Why That Lame Back?
That morning lameness—those sharp pains when bending or lifting, make work a burden and rest impossible. Don't be handicapped by a bad back—look to your kidneys. You will make no mistake by following this McConnellsburg resident's example.
P. F. Black, McConnellsburg, says: "While at work, I slipped and wrenched my back badly. After that I had great pain across my loins and my back often got lame and sore. I used Doan's Kidney Pills, procured at Trout's Drug Store and they soon gave me relief."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Black had. Foster-Milburn Co., Props., Buffalo, N. Y.

Wait Mason on Booze.
I wandered to the grogshop, Tom; I stood behind the bar and drank a bowl of lemonade and smoked a rank cigar; the same old kegs and jugs were there, the ones we used to know when we were on the roundup, Tom, some fifteen years ago. The bartender is a new one, Tom; the one who used to sell corrosive tangle foot to us is stoking now in—afix; the new one has a plate glass front, his hair is combed quite low, he looks just like the one we knew some fifteen years ago. Old soaks came up and called for booze, and dudelets staggered in and burned the lining from their throats with fine old Holland gin; and women stood outside the door, their faces seamed with woe and wept just as they used to weep some fifteen years ago. I asked about our old time friends—those cheerful and sporty men—some were in the poorhouse, Tom, and some were in the pen; and one—the one we liked the best—the hangman laid him low; the world is much the same, dear Tom, as fifteen years ago. I asked about that stately chap whom pride marked for its own; he used to say that he could drink or let the stuff alone; he perished of the James H. Jams, out in the storm and snow; ah; few survive who used to bowl some fifteen years ago. New crowds line up against the bar and call for crimson ink, new hands are trembling as they pour the stuff they should n't drink; but still the same old watchword rings, "This round's on me, you know!" The same old cry of doom we heard some fifteen years ago. I wandered to the churchyard, Tom, and there I saw the graves of those who used to drown themselves in red, fermented waves, and there were women sleeping there where grass and daisies grow, who wept and died of broken hearts some fifteen years ago. And there were graves where children slept, have slept for many a year, forgetful of the woe that marked their short, sad journey here; and 'neath a fine tall monument in peace there leth low the man who used to sell the booze some fifteen years ago.—M. E. Temperance Society.

MATRIMONY NO EASY JOB
Writer Points Out Why Girl Who Thinks So is Making One of the Greatest Mistakes.
I heard a girl in an elevator the other day discussing with a sympathizing friend her differences with a floorwalker, Elizabeth Sears writes in Harper's.
"Aw," she said, "I don't have to take any more sass off'n that gink. I'm goin' to quit here, anyhow. I'm goin' to be married. No more work and no more bossing for me."

Who girl of her mental caliber who enters the married state is walking right into the hardest job she can ever hold down in her life, and totally unprepared for her position. Inside a year, if she is as poor a wife as she has been a shopgirl, there will be another man hanging around the corner saloon trying to forget in a glass of cheap beer the confusion and the bad food in the flat at home. When she gleefully announced that she was going to stop work, the thought of the meals, the cleaning and the laundry had evidently not occurred to her. And the floorwalker doesn't live who can hand out orders like a husband. You have to take them from a husband, too, for you cannot quit your job in matrimony as easily as you can in a shop.

WEATHER FORECASTS.
The weather forecasts issued by the United States weather bureau are based on observations reported by telegraph twice each day, showing conditions at about 200 regular stations. Mail reports are received from about 4,500 additional stations and give detailed data for general meteorological and climatological studies. The United States weather bureau, in addition to supplying weather news to the newspapers, mails the daily forecast to more than 100,000 addresses. The weather service is also made available by telephone to more than 5,000,000 subscribers.

"I should say so. Why, even the fogs get dissipated."

Samples of Ancient Days.
Down to comparatively recent times every little girl worked her sampler and examples of seventeenth-century work are still found and are the objects of the collector's search. They usually contain the alphabet, the worker's name, the date, Bible texts, mottoes and pious admonitions, the whole surrounded by an ornamental border of some conventional design. The earliest sampler in existence is said to bear the date of 1643 and is in the South Kensington museum, London.

Attar of Roses.
Attar of roses, which is an oil, is obtained from three species of wild roses: Rosa centifolia, R. moschata, and R. damascena. The rose gardens at Ghuzipur, India, have long been famous for their output of oil of roses. All these roses thrive with little care in California.

Characteristics of Famous Men.
When I meet a famous man I note that all he has is a little sense, a little politeness and a disposition to look after things. Many famous men are very ordinary, except that they are unusual in the respects noted.—E. W. Howe's Monthly.

Origin of Razors.
It was not until the early part of the eighteenth century that razors were made of steel blades. The men in the middle centuries resorted to pumice stone, with which to use the words of Mr. Pepys, they went through the process of "trimming their skins."
