Runyan the Eye Man at
Saxton August 22.
McConnellsburg August 24 and 25.

Last week's unusual heat killed a number of horses in the neighborhood of Greencastle.

Mrs. William Houpt and son Samuel, of Mercersburg, spent last week among relatives on this side of the mountain.

If you have something to sell—a table, stove, colt,—no matter what it may be, try a cent-a-word advertisement in the NEWS.

On Thursday evening of last week, Miss Ruth Cooper and her brother John entertained a large company of young people at their home east of town.

Ambrose Myers, of Montgomery township, Franklin county, cultivates his entire large farm by tractor. He recently purchased a second machine.

How many of our readers will be glad to learn that diamonds are a little cheaper now than when normal prices prevail? Do not let prospective war brides see this item.

HIDES.—Frank B. Sipes pays the highest market price for beef hides at their butcher shop in McConnellsburg, also highest price paid for calf skins, sheepskins and tallow.

The owner having died, some pigeons were shipped from Chambersburg to a dealer in New York, recently, and a few days ago two pair returned to their coop in Chambersburg.

French soldiers are astonished at the accuracy with which the Americans at the front can throw the little hand bombs and grenades. The skill is attributed to results of our national game of baseball.

A recent letter from Mrs. Geo. W. Parsons, Mt. Union Pa., says that her son Scott enlisted last April. He left for a training camp in Georgia yesterday. Her other son, Samuel, has been called in this draft.

Too many apples on a tree spoil the whole crop. Knock half of them off while they are small and you will have just as many bushels at picking time, and the fruit will be larger and finer quality.

A splendid plan to reduce the high cost of living is to wear our old clothes and shoes a much longer time than we have been accustomed to do. We've been trying it for six months and the other day we discovered we had thirteen dollars to our credit in bank. Who says thirteen is an unlucky number?

Thursday afternoon of last week, Mrs. C. B. Stevens entertained Mrs. Marshall McKibbin, Miss Mary Hoke and Miss Mollie Seylar on Tuscaora Heights at a "Ham and egg fry." The supper was cooked over a fire built on real Indian style. All agreed they never tasted finer flavors than those developed by the open fire.

A demonstration of farm tractors was made last week on John Sollenberger's farm along the Lincoln Highway four miles west of Chambersburg. The work was satisfactory, and during the short time they were in the field in the afternoon eight acres were plowed. Oh, no, they don't farm like they did when "me and you" were young.

HAVE YOU WEAK LUNGS?
Do colds settle on your chest or in your bronchial tubes? Do coughs hang on, or are you subject to throat troubles?
Such troubles should have immediate treatment with the strengthening powers of Scott's Emulsion to guard against consumption which so easily follows.
Scott's Emulsion contains pure cod liver oil which peculiarly strengthens the respiratory tract and improves the quality of the blood; the glycerine in it soothes and heals the tender membranes of the throat.
Scott's is prescribed by the best specialists. You can get it at any drug store.

WE HELP

Who wants to make a lot of money? Why everybody, of course. Who wants to help them make some money?

We will certainly try to help anyone who asks us. We cannot expect to make money unless you do. This bank prospers only as the community prospers. That's why we want to help everybody make money. There are many ways that we can assist both in community affairs and in the private affairs of our patrons and we are only too willing to help all we can. We will be glad to talk over your schemes with you.

More Sheep Reports.
Our readers will recall that Mr. J. C. Funk, of Sylvan, reported two weeks ago, profits of over twenty-six dollars per head from his flock of ten ewes. H. L. Wishart, of Wells Valley, did not itemize his returns, but he told a NEWS reporter that Mr. Funk's flock beat his "just a few cents per head." Mr. Wishart has fifteen ewes. Despite the dog nuisance, many now regret the disposal of their sheep a few years ago.

Will Be Sorry.
Owing to high price of feed, and the tempting price offered for their hens, many farmers recently sold their chickens. Next year they will be sorry. Knowledge of how to obtain winter eggs is being rapidly gained and those who sold their hens will have to lose a year's time raising another flock if they wish to have eggs to sell at the high prices that will rule during the war.

SHOES! SHOES!

We have sold more shoes in one month this year than in last two years. Why? because we had them on hand and didn't advance the price and we are still doing the same thing.

The same is true of our clothing. We have a nice line at old prices and will sell that way until all sold.

Odd And Interesting.
The word "Sunday" is not mentioned in the Bible.
Blue-eyed men are said to make the best rifle shots.
Russia is twenty times larger than France and Germany put together.
One pound of cork is amply sufficient to support a man of ordinary size in the water.
The court records show that the greatest number of divorces take place between the fifth and tenth year of married life.
Scientists State that the little toe is gradually becoming smaller and smaller, and its final disappearance is only a matter of time.
The ex-Czar of Russia, before his deposition, possessed a single estate equal in extent to about three times the entire area of England.
The aim of the authorities of the British Museum is to have a copy of every book published. There are in that vast library 7,125,000 books.
The Russians are the most remarkable of all linguists. They will learn Chinese in six months and will acquire English with in a few weeks.

Chambersburg Made It.

The largest hammer in the United States was recently made in Chambersburg. Until now, there was no way to forge the largest shells used by our great coast defense guns and they had to be cast, or pressed into shape by hydraulic machines. The Hammer stands thirty-four and nine inches in height, strikes one hundred and twenty tons at every stroke. The head is forty inches in diameter and works under a steam pressure of one hundred and fifty pounds. Length of stroke nine feet. The anvil weighs 7,000,000 pounds and total weight of the entire machine is 1,700,000 pounds. Part of the machine was made in Chambersburg by the Chambersburg Engineering Company. Shells up to twenty inches in diameter—the largest in the world.

America's Inventions.

An American machine capable of continuous firing has been invented. Before this the best machine guns could not fire over 500 bullets every minute. The new gun fires twice as fast and need never be stopped to replenish the hopper.
The flying machine and submarine boat are American inventions. Very soon we have the biggest guns on earth and American engineers mechanics are being sent to France to set up and operate American refrigerating machinery. Automatic machinery of American invention is being distributed in Europe to take place of hand labor. Uncle Sam a long time ago "fighting mad," but he will be much larger to the Kaiser next spring when he gets to strike.
