

German Courtesy Commented On.

Naval officers assume that the submarine was armed with the six-inch rifles mounted by most of the newest undersea boats. No statement was available as to the armament of the Moreni, nor as to whether she was one of the vessels that sailed without waiting for full equipment, including a range finder. The failure of the gunners to get the submarine was attributed generally to the long range and small target.

British Cruiser Sent Down.

London.—The British armed merchant cruiser Avenger was torpedoed and sunk in the North Sea on Wednesday night. All but one were saved. PLANS TO DOMINATE AIR.

Aircraft Board Expects U. S. To Turn Scales In War.

Washington.—A program of aircraft production through which it is hoped to dominate the fighting lines of Europe within a year has been worked out by the Aircraft Production Board of the Defense Council, and will be submitted to Congress soon with a request for a large appropriation to carry it into effect.

Howard Coffin, chairman of the board, stated that although details would not be revealed now, the plan was so comprehensive that he was sure Congress would approve it quickly. For weeks Mr. Coffin has been in conference with the country's leading aircraft and material makers and the plan he will submit is believed to have the approval of all the interests which will do the actual construction work.

SILVER AND LEAD GOING UP.

Lessened Production and War Demands Given As Cause.

New York.—War demands, which long ago virtually swept the market bare of spot copper, are rapidly diminishing the market supplies of silver and lead. Bar silver rose to 77 cents an ounce, an advance of 21-8 cents over the price of the early part of the month and within 2 cents of the extreme price of last February. Quotations for lead varied, some producers asking 12-1-2 cents a pound, the highest price for 20 years, although 11 cents was quoted by the more extensive dealers.
