To prove his statements about the hams he is advertising in the NEWS, grocer G. G. Palmer, of Chambersburg, sent the editor and his wife a big slice. It was fine and we are indebted to Mr. Palmer for a nice breakfast. He said "You'll want more." And he guessed rightly.

It is to be hoped that your automobile will keep-a-go'in' but if it should take a notion to lie down on you, just step in to the nearest phone and call up Roy Palmer on the Breezewood Bell line No 33, and you'll find him Johnny-on-the-spot. See his advertisement elsewhere in this paper.

A. B. Ross, of Bedford county is endeavoring to interest the people of that section and of Huntingdon county, in the use of a public canning and evaporating plant the same as the NEWS has been doing for Fulton county. Evaporation is so much cheaper, and cans will be so high priced that we lean toward the evaporation idea. Then, too, as we said several times, France and England have appealed to the United States to send evaporated goods in preference to canned articles because of the ease and economy of handling them while being sent to the trenches.

Knows What He Is Talking About.

If you go to the Auditorium Saturday evening you will see and hear a man who has the smell of burnt powder on his clothes; a soldier just fresh from the trenches of the great European war; a man who has felt the sting of the enemies' bullet in his flesh—not once, but four times. Corporal Agate's story is from first hands and is thrillingly interesting. Don't fail to go to the Auditorium Saturday evening. Admissiñn free to everybody.

Protect Your Buildings from Fire.

Use Gould's Fire Resisting Paint in all colors. It preserves, beautifies, and wears as long—or longer—and is cheaper, than other standard paints. On good surface a gallon will cover 300 square feet two coats. Roof paint, too, in all colors. For Sale by

Beauty a Duty.

If Nature's prodigal examples may be taken as a message to us to cultivate the beautiful in our homes and lives, then there is no limit to the efforts we may make to accomplish that end. Why the profusion of bloom and enchanting foliage, if not to teach gentleness, refinement and Godliness?

The Correct Thing in Ladies' Footwear.

Your pretty frocks will scarcely be complete without the correct slipper or pump. In your grandmother's day, with just the tip of her shoes peeping from under her gown, footwear played no such important part in the scheme of correctness.

For you, however, Dame Fashion has decreed that your entire slipper be visible. So you see you must be more than ever particular in choosing footwear for summer.

There is nothing prettier than a white pump, and it is so appropriate the whole summer long. We have them in kid—buck—rubuck and fabrics—made plain, with neat narrow perforations and some with small, dainty ornaments at the instep. They are made with high and medium-high heels and wood with leather covering.

Make it a point to come in today if possible, or tomorrow anyway, just to slip on your size.
