Helping the Cause of Better Roads.

The general public in Pennsylvania and other States is just beginning to awaken to the importance of Good Roads. Military officials are pointing out the necessity of good highways as a defensive measure, for the speedy mobilization of troops and the rapid shifting of men from point to point. Those in charge of food distribution are emphasizing the vital principle of better methods of communication to make the transportation of food more rapid and thorough.

In ordinary times better roads enhance real estate value and increase the efficiency of apparatus for fire protection by making it possible to reach the endangered property more readily and quickly.

To educate the motoring public and thereby add impetus to the cause of Good Roads the Atlantic Refining Company is conducting a campaign in The Saturday Evening Post suggesting to those accustomed to making motor tours in the summer months that they tour Pennsylvania this year.

Pennsylvania is the ideal state to tour at this time on account of its many shrines of historic events in the winning of our country's liberty and such a tour cannot fail to stimulate patriotism. Moreover, patriotic citizens will be interested in the state's practically inexhaustible resources so vitally important at this time.

At the same time it will show the tourists what is being done in the way of road building in Pennsylvania a large part of which this company is interested in. This should stimulate the growth of the Good Road movement in this and other states and result in permanent benefit.

An influx of tourists should be felt in every part of the state and local merchants, garages and hotels will be certain to reap a benefit therefrom. All loyal Pennsylvanians are requested to make the motor tourists welcome and give special attention to those showing the "Courtesy Cards" issued by the Atlantic Refining Company.

Last Friday, Miss Minnie McGovern gave a five o'clock tea to about thirty-five ladies. After tea the guests were shown a table on which were twenty-four varieties of common garden and farm seeds each in a separate dish and they were asked to name the seeds. Not one present named all unaided. If you think it easy, mix turnip, radish cabbage, cauliflower, clover, etc., and then attempt to separate them.

Last Saturday, ex-Sheriff J. J. Harris fed a bunch of eighteen motorcycleists at his new hotel but he didn't feed the motorcycleists—that's where the laugh comes in on the old-style horse.

Last Sunday evening, the M. E. church was crowded to the walls during children's service. A splendid program was rendered and the little people excelled former performances.
