Conclusive Answer To Enemy.

"One of the chief purposes of the campaign was to distribute the Liberty Bonds widely throughout the country and place them as far as possible in the hands of the people. This was important because the strength of Government finance, like the strength of Government policies, rests upon the support of the people. The large number of subscribers, especially the large number of small subscribers, is most gratifying and indicates that the interest of the people was aroused as never before in an issue of bonds.

HOPES FOR CLOSE UNION

Kerensky Whipping Army Into Shape. People Grateful For U. S.' Prompt Recognition Of Republic.

· Washington.—Russia's consecration to a war to the end with German autocracy was avowed by Special Ambassador Boris A. Bakhmetieff, head of the Russian mission here, in a statement to the American people,

Only through victory, he said, can a stable world peace and the fruits of the Russian revolution be secured.

"The Russian people thoroughly understand and are fully convinced, said Mr. Bakhmetieff, "that it is abso lutely necessary to root out the autocratic principles which underlie and are represented by German militiarism, which threatens the peace, the freedom and the happiness of the world."

All classes in Russia, the Ambassador said, are concentrated on the enormous task of reconstruction made necessary by the sweeping away of the evils of the old regime and already noticeable results are apparent, especially in the army under the energetic leadership of Minister Kerensky.

Brings Thanks To U. S.

"In behalf of the Russian provisional government and in behalf of all the people of new Russia," said Mr. Bakhmetieff, "I have been first of all sent here to express their gratitude to the government of the United States for the prompt recognition of the new political order in Russia.

"Close and active relationship between the two nations based upon complete and sincere understanding encountered inevitable obstacles during the old regime because of its very nature. The situation is now radically changed, with free Russia starting a new era in her national life. The natural and deep feeling of sympathy which always existed between the people of the two great nations will grow now, by the force of events into a stable friendship-into permanent and active co-operation.

Washington.-A brief message from London brought the Navy Department its first news of the appointment of pathy and friendship and our solemn Vice-Admiral Sims to command the friendship between the United States the War Department's recruiting Allied naval forces in Irish waters during the absence of the commander of that district. The department had no other information as to the new responsibilities placed upon the American officer.

The Washington Government has given Admiral Sims additional power to meet any condition that may arise Much of his time has been spent in London and Paris, and the latest advices are the first to indicate that he has been at sea with his ships.

It was said at the department, however, that the officer determined for himself the best course to pursue and would spend all his time affoat if he regarded that as advisable.

WILSON'S PROMISE TO THE BELGIANS

Declares Their Country Shall Be Restored.

THE FORMAL PRESENTATION

Expresses the Nation's Appreciation For the Generous Outburst Of Sympathy Shown By the American Nation.

Washington.-In greeting Belgium's war mission Monday President Wilson expressed America's solemn determination that on the inevitable day of victory Belgium shall be restored to the place she has so richly won among the self-respecting and respected nations of the earth. The commissioners spent the first

day in Washington paying official calls. Secretary Lansing accompanied them to the White House where Baron Moncheur, head of the mission, handed to President Wilson a personal letter from King Albert and expressed in a short address Belgium's gratitude for America's aid.

"Since the first days of the greatest tragedy which has ever befallen hu-June 23-30 Recruiting Week American Will Try His Hand in manity," said the Baron, "Belgium has contracted an immense debt of gratitude to the generous American nation. In a magnificent outburst of sympathy for the little country which has chosen to delay a powerful and pitiless enemy rather than to tarnish its honor or forswear its plighted word, the initiative of American citizens gave to the unfortunate victims of German cruelty in Belgium the most splendid evidences of generosity."

President Wilson, thanking Baron Moncheur and through him King Albert, said in reply:

"Your Excellency is good enough to express the thanks of the Belgian people for the participation of America in feeding the people of your stricken country. This work in which so many Americans have been enthusiastically engaged since the beginning of the war is one which has brought as much of benefit to them as to the innocent civilian population whom it was intended to aid.

"America engaged upon this work as being the only means, however inadequate, of expressing our deep and sincere admiration for the valiant nation that had gone forth unhesitatingly to meet the onslaughts of a ruthless enemy rather than sacrifice her honor and her self-respect.

"The American people have been able to understand and glory in the unflinching heroism of the Belgian people and their sovereign, and there is not one among us who does not today welcome the opportunity of expressing to your own heartfelt symdetermination that on the inevitable day of victory Belgium shall be restored to the place she has so richly won among the self-respecting and respected nations of the earth."

Machinery for Enrolling Big Army Complete By July 1.

EXEMPTION REGULATIONS

Brigadier-General Crowder Foresees No More Complication Than Was Experienced With Registration.

> 9,649,938 MEN ENROLL FOR COUNTRY'S SERVICE.

Washington.-War registration returns, virtually completed by reports from Wyoming and Kentucky, show 9,649,938 men between the ages of twenty-one and thirty years, inclusive, have been enrolled for the country's service.

In addition to the regularly tabulated total, 6,001 Indians were enrolled by State officials, or on reservations by Interior Department agents. Counting the 600,000 or more men in the Federal service and not

required to register, the provostmarshal-general's office said the Census Bureau estimate of 10,275,-604 eligibles was approximately correct, and that few slackers are to be sought.

Washington.-Machinery for enrolling an army of 625,000 men by selective draft will be completed in every detail by July 1, two months before the tentative date considered for calling the first of the troops to the colors. Regulations for the exemption process will be made public shortly.

Officials have not disclosed the plan to be followed, but the machinery for the exemption boards, both local and review, can be put into operation on July 1. it is stated.

Brigadier - General Crowder, who worked out the plans for both registration and selection, foresees no more complication with the selection and exemption machinery than was experi enced with registration. Secretary Baker and his advisers repeatedly have given assurances that the selection system will be so fair that there would be no ground for fears that any man will be favored by reason of political or other relations. In order that neighborhood knowledge of a man's work and his dependents might aid in the task of sending to the front men who can be spared at home, the country undoubtedly will be highly subdivided, and the exemption districts be small.
